(b) The petition must show (1) that application was made to the board under Section 911.4 and was denied or deemed denied, (2) the reason for failure to present the claim within the time limit specified in Section 911.2 and (3) the information required by Section 910. The petition shall be filed within six months after the application to the board is denied or deemed to be denied pursuant to Section 911.6.

(c) The court shall relieve the petitioner from the provisions of Section 945.4 if the court finds that the application to the board under Section 911.4 was made within a reasonable time not to exceed that specified in subdivision (b) of Section

911.4 and was denied or deemed denied pursuant to Section 911.6 and that:

(1) The failure to present the claim was through mistake, inadvertence, surprise or excusable neglect unless the public entity establishes that it would be prejudiced if the court relieves the petitioner from the provisions of Section 945.4; or

(2) The person who sustained the alleged injury, damage or loss was a minor during all of the time specified in Section 911.2 for the presentation of the claim; or

(3) The person who sustained the alleged injury, damage or loss was physically or mentally incapacitated during all of the time specified in Section 911.2 for the presentation of the claim and by reason of such disability failed to present a claim during such time; or

CHAPTER 415

An act to amend Section 51294 of, and to add Sections 51294.1 and 51294.2 to, the Government Code, relating to the California Land Conservation Act of 1965.

[Approved by Governor July 14, 1970. Filed with Secretary of State July 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 51294 of the Government Code is amended to read:

51294. Section 51292 shall be enforceable only by mandamus proceedings by the local governing body administering the agricultural preserve or the Director of Agriculture. However, as applied to condemnors whose determination of necessity is not conclusive by statute, evidence as to the compliance of the condemnor with Section 51292 shall be admissible on motion of any of the parties in any action otherwise authorized to be brought by the landowner or in any action against him.

SEC. 2. Section 51294.1 is added to the Government Code, to read:

51294.1. After 30 days have elapsed following its action, pursuant to subdivision (b) of Section 51291, advising the Director of Agriculture and the local governing body of a county or city administering an agricultural preserve of its intention to consider the location of a public improvement within such agricultural preserve, a public agency proposing to acquire land within an agricultural preserve for water transmission facilities which will extend into more than one county, may file the proposed route of the facilities with each county or city administering an agricultural preserve into which the facilities will extend and request such county or city to approve or agree to the location of the facilities or the acquisition of the land therefor. or acquisition has complied with the requirements of Section 51292. If the court should so determine, the provisions of Section 51292 shall not apply to the location of water transmission facilities, nor the acquisition of land therefor, in any of the counties into which they shall extend, and no writ of mandamus shall be issued in relation thereto pursuant to Section 51294. For the purposes of this section, the county selected for commencing such action is the proper county for the trial of such proceedings. In determining whether the public agency has complied with the requirements of Section 51292, the court shall consider the alignment, functioning and operation of the entire transmission facility.

Courts shall give any action brought under the provisions of this section preference over all other civil actions therein, to the end that such actions shall be quickly heard and determined.

CHAPTER 416

[Approved by Governor July 14, 1970. Filed with
Secretary of State July 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 1273.01) is added to Title 7 of Part 3 of the Code of Civil Procedure, to read:

**CHAPTER 3. ARBITRATION OF COMPENSATION IN ACQUISITIONS
OF PROPERTY FOR PUBLIC USE**

1273.01. As used in this chapter, "public entity" includes the state, the Regents of the University of California, a county, city, district, public authority, public agency, and any other political subdivision or public corporation in the state.

1273.02. (a) Any person authorized to acquire property for public use may enter into an agreement to arbitrate any controversy as to the compensation to be made in connection with the acquisition of the property.

(b) Where property is already appropriated to a public use, the person authorized to compromise or settle the claim arising from a taking or damaging of such property for another public use may enter into an agreement to arbitrate any controversy as to the compensation to be made in connection with such taking or damaging.

(c) For the purposes of this section, in the case of a public entity, "person" refers to the particular department, officer, commission, board, or governing body authorized to acquire property on behalf of the public entity or to compromise or settle a claim arising from the taking or damaging of the entity's property.

1273.03. (a) Notwithstanding Sections 1283.2 and 1284.2, the party acquiring the property shall pay all of the expenses and fees of the neutral arbitrator and the statutory fees and mileage of all witnesses subpoenaed in the arbitration, together with other expenses of the arbitration incurred or approved by the neutral arbitrator, not including attorney's fees or expert witness fees or other expenses incurred by other parties for their own benefit.

(b) An agreement authorized by this chapter may require that the party acquiring the property pay reasonable attorney's fees, or expert witness fees, or both, to any other party to the arbitration. If the agreement requires the payment of such fees, the amount of the fees is a matter to be determined in the arbitration proceeding unless the agreement prescribes otherwise.

(c) The party acquiring the property may pay the expenses and fees referred to in subdivisions (a) and (b) from funds available for the acquisition of the property or other funds available for the purpose.

1273.04. (a) Except as specifically provided in this chapter, agreements authorized by this chapter are subject to Title 9 (commencing with Section 1280) of this part.

(b) An agreement authorized by this chapter may be made whether or not an eminent domain proceeding has been commenced to acquire the property. If an eminent domain proceeding has been commenced or is commenced, any petition or response relating to the arbitration shall be filed and determined in the eminent domain proceeding.

(c) Notwithstanding Section 1281.4, an agreement authorized by this chapter does not waive or restrict the power of any person to commence and prosecute an eminent domain proceeding, including the taking of possession prior to judgment, except that, upon motion of a party to the eminent domain proceeding, the court shall stay the determination of compensation until any petition for an order to arbitrate is determined and, if arbitration is ordered, until arbitration is had in accordance with the order.

(d) The effect and enforceability of an agreement authorized by this chapter is not defeated or impaired by contention or proof by any party to the agreement that the party acquiring the property pursuant to the agreement lacks the power or capacity to take the property by eminent domain proceedings.

(e) Notwithstanding the rules as to venue provided by Sections 1292 and 1292.2, any petition relating to arbitration authorized by this chapter shall be filed in the superior court in the county in which the property, or any portion of the property, is located.

1273.05. (a) Except as provided in subdivision (b), an agreement authorized by this chapter may specify the terms and conditions under which the party acquiring the property may abandon the acquisition, the arbitration proceeding, and any eminent domain proceeding that may have been, or may be, filed. Unless the agreement provides that the acquisition may not be abandoned, the party acquiring the property may abandon the acquisition, the arbitration proceeding, and any eminent domain proceeding at any time not later than the time for filing and serving a petition or response to vacate an arbitration award under Sections 1288 and 1288.2.

(b) If the proceeding to acquire the property is abandoned after the arbitration agreement is executed, the party from whom the property was to be acquired is entitled to recover (1) all expenses reasonably and necessarily incurred (i) in preparing for the arbitration proceeding and for any judicial proceedings in connection with the acquisition of the property, (ii) during the arbitration proceeding and during any judicial proceedings in connection with the acquisition, and (iii) in any subsequent judicial proceedings in connection with the acquisition and (2) reasonable attorney's fees, appraisal fees, and fees for the services of other experts where such fees were reasonably and necessarily incurred to protect his interests in connection with the acquisition of the property. Unless the agreement otherwise provides, the amount of such expenses and fees shall be determined by arbitration in accordance with the agreement.

1273.06. (a) An agreement authorized by this chapter may be acknowledged and recorded, and rerecorded, in the same manner and with the same effect as a conveyance of real property except that two years after the date the agreement is

recorded, or rerecorded, the record ceases to be notice to any person for any purpose.

(b) In lieu of recording the agreement, there may be recorded a memorandum thereof, executed by the parties to the agreement, containing at least the following information: the names of the parties to the agreement, a description of the property, and a statement that an arbitration agreement affecting such property has been entered into pursuant to this chapter. Such memorandum when acknowledged and recorded, or rerecorded, in the same manner as a conveyance of real property has the same effect as if the agreement itself were recorded or rerecorded.

Sec. 2. Section 15854 of the Government Code is amended to read:

15854. Property shall be acquired pursuant to this part by condemnation in the manner provided for in Title 7 (commencing with Section 1237) of Part 3 of the Code of Civil Procedure, and all money paid from any appropriation made pursuant to this part shall be expended only in accordance with a judgment in condemnation or with a verdict of the jury or determination by the trial court fixing the amount of compensation to be paid. This requirement shall not apply to any of the following:

(a) Any acquisitions from the federal government or its agencies.

(b) Any acquisitions from the University of California or other state agencies.

(c) The acquisitions of parcels of property, or lesser estates or interests therein, for less than five thousand dollars (\$5,000), unless part of an area made up of more than one parcel which in total would cost more than five thousand dollars (\$5,000) which the board by resolution exempts from this requirement.

(d) Any acquisition as to which the owner and the state have agreed to the price and the State Public Works Board by unanimous vote determines that such price is fair and reasonable and acquisition by condemnation is not necessary.

(e) Any acquisition as to which the owner and the State Public Works Board have agreed to arbitrate the amount of the compensation to be paid in accordance with Chapter 3 (commencing with Section 1273.01) of Title 7 of Part 3 of the Code of Civil Procedure.

CHAPTER 418

An act to add Section 74372 to the Government Code, relating to court attachés, and declaring the urgency thereof, to take effect immediately.

74372. Notwithstanding any other provision of law, any person serving as a captain in the marshal's office who is a safety member of the retirement system and whose primary duties are administrative, shall be retired as of the first day of the calendar month next succeeding that in which he attains age 65.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act must take effect immediately in order for the benefits of this act to be operative during most of this year.

CHAPTER 419

An act relating to the Meadows Union School District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 14, 1970. Filed with
Secretary of State July 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. The election held on June 2, 1970, to increase the maximum tax rate of the Meadows Union School District is hereby declared to be null and void. The Meadows Union School District may order an election to increase the maximum tax rate of the district on July 21, 1970. The governing board of the Meadows Union School District shall deliver to the county superintendent of schools the order of election and resolution required by Section 1323 of the Education Code but such order and resolution shall be delivered within 30 days prior to such election rather than 80 days as required by Section 1323.

SEC. 2. The Legislature finds and declares that the special circumstances existing in the Meadows Union School District requires this special act and that a general one cannot be made applicable. Such special circumstance include the fact that in the election held on June 2, 1970, to increase the maximum tax rate, several errors were made with respect to the ballots, and so there is grave doubt as to whether or not the results reflect the will of the people of the district.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit an election to increase the maximum tax rate to be held in the Meadows Union School District on July 21, 1970, and in order that the district may be better able to plan its financial operations, it is necessary that this act take effect immediately.

CHAPTER 420

An act to amend the headings of Part 3 (commencing with Section 4600), and Chapter 1 (commencing with Section 4600) of Part 3, of Division 5 of, to amend Sections 4600, 4605, and 4614.11 of, and to add Section 4602.5 to, the Health and Safety Code, relating to community facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 14, 1970. Filed with Secretary of State July 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Part 3 (commencing with Section 4600) of Division 5 of the Health and Safety Code is amended to read:

PART 3. COMMUNITY FACILITIES

SEC. 2. The heading of Chapter 1 (commencing with Section 4600) of Part 3 of Division 5 of the Health and Safety Code is amended to read:

CHAPTER 1. COMMUNITY FACILITIES LAW OF 1911

SEC. 3. Section 4600 of the Health and Safety Code is amended to read:

4600. This chapter shall be known as the Community Facilities Law of 1911.

SEC. 4. Section 4602.5 is added to the Health and Safety Code, to read:

4602.5. In cities within a county of the 19th class as defined in Section 28040 of the Government Code, improvement shall also mean the acquisition, construction, maintenance, and operation of any public buildings which would serve as a community center facility, including, but not limited to, an exhibition building, an auditorium, a stadium, and a sports arena; and the acquisition and improvement of any land, rights-of-way, rights of use, or other property needed for any of the improvements described in this section, or for offstreet parking facilities therefor.

For the purposes of this section, at the hearing held pursuant to Section 4611, the governing body may exclude from the proposed district any territory the inhabitants of which would not be benefited by the proposed improvement as finally determined.

SEC. 5. Section 4605 of the Health and Safety Code is amended to read:

4605. The governing body of any city may create an improvement district within the city pursuant to this chapter whenever in its judgment the district is necessary or convenient for any improvement authorized by this chapter.

4614.11. Upon the formation of any district pursuant to this article, the district shall be governed by and under the jurisdiction of the governing body of the initiating city. The governing body of the initiating city may conduct all of the affairs of the district, call and hold bond elections in the district, construct all improvements in the district, cause taxes to be levied and collected upon all taxable property in the district, and pass such necessary legislation as may be required for such improvements, with the same force and effect as though all of the area in the district were included within the boundaries of the initiating city.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This is a special situation in Stanislaus County. The citizens of the county desire to construct a community center facility. The immediate need is to start the proceedings in time for the bond election to be consolidated with the 1970 general election in November. This act is limited to Stanislaus County and cities in that county because of the special and unique situation that has developed in such county and because there is no general law under which the purposes of this act can be accomplished.

CHAPTER 421

An act to add Article 3 (commencing with Section 1480) to Chapter 2.5, Division 2 of the Health and Safety Code, relating to paramedics, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 15, 1970. Filed with
Secretary of State July 15, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Article 3 (commencing with Section 1480) is added to Chapter 2.5, Division 2 of the Health and Safety Code, to read:

Article 3. Mobile Intensive Care Paramedics

1480. Any hospital operated by, or contracting with, a county with a population of over 6,000,000 may conduct a pilot

program utilizing mobile intensive care paramedics for the delivery of emergency medical care to the sick and injured at the scene of an emergency and during transport to a hospital, while in the hospital emergency department, and until care responsibility is assumed by the regular hospital staff.

1481. (a) As used in this article "mobile intensive care paramedics" means personnel who have been specially trained in emergency cardiac and noncardiac care in a training program certified by the county health officer or the director of hospitals designated by the board of supervisors, and who are certified by the officer as qualified to render the services enumerated in this article.

(b) As used in this article "mobile intensive care nurse" means a registered nurse who has been certified by a county officer designated by the board of supervisors as qualified in emergency cardiac care.

1482. Notwithstanding any other provision of law mobile intensive care paramedics may do any of the following:

(1) Render rescue, first-aid and resuscitation services.

(2) During training at the hospital and while caring for patients in the hospital administer parenteral medications under the direct supervision of a physician or a registered nurse.

(3) Perform cardiopulmonary resuscitation and defibrillation in a pulseless, nonbreathing patient.

1484. This article shall remain in effect only until the 91st day after final adjournment of the 1972 Regular Session of the Legislature, and shall have no force or effect after that date.

1485. This article shall be known and may be cited as the Wedworth-Townsend Paramedic Act.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: There is a critical shortage of professionally trained medical and nursing personnel for the delivery of fast, efficient emergency medical care for the sick and injured at the scene and during transport to a health care facility. Improved emergency service is required to reduce the mortality rate during the first critical minutes immediately following an accident, or the onset of a serious physical condition such as an acute myocardial infarction. Pilot projects of the type provided for in this act are required in order to develop and evaluate a program for the provision of the best and most economical delivery of emergency medical care.

CHAPTER 422

SECTION 1. Chapter 5 (commencing with Section 16800) is added to Part 3 of Division 4 of Title 2 of the Government Code, to read:

16801. Immediately upon the adoption of this section the State Treasurer shall prepare 40,000 suitable bonds of the State of California in the denomination of one thousand dollars (\$1,000) each, to be numbered from 1 to 40,000 inclusive, to bear a date not later than 30 days after said adoption and to bear interest at the rate of 4½ percent per annum from the date of said bonds, said interest to be payable on the third day of January and the third day of July of each and every year after the sale of said bonds, and said

bonds to become due and payable in annual parcels of one thousand bonds, commencing July 3, 1926, and ending July 3, 1965.

All of the provisions of said Section 2 of Article XVI, except those relating to the number of the bonds therein authorized, the date thereof and interest rate thereon, and except as herein otherwise provided, shall apply to and govern the bonds herein authorized, the use of the proceeds therefrom, and the several funds to be created and payments to be made into and out of

the same, and in all respects said bonds herein authorized and the moneys derived from the sale thereof shall be governed and dealt with in the same manner, except as herein otherwise provided, as though the bonds herein authorized were the unsold portion of the 40,000 bonds authorized by said Section 2 of Article XVI.

All provisions of this section shall be self-executing and shall not require any legislative action in furtherance thereof, but this shall not prevent such legislative action; and all expenses that shall be incurred by the State Treasurer in the preparation of bonds herein provided for and in the advertising and sale thereof and all expenses incurred by any officer in reference thereto shall be paid from the General Fund of the state. [Approved by Governor July 16, 1970. Filed with
Secretary of State July 16, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 22660 of the Vehicle Code is amended to read:

22660. Notwithstanding any other provision of law, a city, county, or city and county may adopt an ordinance establishing procedures for the abatement and removal, as public nuisances, of abandoned, wrecked, dismantled, or inoperative vehicles or parts thereof from private property or public property, not including highways, and recovery, pursuant to Sections 25845 or 38773.5 of the Government Code, or assumption by the local agency, of costs of administration and removal thereof; provided, however, that any such ordinance shall contain provisions:

(a) Requiring notice to be given to the Department of Motor Vehicles within five days after the date of removal identifying the vehicle or part thereof and any evidence of registration available, including, but not limited to, registration certificates of title or license plates.

(b) That the ordinance shall not apply to (1) a vehicle or part thereof which is completely enclosed within a building in a lawful manner where it is not visible from the street or other public or private property or (2) a vehicle or part thereof which is stored or parked in a lawful manner on private property in connection with the business of a licensed dismantler, licensed vehicle dealer or a junkyard; provided, however, that this exception shall not authorize the maintenance of a public or private nuisance as defined under provisions of law other than this chapter.

(c) For administration of the ordinance by regularly salaried, full-time employees of the city, county, or city and county, except that the removal of vehicles or parts thereof from property may be by any other duly authorized person.

(d) Requiring not less than a 10-day notice of intention to abate and remove the vehicle or part thereof as a public nuisance. Such notice shall contain a statement of the hearing rights of the owner of the property on which the vehicle is located and the owner of the vehicle. The statement shall in-

clude notice to the property owner that he may appear in person at a hearing or may present a sworn written statement denying responsibility for the presence of the vehicle on the land, with his reasons for such denial, in lieu of appearing. The notice of intention to abate shall be mailed, by registered mail, to the owner of the land as shown on the last equalized assessment roll and to the last registered and legal owner of record unless the vehicle is in such condition that identification numbers are not available to determine ownership.

(e) Requiring a public hearing to be held before the governing body of the city, county, or city and county, or any other board, commissioner, or official of the city, county, or city and county as designated by the governing body, upon request for such a hearing by the owner of the vehicle or the owner of the land on which such vehicle was located. This request shall be made to the appropriate public body, agency, or officer within 10 days after the mailing of notice of intention to abate and remove the vehicle. If the owner of the land on which the vehicle is located submits a sworn written statement denying responsibility for the presence of the vehicle on his land within such time period, this statement shall be construed as a request for hearing which does not require the presence of the owner submitting such request. If such a request is not received within such period, the appropriate public body, agency, or officer shall have the authority to remove the vehicle.

(f) That after a vehicle has been removed, it shall not be reconstructed or made operable.

(g) That the owner of the land on which the vehicle is located may appear in person at the hearing or present a sworn written statement denying responsibility for the presence of the vehicle on the land, with his reasons for such denial. If it is determined at the hearing that the vehicle was placed on the land without the consent of the landowner and that he has not subsequently acquiesced in its presence, then the local agency shall not assess costs of administration or removal of the vehicle against the property upon which the vehicle is located or otherwise attempt to collect such cost from such owner.

Vehicles or parts thereof may be disposed of by removal to a scrapyard, automobile dismantler's yard, or any suitable site operated by a local agency for processing as scrap, or other final disposition consistent with subdivision (f). A local agency may operate such a disposal site when its governing body determines that commercial channels of disposition are not available or are inadequate, and it may make final disposition of such vehicles or parts, or the local agency may transfer such vehicle or parts to another provided such disposal shall be only as scrap.

Any person authorized by the city, county, or city and county, to administer the provisions of an ordinance of the

type authorized by this section may enter upon private property for the purposes specified in the ordinance to examine vehicle or parts thereof, obtain information as to the identity of vehicle and to remove or cause the removal of a vehicle or part thereof declared to be a nuisance pursuant to ordinances.

Licensed dismantlers or commercial enterprises acquiring vehicles removed pursuant to said ordinance shall be excused from the reporting requirements of Section 11520 of the Vehicle Code and any fees and penalties which would otherwise be due the Department of Motor Vehicle are hereby waived, provided that a copy of the resolution or order authorizing disposition of the vehicle is retained in the dismantlers' or commercial enterprises' business records.

CHAPTER 437

An act relating to the Hope Elementary School District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 16, 1970 Filed with
Secretary of State July 16, 1970.]

The people of the State of California do enact as follows:

SECTION 1. During the 1965-1966 fiscal year, a permissive override tax was levied in the Hope Elementary School District for educational services for mentally retarded minors pursuant to Section 6913.1 of the Education Code. The governing board of the Hope Elementary School District had requested that a tax rate of one and fifty-four hundredths cents (\$.0154) be levied on each one hundred dollars (\$100) of assessed valuation within the district. By an error, the tax rate actually levied was six cents (\$.06) on each one hundred dollars (\$100) of assessed valuation within the district.

As a result of the tax rate actually levied, the amount of fifteen thousand six hundred seventy-seven dollars and forty cents (\$15,677.40) was raised and deposited in the Mentally Retarded Minors Fund of the Hope Elementary School District. However, since 1966, only three thousand six hundred forty-nine dollars and forty cents (\$3,649.40) of that amount has been required for expenditure for educational services for mentally retarded minors. Thus, there remains in the Mentally Retarded Minors Fund of the Hope Elementary School District a balance of approximately twelve thousand dollars

(\$12,000) which, pursuant to the provisions of Section 6913.1 of the Education Code, cannot be used for purposes other than the education of mentally retarded minors.

At the present time there is only one child in the Hope Elementary School District who qualifies as a mentally retarded minor.

SEC. 2. The Legislature finds that a transfer of an amount not to exceed ten thousand dollars (\$10,000) from the Mentally Retarded Minors Fund of the Hope Elementary School District to the district's general fund would serve a better purpose of the school district during the next fiscal year. Such a transfer would effectively reduce the tax rate in the school district during the 1970-1971 fiscal year.

SEC. 3. The Legislature finds that the unique circumstances in the Hope Elementary School District require immediate and special legislation and that a general statute cannot be made applicable to these circumstances within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 4. Notwithstanding any other provisions of law to the contrary, including Section 6913.1 of the Education Code, the governing board of the Hope Elementary School District is hereby authorized to transfer an amount not to exceed ten thousand dollars (\$10,000) from the Mentally Retarded Minors Fund of the Hope Elementary School District to the district's general fund to be used for general school purposes and to be reflected by a reduction in the tax rate in the school district for the 1970-1971 fiscal year.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the Hope Elementary School District can make the transfer of funds authorized by this act at the earliest possible time, particularly prior to the adoption of the 1970-1971 fiscal year budget and the 1970-1971 tax rate determination, it is necessary that this act take immediate effect.

CHAPTER 438

An act to add Sections 36830.1, 36830.2, 36830.3, 36830.4 and 36830.5 to the Water Code, relating to California water districts.

[Approved by Governor July 16, 1970. Filed with
Secretary of State July 16, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 36830.1 is added to the Water Code, to read:

36830.1. The tax collector may, in his discretion, accept negotiable paper in payment of any assessment or on a redemption.

SEC. 2. Section 36830.2 is added to the Water Code, to read:

36830.2. As used herein, "negotiable paper" means bank checks and drafts and express and post office money orders payable on demand.

SEC. 3. Section 36830.3 is added to the Water Code, to read:

36830.3. The acceptance of negotiable paper constitutes a payment of an assessment or redemption as of the date of acceptance when, but not before, the negotiable paper is duly paid.

SEC. 4. Section 36830.4 is added to the Water Code, to read:

36830.4. If any negotiable paper is not paid on due presentment for any reason, any record of payment made on the assessment book because of its acceptance shall be canceled, and the assessment is a lien as though no payment had been attempted. The tax collector, when accepting negotiable paper, shall make any memoranda necessary to enable him to make proper cancellation on its return without payment.

SEC. 5. Section 36830.5 is added to the Water Code, to read:

36830.5. When a cancellation is made the tax collector shall record it in the assessment book opposite the name of the assessee who attempted payment by the negotiable paper and shall promptly notify such assessee of the cancellation of the payment. The validity of any assessment or penalty is not affected by failure or irregularity in giving the notice.

CHAPTER 439

An act to amend Section 34501 of the Vehicle Code, relating to Highway Patrol inspection.

[Approved by Governor July 16, 1970 Filed with
Secretary of State July 16, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 34501 of the Vehicle Code is amended to read:

34501. The Department of the California Highway Patrol shall adopt reasonable rules and regulations which in the judgment of the department are designed to promote the safe operation of vehicles described in Section 34500, regarding, but not limited to, hours of service of drivers, equipment, fuel containers, fueling operations, inspection, maintenance, record-keeping, accident reports, and drawbridges. The Commissioner of the Department of the California Highway Patrol shall

appoint a committee of 15 members, consisting of representatives of industry subject to regulations to be adopted pursuant to this section, to act in an advisory capacity to the department, and the department is directed to cooperate and confer with the advisory committee so appointed.

The department may inspect any vehicles in maintenance facilities or terminals, as well as any records relating to the dispatch of vehicles or drivers, and the pay of drivers, to assure compliance with the provisions of this code and regulations adopted pursuant to this section.

The department may adopt regulations restricting or prohibiting the movement of vehicles from maintenance facilities or terminals found in violation of the provisions of this code and regulations adopted pursuant to this section.

CHAPTER 440

An act to add Article 6.5 (commencing with Section 31110) to Chapter 1 of Part 5 of Division 12 of the Water Code, relating to the Calaveras County Water District.

[Approved by Governor July 16, 1970. Filed with
Secretary of State July 16, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Article 6.5 (commencing with Section 31110) is added to Chapter 1 of Part 5 of Division 12 of the Water Code, to read:

Article 6.5. Sewer and Garbage Facilities in the Calaveras County Water District

31110. Notwithstanding any other provisions contained in this division, the Calaveras County Water District, or an improvement district formed therein pursuant to the provisions of this division, may pursuant to the provisions of this article authorize and finance the construction, operation, and maintenance of facilities for the collection, transmission, treatment, and disposal of sewage, waste and storm water and garbage, waste and trash within the district.

31111. For the purposes of this article, the Board of Directors of the Calaveras County Water District may levy and collect taxes in the manner provided in this division. Such tax revenues shall be available for capital outlay purposes or for the accumulation of a reserve fund for capital outlay purposes.

31112. The Board of Directors of the Calaveras County Water District may levy and collect taxes in the manner provided in this division for the purpose of the maintenance and operation of any facilities constructed pursuant to Section 31110.

31113. Pursuant to a resolution adopted by a fourth-fifths vote of all the members of the board, the Calaveras County Water District may deposit any funds of the district, not to exceed four hundred thousand dollars (\$400,000) in amount, in a revolving fund to be available for the acquisition of real or personal property, for engineering services, or for the construction of structures or improvements needed in whole or in part to provide facilities and services within the district, or an improvement district therein, as authorized pursuant to Section 31110. Such revolving fund shall be reimbursed from service fees, connection charges, tax revenues, or other moneys available from the service area, and no sums shall be disbursed from the fund until the board has, by resolution, established the method by which, and the term, not to exceed five years, within which the fund shall be reimbursed. The fund shall be reimbursed within five years together with interest at the current legal rate per annum.

SEC. 2. The Calaveras County Water District faces unique problems in connection with the furnishing of sewer and garbage services because of the mountainous terrain within which it is located. The district has made investigations and studies of its special problems in the construction and financing of a sewer and garbage system for certain areas and has been responsive to the rapidly changing conditions and needs caused by population growth. To avoid duplication and confusion resulting from the possible overlapping of a multiplicity of special districts, the powers of Calaveras County Water District with respect to the construction and financing of sewer and garbage facilities must be broadened. The Calaveras County Water District, a presently organized and actively operating political subdivision of the state, is the only operating entity in its area presently able to cope with the unique problems resulting from the rapid growth and development of such area. Because of this special situation, the adoption of a special act is necessary.

CHAPTER 441

An act to amend Section 55370 of the Water Code, relating to county waterworks districts.

[Approved by Governor July 15, 1970. Filed with
Secretary of State July 16, 1970.]

The people of the State of California do enact as follows:

SECTION 1 Section 55370 of the Water Code is amended to read:

55370. A district may acquire property by purchase, gift, devise, exchange, descent, and eminent domain. The title to all property which may have been acquired for a district shall be vested in the district.

public good and the least private injury. The district, or its agents in charge of such public use may enter upon such lands and make examinations, surveys, and maps thereof.

9. To enter upon any land, to make surveys and locate the necessary works of improvement and the lines for channels, conduits, canals, pipelines, roadways and other rights-of-way; to acquire by purchase, lease, contract, condemnation, gift, devise, or other legal means all lands and water and water rights and other property necessary or convenient for the construction, use, supply, maintenance, repair and improvement of said works, including works constructed and being constructed by private owners, lands for reservoirs for storage of necessary water, and all necessary appurtenances, and also where necessary or convenient to said end, and for said purposes and uses, to acquire and to hold in the name of the state, the capital stock of any mutual water company or corporation, domestic or foreign, owning water or water rights, canals, waterworks, franchises, concessions, or rights, when the ownership of such stock is necessary to secure a water supply required by the district or any part thereof, upon the condition that when holding such stock, the district shall be entitled to all the rights, powers and privileges, and shall be subject to all the obligations and liabilities conferred or imposed by law upon other holders of such stock in the same company; to enter into and do any acts necessary or proper for the performance of any agreement with the United States, or any state, county, district of any kind, public or private corporation, association, firm or individual, or any number of them, for the joint acquisition, construction, leasing, ownership, disposition, use, management, maintenance, repair or operation of any rights, works or other property of a kind which might be lawfully acquired or owned by said Monterey County Flood Control and Water Conservation District; to acquire the right to store water in any reservoirs, or to carry water through any canal, ditch or conduit not owned or controlled by the district; to grant to any owner or lessee the right to the use of any water or right to store such water in any reservoir of the district, or to carry such water through any tunnels, canal, ditch, or conduit of the district; to enter into and do any acts necessary or proper for the performance of any agreement with any district of any kind, public or private corporation, association, firm or individual, or any number of them for the transfer or delivery to any such district, corporation, association, firm or individual of any water right or water pumped, stored, appropriated or otherwise acquired or secured, for the use of the Monterey County Flood Control and Water Conservation District, or for the purpose of exchanging the same for other water, water right or water supply in exchange for water, water right or water supply to be delivered to said district by the other party to said agreement; to cooperate with, and to act in conjunction with, the State of California, or any of its engineers, officers, boards,

SEC. 3. Section 8 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 8. The provisions of the Elections Code so far as they may be applicable shall govern all general agency elections and all special agency elections, except as in this act otherwise provided.

In counties in which the agency is located the county clerk or registrar of voters is hereby given authority, and he hereby is authorized to have printed upon the official ballots provided for voters at elections for directors a heading in the same form

as that provided by the Elections Code for nonpartisan officers, which heading shall be marked "Castaic Lake Water Agency," with the following subheading: "for Director at Large—Vote for One" and if the office of divisional director is to be voted on in that year in the division in question, then also with the subheading: "For a Member of the Board of Directors, Division ----- (here inserting the number of the division)—Vote for One." Beneath each such subheading shall appear the names of the candidates for the office of the agency shown in such subheading, with the appropriate blank space for the writing in of the name of a candidate, if desired by the voters, and with a voting square opposite the space. The ballots thus provided shall be furnished by the precinct officers only to those voters within their respective precincts who shall appear on the register as duly registered voters, within the agency, and in precincts which lie partly within such agency and partly without the precinct board shall be supplied with two kinds of ballots by said county clerk or registrar of voters, one of which shall contain the matters hereinabove set forth for the use of voters of the agency, and the other of which shall be without such heading containing the names of candidates for the office of members of the board of directors, and which shall be furnished to those voters who are not voters of the agency and who are voters of the precinct.

SEC. 4. Section 12 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 12. The board of directors shall act only by ordinance, resolution, or motion. On all ordinances the roll shall be called and the ayes and noes recorded in the journal of the proceedings of the board of directors. Resolutions and motions may be adopted by voice vote, but on demand of any member the roll shall be called. No ordinance, motion, or resolution shall be passed or become effective without the affirmative vote of a majority of the members of the board. The enacting clause of all ordinances passed by the board shall be: "Be it ordained by the Board of Directors of the Castaic Lake Water Agency as follows:". Each of the members of the board of directors shall receive for each attendance at the meetings of the board twenty dollars (\$20). No directors, however, shall receive pay for more than three meetings in any calendar month. Any vacancy in the board of directors shall be filled by a majority of the remaining directors, and the person so chosen shall hold office for the remainder of the unexpired term.

SEC. 5. Section 29 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 29. Whenever the board of directors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act and to provide for

such bonded indebtedness to be payable from taxes levied upon less than all of the agency, the board shall, by resolution, so declare and state: (a) the purpose for which the proposed debt is to be incurred; (b) the amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance and the sale of the bonds; (c) that the board intends to form an improvement district of a portion of the agency which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such proposed improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district; (e) that a general description of the proposed improvement, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the agency and is available for inspection by any person or persons interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the agency or in the proposed improvement district, will be heard. Notice of said hearing shall be given by publishing a copy of the resolution pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in a newspaper printed and published in the agency, if there is a newspaper printed and published in such agency. Such notice shall also be given by posting a copy of said resolution in six public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or within the proposed improvement district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness. The board shall have the power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement.

The purpose, amount of bonded debt or boundaries shall not be changed by said board except after notices of its intention to do so, given by publication pursuant to Section 6061 of the Government Code in a newspaper printed and published in said agency, if there is a newspaper printed and published in such agency, and by posting in six public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or the proposed improvement district, may appear and present any matters material to the changes stated in the notice. At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the agency which will be benefited are set forth on a map on file with the secretary of the agency which map shall govern for all details as to the extent of the improvement district, and that said portion of the agency set forth on said map shall thereupon constitute and be known as "Improvement District No. _____ of Castaic Lake Water Agency," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within the agency pursuant to this section, all proceedings for the purpose of a bond election shall be limited, and shall apply only to the improvement district, and taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district.

After the board has made its determination of the matters required to be determined by said last-mentioned resolution, and if the board deems it necessary to incur the bonded indebtedness, the board shall by a further resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a

map showing the exterior boundaries of said improvement district is on file with the secretary of the agency, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be levied exclusively upon the taxable property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not exceed 6 percent per annum payable semiannually, except that interest for the first year may be payable at the end of the said year; (h) the measure to be submitted to the voters; (i) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (j) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election prior to the date of the proposed election in at least one newspaper printed and published in the agency, if there is a newspaper printed and published in such agency. Such resolution shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 6. Section 31 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 31. If from the returns it appears that more than two-thirds of the votes cast in an election held pursuant to the provisions of Section 28 or of Section 29 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times as it deems proper, issue bonds of the agency for the whole or any part of the amount of the indebtedness so authorized, and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for each of the series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed six percent (6%) per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred dollars (\$100). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the agency, countersigned by the secretary of the agency, and the official seal of the agency attached. The interest coupons of such bonds shall be signed by the treasurer of said agency. All such signatures and countersignatures may be printed, lithographed, or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said agency, said bonds are bonds of the agency and shall be issued in the name of the agency and shall be designated "Bonds of the Castaic Lake Water Agency for Improvement District No. -----" and each bond and all interest coupons thereof shall

state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the agency and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the agency may also be used for some other agency purpose. Such moneys remaining from the sale of bonds of the agency for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other agency purpose or improvement district purpose until two-thirds of the qualified voters of said agency or improvement district have consented thereto at a special election called in said agency or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said agency or improvement district, as the case may be, and in other respects the election shall be conducted as are other agency elections.

SEC. 7. Section 33 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 33. Whenever the board of directors deems it necessary to form an improvement district of a portion of the agency for a purpose other than the incurring of bonded indebtedness under Section 29 of this act it shall by resolution so declare and state: (a) the purpose for which the proposed improvement district is to be formed, (b) the estimated expense of carrying out said purpose, (c) that the board intends to form an improvement district of a portion of the agency which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, (d) that taxes for carrying out said purpose shall be levied exclusively upon the taxable property in said proposed improvement district, (e) that a map showing the exterior boundaries of said proposed improvement district, with relation to

the territory immediately contiguous thereto, is on file with the secretary of the agency and is available for inspection by any person or persons interested, (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the purpose for which it is to be formed, and the estimated expense of carrying out said purpose and (g) that at said time and place any person interested, including all persons owning property in the agency or in the proposed improvement district will be heard. Notice of said hearing shall be given by publishing a copy of the resolution pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in a newspaper circulated in the agency, if there is a newspaper circulated therein. Said notice shall also be given by posting a copy of said resolution in three public places within the proposed improvement district for at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time or place to which the hearing is adjourned, the board shall proceed with the hearing at which hearing any person interested, including all persons owning property in the agency, or in the proposed improvement district, may appear and present any matters material to the questions set forth in the resolution. At the conclusion of the hearing the board shall by resolution determine whether it is necessary to form said improvement district, and, if so, the resolution shall also state the purpose for which the proposed improvement district is to be formed, estimated expense of carrying out said purpose, that the exterior boundaries of the portion of the agency which will be benefited are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the improvement district, and that said portion of the agency set forth on said map, shall thereupon constitute and be known as "Improvement District (A, B, C, or other letter designation) of the Castaic Lake Water Agency," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within the agency pursuant to this section all taxes levied for the carrying out of said purpose shall be levied exclusively upon the taxable property in the improvement district.

A copy of the resolution forming the improvement district shall be published pursuant to Section 6066 of the Government Code in a newspaper printed and published in the agency, if there is a newspaper printed and published in the agency, and a copy of said resolution shall also be posted in three public places within the proposed improvement district for at least two weeks. Said resolution shall not be effective until the 31st day after completion of said publication and posting. If before said effective date a petition signed by not less than 10 percent of the voters of the proposed improvement district requesting that an election be held on the formation thereof is presented to the board of directors, said board shall call a special election

in the proposed improvement district for the purpose of submitting the question of the formation of the improvement district to the voters of said proposed improvement district.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing the resolution calling the election pursuant to Section 6066 of the Government Code prior to the date of the proposed election, in at least one newspaper printed and published in the agency, if there is a newspaper printed and published in such agency. Such resolution shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the elections shall have otherwise been fairly conducted.

If from such returns it appears that a majority of the votes cast at such election were in favor of the formation of such improvement district, the formation of such improvement district shall be complete.

Any action or proceeding wherein the validity of the formation of the improvement district or of any of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the effective date of the resolution forming such district, or if an election is held, within three months from the date of such election, otherwise the formation of the improvement district and all proceedings in relation thereto, shall be held to be valid and in every respect legal and incontestable.

SEC. 8. Section 36 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 36. Land not a part of the agency whether or not contiguous to it or to other portions added to the agency, and consisting of any portion of the county wherein the agency was formed or of any municipality therein, or of land in any county contiguous to the county wherein the agency was formed or of any municipality therein, may be included within the agency. Such annexation shall occur in the following manner. A petition, which may consist of any number of separate instruments, shall be filed with the secretary of the agency, signed by voters residing within the boundaries of the area proposed to be annexed equal in number to at least 10

per centum of the number of such voters voting for all candidates for the office of Governor of this state at the last general election at which a Governor was elected prior to the filing of such petition. Such petition shall set forth and describe the boundaries of the area proposed to be annexed and shall contain a prayer that such area be annexed to such agency.

The text of such petition shall be published once a week for at least two weeks, the last publication to be made not less than one week nor more than four weeks before the time at which the same is to be presented to the board of directors of the agency in at least one, but not to exceed three, newspapers printed and published in such county, together with a notice stating the time of the meeting at which the same will be presented. When contained upon one or more instruments, one copy only of such petition need be published. No more than five of the names attached to said petition need appear in said publication of said petition and notice, but the number of signers shall be stated.

Within 10 days of the date of the filing of such petition the secretary of the agency shall examine the same and ascertain whether or not such petition is signed by the requisite number of voters; and if requested by the secretary of the agency, the board of directors shall authorize him to employ persons especially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the secretary of the agency has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of voters or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

If, by the certificate of the secretary of the agency, the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within 10 days of the date of such certificate. The secretary of the agency shall, within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of directors of the agency and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect. But if, by the certificate of the secretary, such petition, or petition as amended, is shown to be sufficient, the secretary shall present the same to the board of directors, without delay.

If any supplemental petition be filed, all the signatures appended to the petition or to the supplemental petition or

petitions shall be considered in determining the number of voters signing the petition.

After an election for the annexation of such area to the agency the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

Such petition may be granted by ordinance of the board of directors of such agency. In granting such petition, such board of directors may fix in said ordinance the terms and conditions upon which such annexation may occur, and such terms and conditions may provide, among other things, for the levy by such agency of special taxes upon taxable property within such annexed area or areas in addition to the taxes elsewhere in this act authorized to be levied by such agency, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors, in fixing such terms and conditions, shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. Such terms and conditions also may provide, among other things, that a special water rate may be fixed from time to time by the board of directors for the area or areas proposed to be annexed. Such terms and conditions also may further provide that the taxable property in the annexed area shall be subject to taxation to the extent set forth in such terms and conditions for the purpose of the payment of bonds and other obligations of such agency at the time authorized or outstanding. If such petition is granted the proposition of such annexation subject to the terms and conditions so fixed, shall be submitted to the vote of the voters in the proposed addition, at an election called by the board of directors and held, as herein provided, within 70 days after the effective date of such ordinance. Notice of such election shall be given by publication in a newspaper of general circulation published in the county once a week for three successive weeks, the last publication to be not more than four weeks nor less than one week prior to the date fixed for such election. Such notice shall describe the boundaries of the area or areas so proposed to be annexed and shall designate such territory by some appropriate name, or other words of identification, by which such territory may be referred to and indicated upon the ballot to be used at any election at which the question of such annexation is submitted, as in this act provided. Such notice also shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. The measure so submitted at such election shall be stated on the ballot substantially as follows: "Shall ----- (giving the name or other designation of the territory proposed to be annexed, as stated in the notice of election) be annexed to the Castaic Lake Water Agency, subject to the terms and conditions fixed by the board of directors of said agency?" At the right of such proposition there shall be printed the words "Yes" and "No" with voting squares. The board of directors

shall canvass the votes cast at such election and if such proposition is approved by a majority of the voters voting thereon at such election, the president and secretary of the board of directors shall certify that fact to the Secretary of State and to the county recorder of the county in which such agency is located. Upon receipt of such last-mentioned certificate, the Secretary of State shall within 10 days, issue his certificate, reciting the passage of said ordinance and the addition of said area or areas to said agency. A copy of said certificate shall be transmitted to, and filed with the county clerk of the county in which such agency is situated. From and after the date of such certificate, the area or areas named therein shall be deemed added to, and shall form a part of, said agency, and the taxable property therein shall be subject to taxation thereafter for the purposes of said agency, and the board of directors of such agency shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized.

SEC. 9. Section 38 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 38. Territory included within the agency may be excluded from such agency. Such territory may consist of one or more parcels, which need not be contiguous one with the other.

Proceedings for the exclusion of territory from the agency may be initiated by petition. Such petition, which may consist of any number of separate instruments, shall be filed with the secretary of the agency, signed by voters residing within the boundaries of the area proposed to be excluded equal in number to at least ten (10) per centum of the number of such voters voting for all candidates for the office of Governor of this state at the last general election prior to the filing of such petition; provided, that where one or more cities, or parts thereof, are included in the areas so proposed to be excluded, such petition must be signed by at least ten (10) per centum of the voters of each such city, or part thereof, so voting at such election. Such petition shall set forth and describe the boundaries of the area proposed to be excluded, shall state the reason for proposing such exclusion and shall contain a prayer that such area be excluded from the agency.

Within ten (10) days of the date of the filing of such petition the secretary of the agency shall examine the same and ascertain whether or not such petition is signed by the requisite number of voters; and if requested by the secretary of the agency, the board of directors shall authorize him to employ persons especially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the secretary of the agency has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of voters, or

is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

If, by the certificate of the secretary of the agency, the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within ten (10) days of the date of such certificate. The secretary of the agency shall, within ten (10) days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If any supplemental petition be filed, all the signatures appended to the petition or to the supplemental petition or petitions shall be considered in determining the number of voters signing the petition.

If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of directors of the agency and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect. But if, by the certificate of the secretary, such petition, or petition as amended is shown to be sufficient, the secretary shall present the same to the board of directors without delay.

The text of such petition shall be published once each week for at least two weeks, the last publication to be made not less than one week nor more than four weeks, before the time at which the same is to be presented to the board of directors of the agency in at least one, but not to exceed three, newspapers printed and published in such agency, together with a notice stating the time of the meeting at which the same will be presented. When contained upon more than one instrument, one copy only of such petition need be published. No more than five of the names attached to said petition need appear in such publication of said petition and notice, but the number of signers shall be stated.

After an election for the exclusion of such area from the agency the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

The board of directors of the agency, by resolution, may initiate proceedings for the exclusion of territory from such agency. Such resolution shall describe the boundaries of the area proposed to be excluded, shall state the reason for proposing such exclusion, shall require all persons interested in the proposed exclusion to appear before the board and be heard as to why said area should not be so excluded, shall fix the time of the meeting of the board at which persons so interested will be heard, and shall direct the secretary of the agency to give notice thereof. The secretary whereupon shall cause the text of said resolution and a notice of the time and place of said hearing to be published once each week for at least two weeks, the last publication to be made not less than one week nor more than four weeks, before the time so fixed for the hearing, in

at least one, but not to exceed three, newspapers printed and published in the agency.

After an election for the exclusion of such area from the agency the sufficiency of such resolution shall not be subject to judicial review or be otherwise questioned.

If the proceedings for exclusion have been initiated by petition, such petition may be granted by ordinance of the board of directors of such agency. If such proceedings have been initiated by resolution, the board of directors shall hear all persons interested in the proposed exclusion who appear at the hearing, which may be adjourned from time to time, and after the conclusion of the hearing, the board may determine by ordinance that such area should be excluded from the agency. If such petition is granted or if such determination is made, the proposition of such exclusion shall be submitted to the vote of the voters within the area proposed to be excluded, at an election called by the board of directors and held, as herein provided, within 70 days after the effective date of such ordinance. Notice of such election shall be given by publication in a newspaper of general circulation published in the agency once a week for three successive weeks, the last publication to be not more than four weeks nor less than one week, prior to the date fixed for such election. Such notice shall describe the boundaries of the area so proposed to be excluded and shall designate such area by some appropriate name, or other words of identification, by which such area may be referred to and indicated upon the ballot to be used at any election at which the question of such exclusion is submitted, as in this act provided. The measure so submitted at such election shall be stated on the ballot substantially as follows:

"Shall ----- (giving the name or other designation of the area proposed to be excluded, as stated in the notice of the election) be excluded from the Castaic Lake Water Agency?"

At the right of such proposition there shall be printed the words "Yes" and "No" with voting squares. The board of directors shall canvass the votes cast at such election and if such proposition is approved by a majority of the voters voting thereon at such election, the president and secretary of the board of directors shall certify that fact to the Secretary of State. Upon receipt of such last-mentioned certificate, the Secretary of State shall, within 10 days, issue his certificate reciting the passage of said ordinance and the exclusion of said area from said agency. A copy of said certificate shall be transmitted to, and filed with, the county clerk of the county or counties in which the agency is situated. From and after the date of such certificate, the area named therein shall be deemed excluded from, and shall no longer form a part of said agency, but the taxable property within such excluded area shall continue taxable by the agency for the purpose of paying the bonded or other indebtedness of the agency outstanding or contracted for at the time of such exclusion and until such bonded or other indebtedness shall have been satisfied, to the

same extent that such property would be taxable for such purpose if such exclusion had not occurred.

SEC. 10. Section 42 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 42. The Castaic Lake Water Agency organized under the terms of this act may be dissolved or disincorporated in the following manner:

A petition shall be filed with the county clerk of the principal county in which such agency is located, signed by at least 25 percent of the voters of the area included in the agency who voted at the last gubernatorial election, praying for the dissolution and disincorporation of such agency and briefly stating the reasons therefor. Upon the filing of such petition the county clerk shall examine the same within 10 days and ascertain whether or not said petition is signed by the requisite number of voters. When the said county clerk has completed his examination of the petition he shall attach to the same his certificate properly dated, showing the result of such examination, and if from such examination he shall find that said petition is signed by the requisite number of voters residing within the boundaries of the agency, or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be. If the same is found to be insufficient by him, supplemental petitions may be filed at the time and in the manner and for the same purpose as supplemental petitions to the original petition for the incorporation of the agency. After an election for the disincorporation of the agency hereunder the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

If by the certificate of the county clerk such petition, or such petition as amended or supplemented, is shown to be sufficient, the county clerk shall present the same to the board of supervisors without delay. When such petition is presented by the county clerk as aforesaid, the board of supervisors shall give notice of an election to be held in said agency for the purpose of determining whether or not the same shall be disincorporated and dissolved; provided, however, that in the event the said agency shall have issued bonds, the board of supervisors shall not consider said petition or take any action hereunder until evidence shall be furnished showing said bonds to have been fully satisfied. Said notice of election shall be published in a newspaper published in said agency and determined by said board most likely to give notice to those interested in said hearing, at least once a week for three successive weeks, the last publication to be not more than four weeks nor less than one week prior to the date fixed for the election; said notice shall state that the question of disincorporating said corporation shall be submitted to the voters of said agency at the time appointed for such election, and voters shall be invited thereby to vote upon such proposition by placing upon their ballots the cross as provided by law after the words

"For Disincorporation" or "Against Disincorporation." The board of supervisors shall cause a copy of said notice to be mailed by the clerk of said board to each of the directors of said agency, within five days after the date of the first publication thereof, and no election shall be had until proof of such mailing is furnished by affidavit of the clerk of said board. Such election shall be held and conducted in the same manner as the election on the organization of said agency, as nearly as practicable. Within seven days after the date of said election, the board of supervisors shall proceed to canvass the vote cast thereat; if it be found by the canvass of said votes that less than a majority of the votes cast were in favor of disincorporation, said board of supervisors shall declare the petition for disincorporation is denied. In case it shall appear from said canvass that a majority of all the votes cast were in favor of disincorporation, said board of supervisors shall make and cause to be entered upon the records of their proceedings an order that the petition for such disincorporation be granted, and declaring that the Castaic Lake Water Agency be disincorporated; said order to take effect at the time hereinafter provided. Said board of supervisors shall in case said agency is so disincorporated, forthwith cause its clerk, or other officer performing the duties of clerk, to make and transmit to the Secretary of State a certified copy of the notice of election hereinbefore provided for, and a statement of the number of voters voting for said disincorporation and the number of voters voting against said disincorporation. Twenty days from and after the holding of the election, in case a majority of said votes were cast in favor of said disincorporation, said agency shall be forever disincorporated.

SEC. 11. Section 47 of the Upper Santa Clara Valley Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 47. The agency formed hereunder may contain lands situate in more than one county and this agency may annex lands situate in another county or counties. of directors shall perform all duties prescribed by law to be performed by boards of supervisors in connection with agency elections and such duties as are required by this act which relate to annexation, dissolution, disincorporation and exclusion of territory.

(b) Immediately after equalization and not later than the 15th day of August of each year, it shall be the duty of the auditor of each county wherein such agency or any part thereof shall lie, to prepare and deliver to the secretary of the agency or such other officer thereof as may be designated by the board of directors therefor a certificate showing the assessed valuation of all property within the agency lying within the county. Thereafter, the board of directors shall make the certification and statement, and issue the directions, as required by Section 27 of this act. After collection of taxes by the proper county officers at the rate specified, such officers shall pay the moneys received therefrom to the agency.

Whenever an improvement district within the Castaic Lake Water Agency is itself located in two or more counties, the method and procedure for the apportionment of agency taxes between counties shall apply to such improvement district.

(c) Whenever provision is made in this act for notice within a county, it shall be construed to require notice within each county in which agency lands are located.

(d) "Principal county" as used in this act means the county in which the greater portion of land of the Castaic Lake Water Agency is located.

SECTION 1. Section 39067.2 is added to the Health and Safety Code, to read:

39067.2. The motor vehicle is the major source of the atmospheric pollution in California and costs the state untold millions of dollars annually. However, the benefits and costs associated with an emissions inspection program are unknown.

Therefore, the board shall undertake a study project to determine (a) the reduction in automotive emissions that could be achieved by practicable vehicle emission inspection programs and (b) the costs of carrying out such programs on a permanent basis.

The board shall report its findings and recommendations to the Legislature no later than July 1, 1971. Should the board recommend the initiation of any specific vehicle emission inspection program, its report shall describe in detail its estimate of the reduction in air pollution that would be achieved, the manner in which the program would operate, and its projected annual costs.

SEC. 2. There is hereby appropriated from the Motor Vehicle Fund to the State Air Resources Board the sum of sixty-five thousand dollars (\$65,000) for the purpose of carrying out the provisions of Section 39067.2 of the Health and Safety Code.

The people of the State of California do enact as follows:

SECTION 1. Section 10053 of the Welfare and Institutions Code is amended to read:

10053. "Services" means those activities and functions performed by social work staff and related personnel of the department and county departments with or in behalf of individuals or families, which are directed toward the improvement of the capabilities of such individuals or families maintaining or achieving a sound family life, rehabilitation, self-care, and economic independence.

Services for children shall include the coordinated efforts of the State Department of Social Welfare and the State Department of Education to insure that all children in receipt of aid under Aid to Families with Dependent Children are afforded the opportunity to participate and progress under an educational program which will lead to their functioning at full capacity upon reaching maturity. The educational services aspect of public social services includes education for parents in food preparation and provision for nutritional supplements to the extent necessary and as authorized by Article 7 (commencing with Section 11901) of Chapter 4 of Division 9 of the Education Code.

SEC. 2. Section 11205 of the Welfare and Institutions Code is amended to read:

11205. It is the object and purpose of this chapter to provide aid for children whose dependency is caused by circumstances defined in Sections 11250 and 11251, to keep children in their own homes wherever possible, and to provide the best substitute for their own homes for those children who must be given foster care.

Those engaged in the administration of aid under this chapter are responsible to the community for its effective, humane, and economical administration.

It is the intent of the Legislature that the children shall be given every opportunity to progress in the educational system and that their capacity for such shall not be impaired by nutritional deficiencies. The employment and self-maintenance of parents of needy children shall be encouraged to the maximum extent and that this chapter shall be administered in such a way that needy children and their parents will be encouraged and inspired to assist in their own maintenance. The department shall take all steps necessary to implement this section.

SEC. 3. Section 11871 of the Education Code is amended to read:

11871. The governing board of any school district may, for purposes of Section 11870, establish rules by which to determine which pupils are needy. For purposes of this article, any pupil within the category of children eligible for aid or services under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code shall be deemed needy.

SEC. 4. Article 7 (commencing with Section 11901) is added to Chapter 4 of Division 9 of the Education Code, to read:

Article 7. Pupil Nutrition

11901. This article shall be known and may be cited as the Duffy-Moscone Family Nutrition Education and Services Act of 1970.

11902. It is the intent of this article to establish an ongoing program to assure that the nutritional requirements of pupils in receipt of public assistance are enhanced by a pervasive program of food supplementation while they are attending school.

It is the intent of the Legislature that the program established by this article shall in fiscal years subsequent to the year in which this article is enacted be funded according to customary budgetary procedures.

11903. The Department of Education, in cooperation with the Department of Social Welfare, shall establish a statewide program to provide nutritious meals at school for pupils who are in the category of children eligible for aid or services under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code. Either or both of such departments may cooperate with and enter into contracts with the United States Departments of Health, Education and Welfare and Agriculture in order to implement the provisions of this article.

11904. To the extent that school districts have an operational program of school meals for pupils, the program authorized by this article shall be integrated with such existing service.

In order to extend the program to those pupils attending schools which do not operate a school lunch program and are

unable or unwilling to provide food required by this article, contracts shall be entered into with nonprofit organizations, other public agencies or proprietary agencies. In making such contracts, special consideration shall be given to utilizing the Business Enterprises Program for the Blind established under Article 5 (commencing with Section 19625) of Chapter 6 of Part 2 of Division 10 of the Welfare and Institutions Code. Such contracts shall be negotiated, approved and supervised by the Department of Education and terminated as soon as feasible upon certification by the Department of Education that the local school district or school is able and willing to establish a food service program.

11904.5. Notwithstanding the provisions of Section 11904, the Department of Education is authorized to approve, in school districts in which the provision of traditional meals under this article is not economically or physically feasible, demonstration projects which examine alternative methods of assuring that minimum nutritional requirements of needy pupils are met by the provision of fortified food supplements.

At least one such demonstration project shall be established which provides a nutritious fortified food supplement in lieu of a traditional meal to pupils qualified for the program. The nutritious fortified food supplement supplied in the demonstration project shall be approved by the Department of Education, the Department of Public Health, and the participating school district. The Department of Education shall, as soon as significant results of the demonstration project are measurable, submit a report on the demonstration, together with recommendations for future action to the Legislature.

11905. Programs established under this article shall, to the extent feasible and practicable, include provisions for the use of parents of needy pupils in the planning, preparation and serving of meals at school, in order to provide practical experience and training for such parents as part of the educational component of public social services. It is the intent of the Legislature that necessary formal training for such purposes shall, to the maximum extent feasible, be provided under the work incentive programs established under Division 2 (commencing with Section 5000) of the Unemployment Insurance Code.

The use of volunteers in the planning, preparation and serving of school meals and nutritional supplements under this article shall also be encouraged in order to enlist the good will of the community toward the success of this program, and in order to reduce program costs.

11906. In order to encourage the development of a sense of fiscal responsibility among the pupils participating in the program, a nominal cash payment for school meals provided under this article may be required of any such pupil. Such payments shall be related to the income of the pupil's family.

For purposes of this article, a "nominal cash payment" means not less than five cents (\$0.05) nor more than twenty

cents (\$0.20) per meal. The appropriate charge in relation to the income of the pupil's family shall be five cents (\$0.05), ten cents (\$0.10), fifteen cents (\$0.15), or twenty cents (\$0.20).

Funds received from payments by participating pupils shall be used to expand the programs under this article.

11907. In order to avoid unnecessary and costly duplication and overlap of activities, the Department of Education may contract with county welfare departments to identify those pupils who are eligible for the program under this article, and to determine the amount of cash payment that may be required of any pupil so eligible under the provisions of Section 11906.

11908. To the extent that available funds are insufficient to provide services under the program established by this article to all pupils defined as eligible, the following priorities for the provision of such services shall be observed by the Department of Education:

(a) First priority for services shall go to pupils within the category of children described in Section 11202 of the Welfare and Institutions Code.

(b) Second priority shall go to pupils eligible for social services only under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code, and among such category of pupils the order of priorities shall decline progressively according to the age of the pupils, with the youngest pupils receiving the highest priority.

11909. Each meal provided under this article shall include an appropriate serving of milk; provided, that the provisions of this section shall not be mandatory in the case of demonstration projects conducted pursuant to Section 11904.5.

11910. The Department of Education shall annually file a detailed report to the Legislature showing the progress made in extending the program of school meals established under this article to needy pupils. The report shall present the total number of pupils in the state who are deemed needy under this article, and shall indicate the number of such pupils who are being served under this or any other program which provides for free or reduced price meals at school. The report shall also indicate the number of needy pupils who are not being served by this or any other such program, and shall set forth an analysis of the reasons that these pupils are not being served.

SEC. 5. There is hereby appropriated from the State Construction Program Fund to the Department of Education, out of the amount transferred to the State Construction Program Fund pursuant to Section 17303.7 of the Education Code, which is not required for expenditure for the purposes specified in that section, the sum of six million dollars (\$6,000,000). for the implementation of this act.

In addition to the state funds appropriated there shall be added any funds made available to the state by the federal government pursuant to Title IV of the Social Security Act plus any funds made available by the federal government as a

part of the federal school lunch program administered through the Department of Agriculture. The state share of costs of services shall be provided by the Department of Education from funds appropriated by this section.

Funds appropriated by this section shall be available for use by the Department of Education, without regard to fiscal year.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The orderly implementation of the family nutrition services as authorized by this act requires the immediate attention of the Departments of Education and Social Welfare in cooperation with school districts throughout the state.

(c) Subdivision (b) of this section applies only to local members, and then only if the contract between the board and the employing contracting agency so provides on the operative date of the amendment to this section at the 1970 Regular Session, and shall continue applicable unless and until such agency elects to be subject to Section 21258.1.

If a local member is employed by more than one contracting agency, his aggregate retirement allowances shall be taken into account and this subdivision shall apply as if he were employed by one or more state agencies.

CHAPTER 458

An act to amend Sections 21251.15 and 21261 of the Government Code, relating to Public Employees' Retirement System.

[Approved by Governor July 17, 1970. Filed with
Secretary of State July 17, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 21251.15 of the Government Code is amended to read:

21251.15. For a member reinstated from service retirement, the current service pension, or current and prior service pensions, as the case may be, upon his service retirement subsequent to such reinstatement, shall be the sum of (1) a current service pension calculated on the basis of service rendered after reinstatement in accordance with the formula applicable to him in such service and membership, plus (2) his current service pension, or current and prior service pensions, as the case may be, as it was prior to his reinstatement, adjusted for any service on which such pension was based which was included in coverage of the federal system during reinstatement according to the formula applicable to such service in employment for which he was retired, and further adjusted according to any change after reinstatement in the provisions governing the calculation of his pension which would have applied to him had he continued in retirement but been subject to the formula applied in the first adjustment; provided, that such subsequent retirement occurs before he renders, after his reinstatement, at least one year of state service credited under this system; or if he has rendered one year or more of such state service after reinstatement, in lieu of (2), plus (3) a current service pension based on current service rendered prior to such reinstatement, calculated on the basis of the formula currently applicable to the employment in which the service was rendered but on the basis of an age taken to the preceding completed quarter year but not less than the minimum retirement age applicable to

him at his last retirement and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement. For such a member reinstated from nonindustrial disability retirement, the current service pension upon his service retirement after attaining an age one year less than the minimum age at which he could have retired without an actuarial discount because of age in the employment from which he was last retired, or upon his disability retirement after attaining such minimum age, and subsequent to such reinstatement, shall be calculated in the manners described in the preceding sentence, but the age determined upon subsequent retirement after rendering at least one year of state service credited under the system shall not be taken at less than one year less than such minimum age if the subsequent retirement is for service, or such minimum age if the retirement is for disability.

The current service pension otherwise payable under this section to a member whose allowance prior to reinstatement was paid pursuant to his election under Section 21338 shall be reduced by the actuarial equivalent, on the date of retirement subsequent to reinstatement, of the amount (converted as below), if any, by which—

(a) The total amount, paid in the period during which a temporary annuity was included in the payments, said amount being reduced by the total amount that would have been payable during said period had said election not been made; exceeds

(b) The excess of the total amount that would have been payable, had said election not been made, during the time subsequent to said period and prior to reinstatement over the total amount actually paid during said time.

The amount determined by the above formula shall be converted to an amount equaling the actuarial equivalent on the date of reinstatement and this latter amount shall be the basis of the actuarial equivalent, on the date of retirement subsequent to reinstatement.

Actuarial equivalents required by this section shall be based on the interest rate and mortality tables in use by this system on the date of retirement subsequent to reinstatement.

Notwithstanding this section, or any other provision of this part, the current service pension payable to any member subject to this section who rendered one year or more of state service credited under the system after reinstatement on retirement for service subsequent to reinstatement from service retirement for any credited service for which a current service pension was paid prior to reinstatement shall not be less than the current service pension which would be payable on the date of such subsequent retirement had the member not been reinstated, adjusted, however, by any reduction under this section because of an election under Section 21338 and, for any service so credited which was included in coverage of the fed-

eral system during reinstatement, according to the formula applicable to such service in employment from which he was retired.

SEC. 2. Section 21261 of the Government Code is amended to read:

21261. The prior service pension of a member reinstated from service retirement, upon his subsequent service retirement, shall be in the same amount as his prior service pension prior to his reinstatement, adjusted for any service on which such pension was based which was included in coverage of the federal system during reinstatement according to the formula applicable to such service in employment from which he was retired, and further adjusted according to any change in the provisions governing the calculation of such pensions, using the formula applied in the first adjustment, made after such reinstatement and applicable to pensions being paid at the date of the change; provided, that such subsequent retirement occurs before he renders after his reinstatement at least one year of state service credited under this system; otherwise the prior service pension calculated on the basis of an age, taken to the preceding completed quarter year but not less than the minimum retirement age applicable to him at his last retirement, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement. For such a member reinstated from non-industrial disability retirement, the prior service pension upon his service retirement after attaining an age one year less than the minimum age at which he could have retired without an actuarial discount because of age in the employment from which he was last retired, or upon his disability retirement after attaining such minimum age, and subsequent to such reinstatement, shall be calculated in the manners described in the preceding sentence, but the age determined upon subsequent retirement after rendering at least one year of state service, shall not be taken at less than one year less than such minimum age if the subsequent retirement is for service, or such minimum age if such retirement is for disability.

The prior service pension otherwise payable under this section to a member whose allowance prior to reinstatement was paid pursuant to his election under Section 21338 shall be reduced by the actuarial equivalent, on the date of retirement subsequent to reinstatement, of the amount, if any (converted as below), by which—

(a) The total amount paid in the period during which a temporary annuity was included in the payments, said amount being reduced by the total amount that would have been payable during said period had said election not been made; exceeds

(b) The excess of the total amount that would have been payable, had said election not been made, during the time subsequent to said period and prior to reinstatement over the total amount actually paid during said time.

The amount determined by the above formula shall be converted to an amount equaling the actuarial equivalent on the date of reinstatement. The latter amount shall be the basis of the actuarial equivalent, on the date of retirement subsequent to reinstatement.

Actuarial equivalents required by this section shall be based on the interest rate and mortality tables in use by this system on the date of retirement subsequent to reinstatement.

Notwithstanding this section, or any other provision of this part, the prior service pension payable to any member subject to this section who rendered one year or more of state service credited under the system after reinstatement on retirement for service subsequent to reinstatement from service retirement for any credited service for which a prior service pension was paid prior to reinstatement shall not be less than the prior service pension which would be payable on the date of such subsequent retirement had the member not been reinstated, adjusted, however, by any reduction under this section because of an election under Section 21338 and, for any service so credited which was included in coverage of the federal system during reinstatement, according to the formula applicable to such service in employment from which he was retired.

1752. No person elected or appointed to the governing body of any city, county, or district having an elected governing body, shall be appointed to fill any vacancy on such governing body during the term for which he was elected or appointed.

or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. The term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either to the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. The term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the safety responsibility law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawlertreads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

The term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its in-

sured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workmen's compensation carrier or to any person qualified as a self-insurer under any workmen's compensation law.

(5) To establish an exemption as provided in subdivisions (a), (b), and (c) of Section 16057 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (c)(2), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him, the damages which he shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under such automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by

arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his insurer, his legal representative, or his heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in said Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in said Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of said Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under said Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of subparagraph (a)(4) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in subparagraph (b)(2) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver or rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him under any workmen's compensation law exclusive of nonoccupational disability benefits.

(2) By the amounts paid or due to be paid under any valid and collectible automobile medical payment insurance available to the insured. This paragraph shall remain in effect until December 31, 1970, and shall have no force or effect after that date.

(3) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding the provisions of subdivisions (b) and (i), in the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to such injury or death. Failure of the insurer to provide such written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date such written notice is actually given.

Any agency which requires the approval of the director for the compilation, publication, or distribution of a directory, under the law in effect at the time the amendment made to this section at the 1970 Regular Session of the Legislature becomes effective, shall continue to require such approval. As used in this section, "directory" means a directory, roster, register, or similar compilation of the names of persons who hold a license, certificate, permit, registration, or similar indicia of authority from the agency.

CHAPTER 476

An act to amend Section 18945.1 of the Financial Code, relating to industrial loan companies.

[Approved by Governor July 21, 1970. Filed with
Secretary of State July 21, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 18945.1 of the Financial Code is amended to read:

18945.1. The downpayments received by the company under the provisions of Section 18945 shall be subject to the provisions of this section.

(a) The downpayments received by the company under the provisions of Section 18945, may be held by the company in trust in a separate bank account or depository, or in lieu thereof, the company may maintain a time deposit with a bank, savings and loan association, or comparable institution, or obtain a certificate or certificates of deposit from a bank, in an amount at least equal to the average amount of such

downpayments being held at any given time by the company as ascertained by the commissioner, and which are payable to the insurer pursuant to the terms of the premium finance agreement. Such deposits or certificates shall be held in trust for the benefit of the insureds, as their relative interests in such downpayments may exist at any given time, and in the event of the insolvency of a company, such funds on deposit under the provisions of this section or as represented by a certificate or certificates of deposit shall be first applied to remitting the amount of the downpayment to the insureds on all premium finance agreements upon which the company has not then forwarded in full the downpayments collected from and then being held for insureds, and, if insufficient to pay all such amounts in full, then such funds shall be applied for such purposes pro rata.

(b) In lieu of the alternatives set forth in subdivision (a), the company may furnish the commissioner with a bond entered into with a corporate surety, qualified to do business in this state, approved by the commissioner in a penal sum which shall be at least equal to the average amount of such downpayments being held at any given time by the company as ascertained by the company semiannually subject to the review and acceptance of the commissioner, and which are payable to the insurer pursuant to the terms of the premium finance agreement, and the bond shall provide that in addition to said penal sum the surety is liable to the commissioner for any and all expenses (including court costs and attorneys fees) incurred by the commissioner in pursuing any and all claims against the bond, and the surety shall within five days after a claim has been filed with said surety file a complete copy of said claim with the commissioner. Such bond shall be conditioned so as to protect the insureds in the event of the insolvency of the company with respect to all downpayments which the company has not then forwarded to the insurers and, if the penal sum is insufficient to pay all such amounts in full then the proceeds of the bond shall be distributed on a pro rata basis to the insureds. If the claims of the insureds or any of them under the bond are not paid in such manner, and the amounts of such claims are proven to the satisfaction of the commissioner to be due such claimants, or should the commissioner determine to his satisfaction that sums are due such insureds, he may make demand for payment on behalf of all such unpaid claimants or insureds. If payment is not made, the commissioner may take any legal action he may deem necessary to enforce payment under such bond. The aggregate liability of the surety under such bond shall, in no event, exceed the penal sum of such bond plus the expenses (including court costs and attorneys fees) incurred by the commissioner in pursuing any and all claims against the bond. The surety on the bond shall have the right to terminate such bond in accordance with the provisions of Section 2851 of the Civil Code.

CHAPTER 477

SECTION 1. Section 5600 of the Financial Code is repealed.

The commissioner may from time to time require from any officer or director of any association, reports, under oath or under penalty of perjury, concerning such person's performance of his duties as officer or director, or concerning any direct or indirect dealings by such officer or director affecting the association.

Any request for such a report shall contain a statement setting forth the reasons and supporting facts for requesting the report and its relevance to the responsibilities of the commissioner.

SEC. 3. Section 5601 of the Financial Code is repealed.

CHAPTER 479

An act to amend Section 3250 of the Civil Code and to amend Section 4207 of, and to repeal Section 4207 of, the Government Code, relating to attorney's fees.

[Approved by Governor July 21, 1970. Filed with Secretary of State July 21, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 3250 of the Civil Code is amended to read:

3250. The filing of a stop notice is not a condition precedent to the maintenance of an action against the surety or sureties on the payment bond. An action on the payment bond may be maintained separately from and without the filing of an action against the public entity by whom the contract was awarded or any officer thereof. In any action, the court shall award to the prevailing party a reasonable attorney's fee, to be taxed as costs.

SEC. 2. Section 4207 of the Government Code is amended to read:

4207. The filing of a verified claim is not a condition precedent to the maintenance of an action against the surety or sureties on the contractor's bond. An action on the bond may be maintained separately from and without the filing of an action against the officer or body by whom the contract was awarded.

In any action, the court shall award to the prevailing party a reasonable attorney's fee, to be taxed as costs.

SEC. 3. Section 4207 of the Government Code as amended by Section 2 of this act is repealed.

SEC. 4. It is the intent of the Legislature by this act to change the basis for decisional law denying attorney's fees on appeal, so as to permit the prevailing party to recover such fees on appeal.

SEC. 5. Sections 1 and 3 of this act shall become operative January 1, 1971.

CHAPTER 480

An act to amend Section 411.20 of the Code of Civil Procedure, and to amend Sections 26821.2, 26822.2, 26822.3, 26826.2 and 70015 of, and to add Section 26827.2 to, the Government Code, relating to court filing fees.

[Approved by Governor July 21, 1970. Filed with Secretary of State July 21, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 26821.2 of the Government Code is amended to read:

26821.2. In any county with a population of more than 700,000 and less than 710,000, as determined by the 1960 Federal Decennial Census, or with a population exceeding 4,000,000, the fee for the filing of the first paper in a civil action or special proceeding, except an adoption proceeding, is twenty-three dollars (\$23); provided, however, in each civil action in which the demand is for one thousand dollars (\$1,000) or less, the filing fee shall be twelve dollars (\$12).

SEC. 2. Section 26822.2 of the Government Code is amended to read:

26822.2. In any county with a population of more than 700,000 and less than 710,000, as determined by the 1960 Federal Decennial Census, or with a population exceeding 4,000,000, the fee for filing the papers transmitted from another court on the transfer of a civil action or a special proceeding is twenty-three dollars (\$23).

SEC. 3. Section 26822.3 of the Government Code is amended to read:

26822.3. In addition to, and at the same time, as fees are collected pursuant to Sections 26821, 26821.2, 26826, 26826.2, 26827, and 26827.2, a fee of two dollars (\$2) shall be collected.

The funds shall be transmitted at the end of each month to the State Controller for payment into the Judges' Retirement Fund.

SEC. 4. Section 26826.2 of the Government Code is amended to read:

26826.2. In any county with a population of more than 700,000 and less than 710,000, as determined by the 1960 Federal Decennial Census, or with a population exceeding 4,000,000, upon filing the first paper in the action on behalf of any defendant, intervenor, respondent, correspondent, or adverse party, whether separately or jointly, except for the purpose of making disclaimer, the fee is seven dollars (\$7).

As used in this section the word "paper" does not include a stipulation for the appointment of a judge pro tempore or of a court investigator or the report made by such investigator or the declaration of a spouse filed in an order to show cause proceeding.

SEC. 5. Section 26827.2 is added to the Government Code, to read:

26827.2. In each county with a population of more than 700,000 and less than 710,000, as determined by the 1960 Federal Decennial Census, the fee for filing the first petition for letters of administration, a petition for special letters of administration, a petition for letters testamentary, a first account of a testamentary trustee, or a petition for letters of guardianship, or a petition for letters of conservatorship, or a petition for compromise of minor's claim, is twenty-three dollars (\$23). For filing any subsequent petition for letters of administration, special letters of administration, letters testamentary letters of guardianship, or letters of conservatorship, or a petition to con-

test any will or codicil, in the same proceeding, the fee is seventeen dollars (\$17). When the subsequent petition is filed to amend a previously filed petition, but the petitioner is the same person named in the original petition, no fee shall be charged. When the public administrator or an employee of the Department of Mental Hygiene in his official capacity is the petitioner, he shall be required to pay the fee only out of the assets of the estate coming into his possession.

SEC. 6. Section 70015 of the Government Code is amended to read:

70015. In addition to a fee or fees required by any other law or laws, a fee of thirteen dollars (\$13) shall be paid to the county clerk of such a county by each party, or jointly by parties appearing jointly in each of the following instances:

(a) Where Section 26821.2 of the Government Code requires such party or parties to pay the county clerk a fee for the filing of the first paper in a civil action or in a special proceeding, except in an appeal from an inferior court.

(b) Where Sections 26822 to 26825, inclusive, of the Government Code require such party or parties to pay the county clerk a fee for filing papers transmitted from another court on the transfer of a civil action or special proceeding from another court, except in an appeal from an inferior court.

(c) Where Section 26826.2 of the Government Code requires such party or parties to pay the county clerk a fee for the appearance in a civil action or special proceeding of a defendant, intervenor, respondent, correspondent or adverse party, except in an appeal from an inferior court; provided, however, if any of the parties named in this paragraph shall appear jointly they shall pay but such additional fee of thirteen dollars (\$13) as in this section provided.

(d) Where Section 26827.2 of the Government Code requires such party or parties to pay the county clerk a fee for the filing of a petition or other paper in a probate or guardianship matter.

SEC. 7. Section 411.20 of the Code of Civil Procedure is amended to read:

411.20. Upon presentation of a complaint or other first paper and the payment of at least the fee prescribed by Section 26821, 26821.2, 26826, 26826.2, 26827, 26827.2, 71665, 71665.5, 72055, or 72056 of the Government Code, the clerk shall file it. If all applicable fees are not then paid, the clerk shall forthwith mail notice of the unpaid fees to the party who filed the paper at the address stated by the party and shall execute a certificate of such mailing and place it in the court's file in the action. The filing is ineffective unless such fees are paid within 20 days after any notice given by the clerk pursuant to this section.

The clerk's certificate as to the mailing of notice pursuant to this section establishes a rebuttable presumption that such fees were not paid. This presumption is a presumption affecting the burden of producing evidence.

CHAPTER 481

An act to amend Section 15 of Chapter 1451 of the Statutes of 1969, and to amend Section 14105.5 of the Welfare and Institutions Code, relating to health facilities.

SEC. 6. Section 6580.1 of the Health and Safety Code is amended to read:

6580.1. The election of officers may be consolidated with the direct primary election if the board of directors passes a resolution to that effect on or before the first day of August of the preceding odd-numbered year and states in the resolution those offices of director to be filled at the first consolidated election. The offices which may be filled at the first consolidated election in those districts whose general district elections are held pursuant to the Uniform District Election Law are those offices which would have expired on the last Friday of December of the year preceding the direct primary election and in all other districts are those offices which would have expired in the year of the consolidated election or in the year next following. Upon a determination to consolidate pursuant to this section, the affected officers shall hold office until the first meeting of the board following the entry of the statement of the result of the consolidated election on the records of the board of supervisors or until the end of the terms for which they were elected, whichever is shorter. In the event this consolidation procedure is used then all other elective offices shall expire and be filled in the same manner at the next succeeding consolidated election. Any vacant office resulting from the operation of this provision shall be filled by appointment by the board.

If the election of directors is consolidated, and if there is to be but one person to be elected to the office, the candidate receiving the highest number of votes cast for the candidates for that office shall be declared elected. If there are two or more persons to be elected to the office, those candidates equal in number to the number to be elected who receive the highest number of votes for the office shall be declared elected. If a tie vote makes it impossible to determine which of two or more candidates has been elected, the governing board shall forthwith notify the candidates who have received the tie votes to appear before it either personally or by representative at a time and place designated by the governing body. The governing body shall at that time and place determine the tie by lot and the results thereof shall be declared by the governing body. The candidate so chosen shall qualify, take office and serve as though elected at the preceding general district election.

For such consolidated elections candidates shall declare their candidacy and shall be nominated, election returns shall be canvassed, the election shall be held and conducted, the results shall be declared, and the certificates of election shall be issued, in the same manner as the declaration of candidacy, nomination, election, canvassing of returns, declaration of results, and issuance of certificates of election for county officers are made, declared, held, and conducted, and issued, so far as consistent with the provisions of this section. Directors elected under the procedure provided in this section, except the first board of directors, shall take office at the first meeting of the board following the entry of the statement of the result of the consolidated election on the records of the board of supervisors. Elections held under this section at the time of the direct primary election and consolidated therewith shall be known as the general district election and each other election in a district holding elections under this section which may be held by authority of this law or the Elections Code or other law applicable thereto shall be known as a special district election.

The provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of, and Section 23520 of the Elections Code shall apply to every consolidation under this section.

The authority of the peace officer under this chapter shall be only to prevent entry and not otherwise to detain. Nothing in this chapter shall be construed to limit the authority of a peace officer under any other section of the law of this state.

An act to amend Section 25505.8 of the Education Code, relating to nonresident junior college tuition.

[Approved by Governor July 23, 1970. Filed with
Secretary of State July 23, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 25505.8 of the Education Code is amended to read:

25505.8. A district may admit and shall charge a tuition fee to nonresident students. The district may exempt from all or parts of the fee nonresidents who (a) enroll for six units or less, (b) are both citizens and residents of a foreign country, or (c) are military personnel or the dependents of military personnel. Any exemptions shall be made with regards to all nonresidents described in (a), or (b), or (c) above, and shall not be made on an individual basis.

A district may, without the approval of the Superintendent of Public Instruction contract with a state, the federal government, a foreign country, or an agency thereof, for payment of all or a part of a nonresident student's tuition fee.

The nonresident tuition fee shall be paid in two equal installments at the beginning of each semester, or three equal installments at the beginning of each quarter and shall be set by the Board of Governors of the California Community Colleges not later than January 1st of each year. The fee shall represent the amount per student enrolled in junior colleges in all the districts of the state, which is expended by all the districts from district tax funds for the costs of instruction as defined by the California School Accounting Manual for pupils enrolled in grades 13 and 14.

The amount per pupil enrolled shall be derived by dividing the costs of instruction expended from district funds during the preceding year by the quotient of the average daily attendance during the same year in grades 13 and 14 of all districts maintaining junior colleges in the state divided by 1.2. The same fee shall be charged irrespective of the type of class in which the student is enrolled.

The Board of Governors of the California Community Colleges shall also adopt a per-unit tuition fee for nonresidents on less than a full-time basis by dividing the fee for full-time nonresidents by 30 (units). The same per-unit rate shall be charged all nonresident students attending any summer sessions maintained by the junior college.

A district shall report annually to the Board of Governors of the California Community Colleges the number of nonresidents enrolled for six units or less, the number of nonresidents enrolled for more than six units, and the total amount of fees collected from each category.

The provisions of this section which require a mandatory fee for nonresidents shall not apply to any district in which during the school year 1962-63 more than 15 percent of the students enrolled were residents of another state; except that the provisions of this section shall apply to such districts beginning with the school year 1975-1976 and except that the provisions of this section which require annual reports to be filed with the Board of Governors of the California Community Colleges on the number of such students enrolled shall apply to such districts in the same manner as to any other district.

CHAPTER 494

An act to amend Sections 1161, 1162, and 25413.5 of the Education Code, relating to school district governing board, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 23, 1970. Filed with
Secretary of State July 23, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1161 of the Education Code is amended to read:

1161. Vacancies on school district governing boards are caused by any of the events specified in Section 1770 of the Government Code, or by a failure to elect. A vacancy resulting from resignation occurs when the written resignation is filed with the county superintendent of schools having jurisdiction over the district, except where a deferred effective date is specified in the resignation so filed, in which case the resignation shall become effective on that date. A written resignation, whether specifying a deferred effective date or otherwise, shall, upon being filed with the county superintendent of schools, be irrevocable.

SEC. 2. Section 1162 of the Education Code is amended to read:

1162. Whenever a vacancy occurs, or whenever a resignation has been filed with the county superintendent of schools containing a deferred effective date, the county superintendent of schools having jurisdiction shall immediately call a special election to elect a successor to serve during the remainder of

the term in which the vacancy occurs or will occur. The special election shall be conducted no later than the 120th day after the written resignation is filed with the county superintendent of schools. The election shall be called and conducted in as nearly the same manner as practicable as other governing board member elections.

SEC. 3. Section 25413.5 of the Education Code is amended to read:

25413.5. The provisions of Article 4 (commencing with Section 1161) of Chapter 4 of Division 4 regarding vacancies on school district governing boards are incorporated into this article as if fully set out herein so as to be applicable to vacancies on the governing boards of junior college districts.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Authorizing school district governing board members to defer the effective date of resignations rather than having such resignations take effect immediately upon filing with the county superintendent of schools will promote the more orderly filling of vacancies and will minimize the occurrence of extended periods of vacancy pending the election of new members. In order that this more satisfactory procedure may be made available to the school districts of the state at the earliest possible time, it is essential that this act take immediate effect; and this is especially so since 1970 is a year in which statewide elections are to be held in June and November.

CHAPTER 495

The people of the State of California do enact as follows:

SECTION 1. Section 58749 is added to the Agricultural Code, to read:

58749. The director may issue and make effective a marketing order or marketing agreement which applies to two or more commodities. The producers or handlers of each commodity encompassed by such marketing order or agreement shall have all rights and privileges contained in this chapter as though such producers or handlers were directly affected by a marketing order or agreement regulating only a single commodity. If the producers or handlers of one commodity who are directly affected by a marketing order or agreement which applies to two or more commodities act to enjoin, amend, suspend or terminate the provisions thereof to such commodity, the order or agreement shall not be enjoined, amended, suspended or terminated with respect to any other commodity regulated by such order or agreement unless the director finds such injunction, amendment, suspension, or termination respecting one commodity makes continuance of the order or agreement no longer feasible or it fails to attain the objectives of this chapter. Unless the director makes findings to the contrary, a marketing order or agreement applicable to more than one commodity is deemed to be severable with respect to each commodity encompassed by it and also severable as to each sentence, clause, or part as it applies to each commodity. There shall be a clear and concise definition or identification of each commodity regulated by such multiple commodity marketing order or agreement.

SEC. 2. Section 58895 is added to the Agricultural Code, to read:

The advisory board may recommend and the director may approve measures to assist in the prevention or reduction of losses to crops or livestock caused by predators, insects, disease or parasite infestations, including the establishment and operation of detection, inspection, spraying, dusting, fumigating or other control measures.

If, after hearing, the court finds that since such termination of jurisdiction or action pursuant to Section 626, as the case may be, he has not been convicted of a felony or of any misdemeanor involving moral turpitude and that rehabilitation has been attained to the satisfaction of the court, it shall order sealed all records, papers, and exhibits in the person's case in the custody of the juvenile court, including the juvenile court record, minute book entries, and entries on dockets, and other records relating to the case in the custody of such other agencies and officials as are named in

(b) Subdivision does not include any parcel or parcels of land which is divided into four or less parcels. Any conveyance of land to a governmental agency, public entity or public utility shall not be considered a division of land for purposes of computing the number of parcels.

(c) Subdivision does not include the division of any real property improved or unimproved or a portion thereof shown on the latest adopted county tax roll as a unit or as contiguous units, which is divided for the purpose of sale, lease, or financing, whether immediate or future, if any of the following conditions prevail:

(1) The whole parcel before division contains less than five acres, each parcel created by the division abuts upon a public street or highway and no dedications or improvements are required by the governing body.

(2) Any parcel or parcels divided into lots or parcels, each of a gross area of 20 acres or more, and each of which has an approved access to a maintained public street or highway.

(3) Any parcel or parcels of land having approved access to a public street or highway which comprises part of a tract of land zoned for industrial or commercial development, and which has the approval of the governing body as to street alignments and widths.

(4) Any parcel or parcels of land divided into lots or parcels, each of a gross area of forty (40) acres or more or each of which is a quarter-quarter section or larger, or such other amount, up to 60 acres, as may be specified by local ordinances.

(d) In any case provided in subdivisions (c) (1), (c) (2), and (c) (3), and in the case of subdivision (b) when requested by local ordinance, a tentative map shall be submitted to the governing body or advisory agency (in the same manner as

provided in this chapter for subdivisions) for approval as to area and lot design and as to all requirements of this section. Within one year after approval of the tentative map, a parcel map showing each new parcel or parcels may be filed with the recorder of the county concerned. If dedications or offers of dedications are required, such dedications shall be completed prior to filing of the parcel map. An offer of dedication shall be in such terms as to be binding on the owner, his heirs, assigns or successors in interest, and shall continue until the governing body accepts or rejects such offer.

The state plan shall set forth the relative need for the several projects included in the construction program, determined on the basis of the relative need of different sections of the population and of different areas lacking adequate hospital facilities, giving special consideration to areas with relatively small financial resources, and in accordance with the regulations of the Surgeon General prescribed pursuant to the federal act, and shall provide for their construction in the order of relative need so determined, insofar as financial resources available therefor and for maintenance and

operations make it possible. In enacting this section it is the intent of the Legislature to encourage the design of projects and the development of programs that undertake responsibility to provide in an efficient manner comprehensive health care, including outpatient and preventive care, as well as hospitalization, to a defined population or populations.

For purposes of this section, the criterion of efficiency referred to herein shall include, but not be limited to, a consideration of the utilization of health facilities and services, including policies, mechanisms, and procedures to prevent excessive utilization.

SECTION 1. Section 5074 of the Financial Code is amended to read:

5074. An amortized loan is a loan which provides for payments to be made of interest and on the principal in monthly installments. The installments as to the combined principal and interest shall be at least of a sufficient amount so that the smallest installment provided in the note evidencing the loan, other than the last installment, if continued at such monthly intervals would result in paying the entire principal within the maximum legal term for the particular loan. The first installment which includes principal on each amortized loan

must fall due within the time limits specified in Section 7151 of this code.

A loan made to finance the construction of real property is an amortized loan if it meets the requirements set forth above or if such loan provides for payment in full on or before 18 months have elapsed from the date of the loan.

(b) The real property is a residential unit designed for one-family occupancy within a community apartment project in which an undivided interest in the real property is coupled with the exclusive right of occupancy of such residential unit and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the community apartment project.

(c) The real property is a residential unit, designed for one-family occupancy, within a cluster-type residential project, in which the interest in such real property is coupled with an undivided interest in common in a portion of the remaining real property on which such project is located, and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the project.

CHAPTER 504

An act to add Section 13084.5 to the Education Code, relating to employee organizations, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 23, 1970. Filed with Secretary of State July 23, 1970.]

The people of the State of California do enact as follows:

The provisions of this section are expressly intended to apply to actions or proceedings commenced prior to, but concluded or pending as of, as well as on and after, the effective date of this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Public funds have been expended and are being expended in litigation instituted by employee organizations on behalf of members. Recent judicial decisions have cast serious doubt upon the validity of proceedings previously reduced to judgment, and now pending, and issues heretofore litigated may have to be relitigated at additional cost to school districts and their public attorneys. In order to avoid such duplication of expenditure it is necessary that this act take effect immediately.

CHAPTER 505

An act to add Section 6738.2 to the Business and Professions Code, relating to professional engineers.

The penalty imposed by this section shall be due and payable upon notice and demand by the Franchise Tax Board. The tender of a check or money order does not constitute payment of the tax for purposes of this section unless the check or money order is paid on presentment.

(b) The penalty prescribed by subdivision (a) shall not be assessed if, for the same taxable year, the sum of any penalties imposed under Section 18681 (relating to failure to file return) and Section 18682 (relating to failure to file return after demand) is equal to or greater than the subdivision (a) penalty. In the event the penalty imposed under subdivision (a) is greater than the sum of any penalties imposed under Section 18681 and 18682, only the subdivision (a) penalty will be assessed.

(c) For purposes of this section, total tax unpaid means the amount of tax shown on the return reduced by: (1) the amount of any part of the tax which is paid on or before the date prescribed for filing the return, and (2) the amount of any credit against the tax which may be claimed upon the return.

(e) If the amount required to be shown as a tax on a return is less than the amount shown as tax on such return, subdivision (a), subdivision (c), and subdivision (d) shall be applied by substituting such lower amount.

(f) No interest shall accrue on the portion of the penalty described in paragraph (2) of subdivision (a).

SEC. 2. The provisions of this act shall apply with respect to returns with a due date on or after the effective date of this act.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 507

An act providing for an advance allocation of state financial support to the Lakeside Elementary School District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 24, 1970. Filed with
Secretary of State July 24, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Not later than July 26, 1970, the Superintendent of Public Instruction shall allocate to the Lakeside Elementary School District in Kings County, from amounts appropriated to the State School Fund, the sum of seventy-five thousand dollars (\$75,000), which amount shall be in addition to the advance apportionment computed for the district pursuant to Section 17401 of the Education Code for the 1970-1971 fiscal year. SEC. 3. It is the intent of the Legislature that, subject to the provisions of this act, the Lakeside Elementary School District receive only so much in total state financial support during the 1970-1971 fiscal year, as it would otherwise be entitled.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that needed funds may be made available to the Lakeside Elementary School District at the earliest time to aid the district in averting a financial crisis which directly involves the entire area of the district, it is necessary that this act take immediate effect.

CHAPTER 508

An act to add Chapter 13 (commencing with Section 13970) to Division 7 of the Water Code, relating to providing for the preparation, issuance and sale of state bonds to create a fund to provide aid to public agencies in the planning, design and construction of facilities for the control and prevention of water pollution; defining the powers and duties of state officers in respect to the administration of the provisions hereof; providing ways and means for the payment of the interest of such bonds as such interest falls due, and also for the payment and discharge of the principal of such bonds as such principal matures; appropriating money for the purpose of carrying out this chapter; and providing for the submission of the measure to the people at a special election to be consolidated with the 1970 general election.

[Approved by Governor July 28, 1970. Filed with Secretary of State July 28, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 13 (commencing with Section 13970) is added to Division 7 of the Water Code, to read:

CHAPTER 13. CLEAN WATER BOND LAW OF 1970

13970. This chapter may be cited as the Clean Water Bond Law of 1970.

13971. The Legislature hereby finds and declares that clean water, which fosters the health of the people, the beauty of their environment, the expansion of industry and agriculture, the enhancement of fish and wildlife, the improvement of recreational facilities and the provision of pure drinking water at a reasonable cost, is an essential public need. Although the State of California is endowed with abundant lakes and ponds, streams and rivers, and hundreds of miles of shoreline, as well as large quantities of underground water, these vast water resources are threatened by pollution, which, if not checked, will impede the state's economic, community and social growth. The chief cause of pollution is the discharge of inadequately treated waste into the waters of the state. Many public agencies have not met the demands for adequate waste treatment or the control of water pollution because of inadequate financial resources and other responsibilities. Increasing population accompanied by accelerating urbanization, growing demands for water of high quality, rising costs of construction and technological changes mean that unless the state acts now the needs may soar beyond the means available for public finance. Meeting these needs is a proper purpose of the federal, state and local governments. Local agencies, by reason of their closeness to the problem, should continue to have primary

responsibility for construction, operation and maintenance of the facilities necessary to cleanse our waters. Since water pollution knows no political boundaries and since the cost of eliminating the existing backlog of needed facilities and of providing additional facilities for future needs will be beyond the ability of local agencies to pay, the state, to meet its responsibility to protect and promote the health, safety and welfare of the inhabitants of the state, should assist in the financing. The federal government is contributing to the cost of control of water pollution, and just provision should be made to cooperate with the United States of America. It is the intent of this chapter to provide necessary funds to insure the full participation by the state under the provisions of Section 8 of the Federal Water Pollution Control Act (33 U.S.C. 466 et seq.) and acts amendatory thereof or supplementary thereto.

13972. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter except that notwithstanding anything in the State General Obligation Bond Law, the bonds authorized hereunder shall bear such rates of interest, or maximum rates, as may from time to time be fixed by the State Treasurer, with the approval of the committee, and the maximum maturity of the bonds shall not exceed 50 years from the date of the bonds, or from the date of each respective series. The maturity of each respective series shall be calculated from the date of such series.

13973. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the Clean Water Finance Committee, created by Section 13974.

(b) "Board" means the State Water Resources Control Board.

(c) "Fund" means the State Clean Water Fund.

(d) "Municipality" shall have the same meaning as in the Federal Water Pollution Control Act (33 U.S.C. 466 et seq.) and acts amendatory thereof or supplementary thereto and shall also include the state or any agency or department thereof.

(e) "Treatment works" shall have the same meaning as in the Federal Water Pollution Control Act (33 U.S.C. 466 et seq.) and acts amendatory thereof or supplementary thereto.

(f) "Construction" shall have the same meaning as in the Federal Water Pollution Control Act (33 U.S.C. 466 et seq.) and acts amendatory thereof or supplementary thereto.

(g) "Eligible project" means a project for the construction of treatment works which is all of the following:

(1) Eligible for federal assistance, whether or not federal funds are then available therefor;

(2) Necessary to prevent water pollution;

(3) Certified by the board as entitled to priority over other treatment works, and which complies with applicable water quality standards, policies and plans.

(h) "Federal assistance" means funds available to a municipality either directly or through allocation by the state, from the federal government as grants for construction of treatment works, pursuant to Section 8 of the Federal Water Pollution Control Act, and acts amendatory thereof.

13974. The Clean Water Finance Committee is hereby created. The committee shall consist of the Governor or his designated representative, the State Controller, the State Treasurer, the Director of Finance, and the chairman of the board. The executive officer of the board shall serve as a member of the committee in the absence of the chairman. Said committee shall be the "committee" as that term is used in the State General Obligation Bond Law.

13975. The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred fifty million dollars (\$250,000,000), in the manner provided in this chapter. Such debt or debts, liability or liabilities, shall be created for the purpose of providing the fund to be used for the object and work specified in Section 13976.

13976. (a) The moneys in the fund shall be used for the purposes set forth in this section.

(b) The board is authorized to enter into contracts with municipalities having authority to construct, operate and maintain treatment works, for grants to such municipalities to aid in the construction of eligible projects, and for reclamation of water.

Grants may be made pursuant to this section to reimburse municipalities for construction for which contracts were let subsequent to July 1, 1970, and before the first sale of bonds authorized to be issued by this chapter.

Any contract pursuant to this section may include such provisions as may be agreed upon by the parties thereto, and any such contract concerning an eligible project shall include, in substance, the following provisions:

(1) An estimate of the reasonable cost of the eligible project;

(2) An agreement by the board to pay to the municipality, during the progress of construction or following completion of construction as may be agreed upon by the parties, an amount which equals the minimum amount required by federal law for the project to qualify for the maximum amount of federal assistance available;

(3) An agreement by the municipality. (i) to proceed expeditiously with, and complete, the eligible project, (ii) to commence operation of the treatment works on completion thereof, and to properly operate and maintain such works in accordance with applicable provisions of law, (iii) to apply for

and make reasonable efforts to secure federal assistance for the eligible project, (iv) to secure the approval of the board before applying for federal assistance in order to maximize the amounts of such assistance received or to be received for all eligible projects in the state, and (v) to provide for payment of the municipality's share of the cost of the eligible project.

(c) The board may make direct grants to any municipality or by contract or otherwise undertake plans, surveys, research, development and studies necessary, convenient or desirable to the effectuation of the purposes and powers of the board pursuant to this division and to prepare recommendations with regard thereto, including the preparation of comprehensive statewide or areawide studies and reports on the collection, treatment and disposal of waste under a comprehensive cooperative plan.

The aggregate amount of moneys which may be advanced or granted to or committed to municipalities for the purpose of planning, research and development, whether by the board or under the direction of the board or in the form of direct grants to municipalities for such purpose, shall not exceed in the aggregate such amount as may be fixed from time to time by the committee.

(d) The board may from time to time with the approval of the committee transfer moneys in the fund to the State Water Quality Control Fund to be available for loans to public agencies pursuant to Chapter 6 (commencing with Section 13400) of this division.

(e) Not more than one-half of 1 percent of the moneys deposited in the fund may be expended by the board for costs incurred in administering the provisions of this chapter.

(f) As much of the moneys in the fund as is necessary shall be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

(g) The board may with the approval of the committee transfer not more than ten million dollars (\$10,000,000) from the fund to a special reserve fund as additional security for the payment of the principal of and the interest on revenue bonds sold by the state as provided by law to provide funds to municipalities for needed sewage facilities. Such money shall be used for such purpose only after all other securities provided by law have been exhausted. Any money not used for such purpose shall, after retirement of the revenue bonds, be returned to the fund and be available for other purposes provided for in this section.

(h) The board may adopt rules and regulations governing the making and enforcing of contracts pursuant to this section.

13977. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of

California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereon.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect said additional sum.

All money deposited in the fund which has been derived from premium and accrued interest on bonds sold shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

13978. All money deposited in the fund pursuant to any provision of law requiring repayments to the state for assistance financed by the proceeds of the bonds authorized by this chapter shall be available for transfer to the General Fund. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest on the bonds which has been paid from the General Fund.

13979. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 13980, which sum is appropriated without regard to fiscal years.

13980. For the purpose of carrying out the provisions of this chapter, the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

13981. Upon request of the board, supported by a statement of the proposed arrangements to be made pursuant to Section 13976 for the purposes therein stated, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such arrangements, and, if so, the amount of bonds then

to be issued and sold. Successive issues of bonds may be authorized and sold to make such arrangements progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

13982. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

13983. The presumptions in this section mentioned are conclusive in favor of any person dealing in good faith and for a valuable consideration with such married woman or her legal representatives or successors in interest, and regardless of any change in her marital status after acquisition of said property.

In cases where a married woman has conveyed, or shall hereafter convey, real property which she acquired prior to May 19, 1889, the husband, or his heirs or assigns, of such married woman, shall be barred from commencing or maintaining any action to show that the real property was community property, or to recover the real property from and after one year from the filing for record in the recorder's office of such conveyances, respectively.

As used in this section, personal property does not include and real property does include leasehold interests in real property.

SEC. 2. Section 5113.5 of the Civil Code is amended to read:

5113.5. Where community property, before or after the effective date of this section, is transferred by the husband and wife to a trust, regardless of the identity of the trustee, which trust originally or as amended prior or subsequent to such transfer (a) is revocable in whole or in part during their joint lives, (b) provides that the property after transfer to the trust shall remain community property and any withdrawal therefrom shall be their community property, (c) grants the trustee during their joint lives powers no more extensive than those possessed by a husband under Sections 5125 and 5127, except as to property described in Section 5124 respecting which the trustee's powers shall be no more extensive than those possessed by a wife under Section 5124, and (d) is subject to amendment or alteration during their joint lifetime upon their joint consent, the property so transferred to such trust, and the interests of the spouses in such trust, shall be community property during the continuance of the marriage, unless the trust otherwise expressly provides. Nothing in this section shall be deemed to affect community property which, before or after the effective date of this section, is transferred in a manner other than as described in this section or to a trust containing different provisions than those set forth in this section; nor shall this section be construed to prohibit the trustee from conveying any trust property, real or personal, in accordance with the provisions of the trust without the consent of the husband or wife unless the trust expressly requires the consent of one or both spouses.

SEC. 3. Section 204 of the Probate Code is amended to read:

204. Notwithstanding the provisions of Sections 201, 202, and 203, community property held in a revocable trust described in Section 5113.5 of the Civil Code shall be governed by the provisions, if any, in the trust for disposition in the event of death.

(b) For a certificate authorizing an issue of bonds, notes, or other evidences of indebtedness, two dollars (\$2) for each one thousand dollars (\$1,000) of the face value of the authorized issue or fraction thereof up to one million dollars (\$1,000,000), one dollar (\$1) for each one thousand dollars (\$1,000) over one million dollars (\$1,000,000) and up to ten million dollars (\$10,000,000), and fifty cents (\$0.50) for each one thousand dollars (\$1,000) over ten million dollars (\$10,000,000), with a minimum fee in any case of fifty dollars (\$50). CHAPTER 520

An act to add Section 2104.5 to the Public Utilities Code, relating to regulation of public utilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 28, 1970. Filed with
Secretary of State July 28, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 2104.5 is added to the Public Utilities Code, to read:

2104.5. Any penalty for violation of any provision of this act, or of any rule, regulation, general order, or order of the commission, involving safety standards for pipeline facilities or the transportation of gas in the State of California may be compromised by the commission. In determining the amount of such penalty, or the amount agreed upon in compromise, the appropriateness of such penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the person charged in attempting to achieve compliance, after notification of a violation, shall be considered. The amount of any such penalty, when finally determined, or the amount agreed upon in compromise, may be recovered in a civil action in the name of the People of the State of Califor-

nia in the superior court in and for the county, or city and county in which the cause or some part thereof arose, or in which the corporation complained of has its principal place of business or the person complained of resides. In any such action, all penalties incurred, or amounts agreed upon in compromise for violations committed up to the time of commencing the action may be sued for and recovered. In all such actions, the procedure and rules of evidence shall be the same as in ordinary civil actions, except as otherwise herein provided. All fines and penalties recovered by the state in any such action, together with the costs thereof, shall be paid into the State Treasury to the credit of the General Fund.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The maintenance of California jurisdiction over gas pipeline safety requires that California law in such matters conform to federal law. The federal Secretary of Transportation has taken the position that the California law does not conform with respect to the power to compromise penalties for violations of such safety standards. This act conforms California law to the requirements of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. Secs. 1671-1684) and must be effective by August 12, 1970, in order for California to continue its jurisdiction over gas pipeline safety.

An application for a reduction in an assesment filed pursuant to Section 1607 or Section 1760 shall also constitute a sufficient claim for refund under this section if the applicant states in the application that the application is intended to constitute a claim for refund. If the applicant does not so state, he may thereafter and within the period provided in subdivision (b) file a separate claim for refund of taxes extended on the assessment which applicant applied to have reduced pursuant to Section 1607 or Section 1760.

In addition to the penalties provided under Article 12.2 (commencing with Section 1812.6) of this chapter, until the seller delivers such documents, the buyer shall be obligated to pay only the cash price. Any acknowledgment by the buyer of delivery of a copy of such documents shall be printed or written in a size equal to at least 10-point bold type and, if contained in the contract shall also appear directly above the space reserved for the buyer's signature. The buyer's written acknowledgment, conforming to the requirements of this section of delivery of a copy of such documents shall be a rebuttable presumption of such delivery and of compliance with this section and Section 1803.4, in any action or proceeding by or against an assignee of the contract without knowledge to the contrary when he purchases the contract. If the holder furnishes the buyer a copy of such documents, or a notice containing the items required by Section 1803.3 and stating that the buyer should notify the holder in writing within 30 days if he was not furnished a copy of the contract or of any other document which the seller had required or requested the buyer to sign, and which he did sign, during the contract negotiation, and no such notification is given, it shall be conclusively presumed in favor of the third party that copies of such documents were furnished as required by Sections 1803.4 and 1803.7.

(a) On so much of the amount financed as does not exceed one thousand dollars (\$1,000), five-sixths of 1 percent.

(b) If the amount financed exceeds one thousand dollars (\$1,000), on so much of the amount financed as exceeds one thousand dollars (\$1,000), two-thirds of 1 percent.

(c) If the finance charge so computed is less than twelve dollars (\$12), twelve dollars (\$12), but if the due date of the last installment of the contract is eight months or less after its effective date, ten dollars (\$10).

SEC. 19. Section 1805.3 of the Civil Code is amended to read:

1805.3. When a retail installment contract provides for unequal or irregular installments, the finance charge shall be at the effective rate provided for in Section 1805.1, having due regard for the schedule of installments.

SEC. 21. Section 1805.5 of the Civil Code is amended to read:

1806.3. Notwithstanding the provisions of any contract to the contrary, any buyer may pay the contract in full at any time before maturity and in so paying it shall receive a refund credit thereon for such anticipation. The amount of any such refund credit shall represent at least as great a proportion of the finance charge or, if the contract has been extended, deferred or refinanced, of the additional charge therefor, as the sum of the periodic monthly time balances not yet due bears to the sum of all the periodic monthly time balances under the schedule of installments in the contract or, if the contract has been extended, deferred or refinanced, as so extended, deferred or refinanced. Where the amount of the credit for anticipation of payment is less than one dollar (\$1), no refund need be made. Where the earned finance charge amounts to less than the minimum finance charge, there may be retained an amount equal to the minimum finance charge applicable.

SEC. 23. Section 1807.2 of the Civil Code is amended to read:

1807.2. The holder of a retail installment contract or contracts may, upon agreement in writing with the buyer, refinance the payment of the unpaid time balance or balances of the contract or contracts by providing for a new schedule of installment payments. The holder may charge and contract for the payment of a refinance charge by the buyer and collect and receive the same, but such refinance charge (1) shall be based upon the amount refinanced, plus any additional cost of insurance and of official fees incident to such refinancing, after the deduction of a refund credit in an amount equal to that to which the buyer would have been entitled under Section 1806.3 if he had prepaid in full his obligations under the contract or

contracts, but in computing such refund credit there shall not be allowed the minimum earned finance charge as authorized by such section, and (2) may not exceed the rate of finance charge provided under Article 5 of this chapter. Such agreement for refinancing may also provide for the payment by the buyer of the additional cost to the holder of the contract or contracts of premiums for continuing in force, until the maturity of the contract or contracts as refinanced, any insurance coverages provided for therein, subject to the provisions of Section 1803.5. The refinancing agreement shall set forth:

(b) The amount of any refund credit.

(c) The difference between items (a) and (b), which is the net outstanding balance to be refinanced.

(d) Any additional cost of insurance and of official fees to the buyer.

(e) The sum of items (c) and (d), which is the amount financed.

(f) The finance charge.

(g) The total of payments, which is the sum of items (e) and (f), payable by the buyer to the holder, the number of installments required, the amount of each installment expressed in dollars and the due date or period thereof.

(h) Any "balloon payments," as described in Section 1807.3.

The items need not be stated in the sequence or order set forth above; additional items may be included to explain the computations made in determining the amount to be paid by the buyer. Where there is a consolidation of two or more contracts then the provisions of Sections 1808.1 and 1808.2 shall apply.

SEC. 23.5. Section 1807.3 of the Civil Code is amended to read:

1807.3. If any payment under a contract is more than twice the amount of an otherwise regularly scheduled equal payment, the seller shall identify the amount of such payment by the term "balloon payment," and the buyer, upon default of this installment, shall be given an absolute right to obtain a new payment schedule. Unless agreed to by the buyer, the periodic payments under the new schedule shall not be substantially greater than the average of the preceding installments.

SEC. 24. Section 1808.1 of the Civil Code is amended to read:

1808.1. A retail installment contract, which otherwise conforms to the requirements of this chapter, may contain the provision that the seller may at his option add subsequent purchases made by the buyer to the contract, and that the total price of the goods or services covered by the contract shall be increased by the price of such additional goods or services,

and that all finance charges and installment payments may at the seller's option be increased proportionately, and that all terms and conditions of the contract shall apply equally to such additional goods or services. The contract may also provide that the goods purchased under the previous contract or contracts shall be security for the goods purchased under the subsequent contract but only until such time as the total of payments under the previous contract or contracts is fully paid.

SEC. 25. Section 1808.2 of the Civil Code is amended to read:

1808.2. When a subsequent purchase is made, the entire amount of all payments made previous thereto shall be deemed to have been applied toward the payment of the previous deferred payment price or deferred payment prices. Each payment thereafter received shall be deemed to be allocated to all of the various deferred payment prices in the same proportion or ratio as the original cash sale prices of the various purchases bear to one another; where the amount of each installment payment is increased in connection with the subsequent purchase, the subsequent payments (at the seller's election) may be deemed to be allocated as follows: an amount equal to the original payment to the previous deferred payment price, and an amount equal to the increase, to the subsequent deferred payment price. However, the amount of any initial or downpayment on the subsequent purchase shall be deemed to be allocated in its entirety to such purchase.

When a subsequent purchase under this section is made the seller shall deliver to the buyer, prior to the due date of the first installment, a memorandum which shall set forth the following:

(a) The names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer and a description of the goods and services sufficient to identify them. Services or multiple items of goods may be described in general terms and may be described in detail in a separate writing.

(b) The cash price of the goods, services and accessories which are the subject matter of the new retail installment sale.

(c) The amount of the buyer's downpayment, itemizing the amounts paid in money and in goods and containing a brief description of the goods, if any, traded in.

(d) The difference between item (b) and item (c) which is the unpaid balance of cash price.

(e) The amount of the existing outstanding balance to be consolidated, which consists of the unpaid time balance or balances of the prior contract or contracts to be consolidated.

(f) The amount of any unearned finance charge, determined by deducting from the amount of item (e) any then unearned finance charge in an amount not less than the refund credit for anticipation provided for in Article 6 (commencing with

Section 1806.1) of this chapter (computed, however, without the allowance of any minimum earned finance charge).

(g) The difference between items (e) and (f), which is the net outstanding balance to be consolidated.

(h) The amount, if any, included for insurance, specifying the coverages.

(i) The amount, if any, of official fees.

SEC. 8. Section 14696 of the Education Code is amended to read:

14696. (a) Notwithstanding the provisions of Section 14694, persons other than (1) teachers and (2) other persons employed in a status requisite for membership in the State Teachers' Retirement System, who are active or retired members of a district retirement salary plan established under Sections 14551 to 14698, inclusive, in any school district or districts in which the average daily attendance of all districts combined is in excess of 200,000, governed by the same governing board, may be transferred by the governing board of the district or districts, with the consent of the majority of such active members of the plan expressing their desires with respect to the transfer evidenced in such manner as the governing board may prescribe; but no transfer of such active and retired members shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as provided in subdivision (b) of this section.

(b) (1) Active and retired employees, including future employees, of the district or districts who otherwise would be members of such plan, persons who are members of the district's retirement salary plan under Section 14689 of this code, and persons who were employees on June 30, 1957, and who attained age 65 or over during the 12 months immediately preceding July 1, 1957, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the Public Employees' Retirement System according to the provisions of Part 3 (commencing with Section 20000), of Division 5, of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said members, together with such other assets of said plan as may be determined. The total of such other assets transferred, however, shall not be greater than the portion of the reserves of such plan which is allocable to such active and retired employees, as determined by actuarial valuation. In such valuation the portion of the reserves allocable to such active and retired employees proposed to be transferred shall be determined as an amount which bears the same ratio to the total reserves under such plan as the liabilities under the plan on account of such active and retired employees bear to the total liabilities under the plan on account of all active and retired employees thereunder. On the effective date of the contract making such active employees members of the Public Employees' Retirement System, such employees shall cease to be members of such plan, and neither they nor retired persons who are made beneficiaries of such state system, shall be paid or have any right to any allowance or other benefit under such plan for time beginning with said effective date.

(2) With respect to persons who are members of such plan at such transfer, it shall be provided in the contract making such employees members of the Public Employees' Retirement System, that their respective rates of contribution thereunder shall be based on the age at the nearest birthday at July 1, 1944, or at the respective later effective dates of their membership in such plan, all instead of the age at the nearest birthday at the effective date of membership in such employees' system.

(3) Each employee of the district or districts who is included in such contract, but who during all or part of his employment in a status requisite for membership in such plan was not a member thereof, because of his election under an available option, or who, while employed in a status not requisite for membership in such plan, was a member of the State Teachers' Retirement System and was contributing to that system, or who did not redeposit upon reentry into membership contributions previously withdrawn, shall have the right to elect by written document filed with the Board of Administration, Public Employees' Retirement System, at any

time within 90 days after the date upon which the notice of the right to make such election is mailed by such system either to the member's latest address on file in the office of such system, or to the office of the governing board of such district or districts, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the board of administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of this subdivision (b), will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never elected not to be a member thereof, or if he had been a member of such plan during the time he was a member of such State Teachers' Retirement System and was contributing thereto, or if he had redeposited such withdrawn contributions upon such reentry, as the case may be. Such employee shall pay to the Public Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of transfer, at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes such contributions, and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all the service rendered while he was not a member of such plan, because of his optional exclusion, or for service rendered while he was contributing to such State Teachers' Retirement System; provided, such service is no longer credited under such teachers' system, or for all service upon which the withdrawn contributions were based, and for the purpose of paragraph (2) shall be considered as a member of such plan at such transfer and from November 1, 1937, or later beginning date of such service. Regardless of whether such contributions are made, such employee shall receive credit for service with which he was credited or would have been credited if he had been a member, as prior service under such plan. The contributions under this paragraph (3) shall be added to and administered in the same manner as the contributions transferred under paragraph (1) of this subdivision (b).

(4) Service rendered by active employees who are made members of the Public Employees' Retirement System prior to or after the assumption by the district or districts of the function under which the service was rendered, but prior to the effective date of the contract making active employees such members, and the compensation for which was paid wholly or in part from funds other than the funds of the district or districts, shall be credited under such employees' system, provided such service qualified for credit under such plan.

(5) The contract making such active employees members of the Public Employees' Retirement System, shall include such employees with respect to service rendered in a status in

which they are not eligible for membership in the State Teachers' Retirement System, as provided in Section 20491 of the Government Code, and also with respect to service rendered in a status in which they are eligible for such membership, but which is no longer credited under such teachers' retirement system, and such service shall be credited in the manner applicable to service otherwise qualifying for credit.

(6) Retirement allowances being paid under such plan to retired employees of the district or districts, who are made beneficiaries of the Public Employees' Retirement System, shall be changed by action of the governing board of such districts, effective at such transfer, to retirement allowances calculated on the basis of service used in the calculation of the respective allowances under such plan, and average annual salary earnable during the highest three consecutive years of creditable service, calculated according to the methods used at the date of transfer, under such plan in determining salary earnable, but excluding any salary based on overtime as provided in Section 20025.2 of the Government Code, but otherwise according to the formulae under such employees' system which apply to active employees who are made members thereof. Such changed allowances shall be paid to such beneficiaries for time commencing on the date they are made beneficiaries of such employees' system. No allowance shall be reduced by such change.

(7) If two or more districts under the control and management of a single governing board are participants in such plan, one contract between the board of administration and such governing board may include all such districts. The governing board may apportion the total contributions required under the contract, among the districts on the basis of total salaries upon which the contributions are computed, and on the basis of other pertinent information.

(8) The contract making such active employees members of the Public Employees' Retirement System shall provide that the service included in the calculation of the completed years of service as a basis for the portion of the basic death benefit provided in subdivision (b) of Section 21361 of the Government Code for persons who were members of such plan at transfer, shall not be limited to service under the Public Employees' Retirement System, but instead that service rendered as members of such plan shall also be included.

Sec. 9. Section 15714 of the Education Code is amended to read:

15714. For the purposes of Sections 21702, 21703, and 21707, 60 percent of any remaining payments which would become due from the district under any leases and agreements entered into by the district pursuant to this article (commencing at Section 15701), if such leases and agreements were to run their full term, shall be considered outstanding bonded indebtedness.

SEC. 10. Section 18456 of the Education Code is amended to read:

18456. If the total amount allowed from the State School Fund to all districts and county school service funds under Sections 18060, 18062, and subdivisions 1(a), 1(b), 1(d), 3(c), 3(d), 3(e), and 3(f) of Section 18102, inclusive, on account of average daily attendance during the fiscal year is more than the total amount provided by law for such purposes, the total amount allowed each such district and each such county school service fund from the State School Fund pursuant to said sections shall be reduced proportionately.

SEC. 11. Section 19258 of the Education Code is amended to read:

19258. Apportionments from the Urban School Construction Aid Fund created by Section 19278 shall be limited to urban districts and shall be made for the sole purpose of reconstructing or replacing existing substandard buildings constructed prior to 1943. Such apportionments shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board for the following purposes:

(1) The acquisition, by purchase or lease, and the installation and equipping portable classrooms for instructional purposes.

(2) The acquisition and development of school sites.

(3) The construction and equipping of permanent school buildings and facilities.

(4) The reconstruction, renovation, or remodeling of existing school buildings and facilities.

(5) Any combination of the above.

As a part of such purposes, where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance, provided that in other respects said apportionments are eligible for payment under provisions of this chapter.

A leasehold or use permit interest held by a school district in land owned in fee simple by the government of the United States may, for all purposes of this chapter, be deemed a purchase of land by the district and to vest title and ownership in the district.

SEC. 12. The heading of Chapter 6 (commencing with Section 23951) of Division 18 of the Education Code is repealed.

SEC. 13. A chapter heading is added to Division 18 of the Education Code, immediately preceding Section 24151, to read:

An academic or administrative employee may elect to continue in active service until the end of the college term or academic year during which he attains age 70. An academic employee who reaches the age of 70 years, if mentally and physically sound, may be employed from year to year without tenure, for the good of the service, at the discretion of the trustees. The payment of retirement allowances by either the State Teachers' Retirement System or the Public Employees' Retirement System, or both of said systems, to such a person employed from year to year shall be suspended during the period of such employment or reemployment and such suspension shall not serve to reinstate such a person to membership in either of said systems. If a person should die during such a period of suspension, said systems shall pay any death benefits that would have been payable had the death not occurred during such a period. A period of suspension shall end on the last day of the month during which such employment or reemployment is terminated. Said systems shall then resume the payment of the retirement allowance to such a person without change from what it was at the beginning of the latest period of suspension except for any change in the provisions governing the calculation of the allowance which was made during said period and made applicable to persons then retired.

Any person over the age of 70 years who otherwise has the qualifications of an academic or administrative employee and who is not retired under the State Teachers' Retirement System or the Public Employees' Retirement System, if mentally and physically sound, may be employed from year to year without tenure at the discretion of the trustees. Such employment shall not entitle him to become a member of nor serve to reinstate him as a member of either of said systems.

SEC. 15. Section 25450.4 of the Education Code is amended to read:

[Approved by Governor July 29, 1970 Filed with

The people of the State of California do enact as follows:

SECTION 1. Section 107.1 of the Revenue and Taxation Code is amended to read:

107.1. The full cash value of a possessory interest, when arising out of a lease of exempt property, is the excess, if any, of the value of the lease on the open market, as determined by the formula contained in the case of De Luz Homes, Inc. v. County of San Diego (1955), 45 Cal. 2d 546, over the present worth of the rentals under said lease for the unexpired term thereof.

A possessory interest taxable under the provisions of this section shall be assessed to the lessee on the same basis or percentage of valuation employed as to other tangible property on the same roll.

This section applies only to possessory interests created prior to the date on which the decision of the California Supreme Court in *De Luz Homes, Inc. v. County of San Diego* (1955), 45 Cal. 2d 546, became final. It does not, however, apply to any of such interests created prior to that date that thereafter have been, or may hereafter be, extended or renewed, irrespective of whether the renewal or extension is provided for in the instrument creating the interest.

This section does not apply to leasehold estates for the production of gas, petroleum and other hydrocarbon substances from beneath the surface of the earth, and other rights relating to such substances which constitute incorporeal hereditaments or profits a prendre.

SEC. 2. Section 165 of the Revenue and Taxation Code is repealed.

SEC. 3. Section 202.5 of the Revenue and Taxation Code is amended to read:

202.5. Personal property used exclusively in the performance of activities authorized by Division 18 (commencing with Section 23600) of the Education Code, whether by the college itself or by an auxiliary nonprofit corporation or student body organization with which the Director of Education has entered into a lease or contract for the performance of such activities, is deemed property used exclusively for public schools and shall be exempt from taxation.

It is hereby declared that this section is not a change in the present law but is a declaration of preexisting law.

SEC. 4. Section 215 of the Revenue and Taxation Code is amended to read:

215. All personal property owned by a veteran organization which has been chartered by the Congress of the United States, when the same are used solely and exclusively for the purposes of such organization, if not conducted for profit and no part of the net earnings of which inures to the benefit of any private individual or member thereof, shall be exempt from taxation.

SEC. 5. Section 469 of the Revenue and Taxation Code is amended to read:

469. In any case in which locally assessable business tangible personal property owned, claimed, possessed or controlled by a taxpayer engaged in a profession, trade, or business has a full cash value of fifty thousand dollars (\$50,000) or more, the assessor shall audit the books and records of such profession, trade, or business before October 6, 1971, and at least once each four years thereafter. If the board determines the value of property pursuant to Chapter 2 (commencing with Section 1815) of Part 3 of this division, such determination may be deemed an audit by the assessor for purposes of this section.

SEC. 6. Section 532 of the Revenue and Taxation Code is amended to read:

532. Any assessment to which the penalty provided for in Section 504 must be added shall be made within six years after

July 1 of the assessment year in which the property escaped taxation or was underassessed. Any other assessment made pursuant to Article 3 (commencing with Section 501) of this chapter, or pursuant to this article shall be made within four years after July 1 of the assessment year in which the property escaped taxation or was underassessed; provided, however, that with respect to property which escaped taxation for the fiscal years commencing on July 1, 1966, and ending on June 30, 1967, and commencing on July 1, 1967, and ending on June 30, 1968, such assessment shall be made on or before October 6, 1971.

Any assessment made pursuant to Article 3 (commencing with Section 501) of this chapter or made pursuant to this article shall not create or impose a lien or charge on such real property for such assessment or any penalty or interest if (1) such real property has been transferred or conveyed to a bona fide purchaser for value prior to the date of such assessment and the showing thereof on the secured roll with the date of entry specified thereon, or (2) such real property is subject to a lien of a bona fide encumbrance for value created and attaching prior to the date of such assessment and the showing thereof on the secured roll with the date of entry specified thereon. In such cases the assessor or tax collector may record with the county recorder of any county a certificate which shall set forth the name of the person who would have been the assessee in the year in which such real property escaped assessment and the amount or amounts of any such assessments and penalties. From the date of the recording of such certificate a lien shall be created and attach against any real property owned by such person in the county or counties in which any such certificate may have been recorded which lien shall have the force, effect and priority of a judgment lien.

The tax collector, with the approval of the board of supervisors, may at any time release all or any portion of real property subject to any lien created or attaching by the recording of such a certificate from such lien or subordinate such lien to other liens and encumbrances if he determines that the assessment or taxes are sufficiently secured by a lien on other property belonging to the person named in such a certificate or that the release or subordination will not endanger or jeopardize the collection of such assessment or taxes.

A written certification by the tax collector to the effect that real property subject to any lien imposed by the recording of the certificate as hereinbefore provided has been released from such lien or that such lien has been subordinated to other liens shall be conclusive evidence as to any bona fide purchaser, encumbrancer or lessee that such lien has been released or has been subordinated as set forth in such written certification. Such written certification may be recorded with the county recorder of any county.

SEC. 7. Section 603 of the Revenue and Taxation Code is repealed.

If the assessor does not send a notice pursuant to Section 619 or Section 621 to an assessee whose property was not on the prior year's secured roll, or to an assessee of real property on the local secured roll whose property's full cash value has increased, then such assessee may pay taxes under protest. If payments are made in installments, the protest need not be repeated with the second installment. Protests shall be made by filing with the tax collector, together with the payment of the taxes or their first installment, a petition for assessment reduction on the form prescribed by the county board, which form the collector is to forward to the clerk of the county board with the notation that taxes were paid under protest pursuant to this section. The county board may, after receipt of the petition for assessment reduction from the tax collector, hold a public hearing at the next regular board meeting, notice of time and place of which shall be sent to the person paying the tax under protest at the address stated in the protest or if no such address is stated, then to the address of the assessee according to the last equalized assessment roll. If the taxes are so paid and the assessee has not previously applied for a reduction of the assessment, the county board at its next annual meeting as an equalization board shall thereupon equalize such assessment in the manner prescribed by Article 1 (commencing with Section 1601) of Chapter 1 of Part 3 of this division.

The tax rate fixed for property on the roll on which the property so equalized appears at the time of its original assessment shall be applied to the amount of the equalized assessment, determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer shall be liable for tax only for the lesser amount, and the difference shall be canceled. If the taxpayer has already paid the tax previously computed, such difference shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

If any taxes are paid under protest pursuant to this section, the taxing agency to which the taxes are paid may, in accordance with Section 26906.1 of the Government Code, impound such taxes until the final disposition of the claim or action respecting the protest. No such impounding is required.

If the assessment objected to is one made outside the regular period for such assessments, the application for review shall be filed with the board within two weeks from the date the tax bill is mailed to the assessee.

Every application shall show the facts claimed to require action of the board, and a copy thereof shall be filed with the assessor whose assessment is questioned. Upon receipt of a timely application the board shall afford the applicant notice and a hearing in accordance with such rules and regulations as the board may prescribe.

SEC. 14. Section 2192.3 of the Revenue and Taxation Code is amended and renumbered to read:

SECTION 1. Section 7382 is added to the Revenue and Taxation Code, to read:

7382. If a person certifies in writing to an aircraft jet fuel dealer that the sale or use of aircraft jet fuel purchased by him is not subject to the tax imposed by Section 7380 and the person uses the fuel as an aircraft jet fuel user, the person shall be liable for payment of the tax imposed by Section 7380

as if he were an aircraft jet fuel dealer making taxable sales of aircraft jet fuel at the time of such use and the number of gallons of fuel so used shall be deemed the number of gallons sold by him.

SEC. 2. Section 8732 of the Revenue and Taxation Code is amended to read:

8732. A vendor of fuel the use of which is taxable under this part, who sells and delivers such fuel into a fuel tank shall, at the time of sale, collect the tax from the user and give to the user a receipt therefor in the manner and form prescribed by the board.

Vendors of fuel required by this section to collect tax from users shall not be required to make such collections on sales and deliveries to users who are authorized by the board, as hereinafter provided, to purchase fuel without payment of tax to a vendor.

The board may issue written authorization to a holder of a valid use fuel permit to purchase fuel from a vendor designated by the user without payment of the tax to the vendor when the board finds (1) that the user consistently is using the fuel in vehicles which are operated partly without this state or off the highways of this state, or the user qualifies for the exemption provided in Section 8655, and (2) that to require collection of the tax from the user by the vendor would cause consistently recurring overpayments of the tax, and (3) that the revenue of the state with respect to the tax liability of such user is adequately secured. Such authorization may be revoked when any such condition no longer obtains.

SEC. 3. Section 9603.3 of the Revenue and Taxation Code is amended to read:

9603.3. "Operator" does not include any of the following:

(a) Any person transporting his own property in a motor vehicle owned or operated by him unless he makes a specific charge for the transportation. This subdivision does not in any way limit any other exemption granted by this section.

(b) Any farmer, resident of this state, who occasionally transports property for other farmers, or who transports his own farm products, or who transports laborers to and from farmwork incidentally in his farming operations.

(c) Any nonprofit agricultural cooperative association, organized and acting within the scope of its powers under Chapter 1 (commencing with Section 54001) of Division 20 of the Agricultural Code, to the extent only that it is engaged in the transporting of its own property or the property of its members.

(d) Any person whose sole transportation of persons or property for hire or compensation consists of the transportation of children to or from any public or nonprofit private school and whose total compensation from all sources for pro-

viding such transportation does not exceed one hundred dollars (\$100) in any calendar month.

(e) Any person engaged in the business of operating a hearse or other vehicle in a procession to a burial ground or place of interment and from the burial ground or place of interment to a garage or place of storage.

(f) Any registered owner of a pleasure vehicle who, while operating the vehicle, transports persons to his work or to a place through which he passes on the way to his work, whether for or without compensation, if he is not in the business of furnishing such transportation.

(g) Any person engaged in the business of collecting and disposing of garbage, rubbish or waste, and who transports any such matter in a motor vehicle owned or operated by him, unless he makes a separate or specific charge for transportation. It is hereby declared that any such business is one substantially affecting the public health and welfare.

CHAPTER 1.5. TEACHER PREPARATION AND
LICENSING LAW OF 1970

Article 1. General Provisions and Definitions

13101. This chapter shall be known and may be cited as the "Teacher Preparation and Licensing Law of 1970."

13102. The Legislature, recognizing the need for excellence in education and the variety and vitality of California's many educational resources, intends to set broad minimum standards and guidelines for teacher preparation and licensing to encourage both high standards and diversity. The Legislature

intends that within the framework of state control school districts and teacher preparation institutions will develop programs which realistically meet the needs and resources of pupils, teacher candidates, school districts, and teacher preparation institutions.

The Legislature finds that highly complex, detailed, and prescriptive regulations governing the preparation and licensing of teachers and administrators frustrate imagination, innovation, and responsiveness. In addition, the Legislature finds that the diversity of functions served by modern education require licensing regulations which are flexible, realistic, responsive, and simple.

13103. As used in this chapter:

(a) "Commission" means the Commission for Teacher Preparation and Licensing.

(b) "Approved institution" means any institution approved by the commission.

(c) "Subject matter examination" means any objective examination approved by the commission as an instrument to measure subject matter knowledge. Successful passage of a subject matter examination or its waiver shall be mandatory for any intern or any applicant for a teaching credential.

(d) "Professional preparation" means either (1) at least any nine semester units of professional education courses and one semester of approved full-time student teaching or its equivalent under the supervision of an approved college or university, or (2) an approved internship program of at least one year.

(e) "Fifth year" means a full academic year, or its equivalent, at the postgraduate level taken at an approved college or university. Institutions of higher education and public schools may be authorized to attest to a teacher's completion of this requirement. Not more than one-half of the fifth year may be in professional education or in "in-service training" as defined in subdivision (f), except that such requirement may be waived by the commission if the credential applicant has taken for credit no more than nine units of professional educational courses and student teaching prior to receipt of his baccalaureate degree.

(f) "In-service training" means any program of teacher education or preparation offered jointly by a school district and an approved college or university for the purposes of improving or upgrading a teacher's skills, knowledge, or instructional methods which is offered for credit and is approved by the commission.

(g) "Authorization" means the designation appearing on the teaching or service credential identifying the areas of instruction or service which the credential holder is permitted to perform.

Article 2. Commission for Teacher Preparation and Licensing

13104. There is hereby established in the state government the Commission for Teacher Preparation and Licensing, to consist of members appointed by the Governor with the advice and consent of the Senate. The commission shall consist of six persons employed as certified personnel in public elementary and secondary schools in California, at least four of whom shall be full-time classroom teachers, and one of whom shall hold a services credential; four faculty members of accredited public or private colleges or universities in California, at least three of whom shall be engaged in full-time teaching, and no more than one of whom shall represent any one discipline; two school board members; and three private citizens.

With the exception of the three private citizens, the appointment of a member shall terminate if he is no longer a certified employee in a public elementary or secondary school, or a faculty member of an accredited public or private college or university, or a school district governing board member, as may be the case, in California.

Not more than one member of the commission is to be appointed from the same school district or college or university campus.

13104.5. Representatives of statewide organizations may submit for the Governor's consideration the names of distinguished individuals to serve on the commission.

13105. The Superintendent of Public Instruction, the Regents of the University of California, the Board of Trustees of the California State Colleges, the Board of Governors of the California Community Colleges, and the Coordinating Council on Higher Education shall each appoint a representative to serve as member *ex officio* without vote.

13106. Of the 15 members appointed by the Governor who are first appointed, three shall be appointed for terms of one year, four shall be appointed for terms of two years, four shall be appointed for terms of three years, and four shall be appointed for terms of four years. Upon the expiration of the term of office of an appointive member of the commission, his successor shall be appointed for a term of four years. No person shall be appointed by the Governor to serve more than two full terms. Prior service on the commission for a term of less than three years resulting from an initial appointment or an appointment for the remainder of an unexpired term shall not be counted as a full term.

13107. If a member is absent from any four regularly scheduled meetings in any calendar year, his office as a member of the commission shall be deemed vacant. The chairman of the commission shall forthwith notify the Governor that such vacancy exists.

13108. The members of the commission shall serve without compensation, but shall be reimbursed for their actual and necessary travel expenses incurred in the performance of their duties.

13109. Whenever an employee of any public school district, state college, or other public agency is appointed to membership on the commission, his employer shall grant him sufficient time away from his regular duties, without loss of income or other benefits to which he is entitled by reason of his employment, to attend meetings of the commission and to attend to the duties imposed upon him by reason of his membership on the commission. The employer of any such member may make available such stenographic, secretarial, and staff assistance as is reasonably necessary to enable him to execute the duties imposed upon him by reason of his membership on the commission.

13109.1. The compensation of the members of the commission who are public employees shall not be reduced by the agency or body by which they are regularly employed for any absence from service occasioned by attendance upon the business of the commission, its committees or subcommittees.

Each school district which employs a member of the commission and which is required to employ a person to replace such member during his attendance at meetings of the commission or any committee or subcommittee thereof, shall be reimbursed from the Teacher Credentials Fund for the cost incurred by employing a replacement.

13110. The commission by majority vote of all its members shall elect its own chairman from among its members.

13111. The commission shall meet each month except that the chairman, with the approval of the commission, may omit meetings in July and August and the chairman may call additional meetings at other times.

13112. The commission shall appoint an executive secretary, who shall be exempt from the provisions of the State Civil Service Act, and may in its discretion remove him by a majority vote of all its members. He shall be the secretary to the commission and its chief executive officer. He shall receive such salary as the commission may determine, and, subject to appropriation, such other perquisites as the commission may determine.

13113. The commission may employ such personnel as may be necessary to carry out its duties and responsibilities. The staff of the commission shall be subject to the relevant system and procedures of the state civil service. The provisions of the State Civil Service Act contained in Part 2 (commencing with Section 18500) of Division 5 of Title 2 of the Government Code shall apply to such personnel.

All such persons, other than temporary employees, serving in the state civil service and engaged in the performance of a function transferred to the Commission for Teacher Preparation and Licensing or engaged in the administration of a law,

the administration of which is transferred to the commission, shall remain in the state civil service and may request transfer to the commission or remain with the Department of Education on the effective date of this section. The status, position, and rights of any such person shall not be affected by his transfer and shall continue to be retained by him pursuant to the State Civil Service Act, except as to positions the duties of which are vested in a position that is exempt from civil service.

13113.1. The Department of Education shall assist the commission in any manner the commission may request in implementing this chapter; provided that the department shall be reimbursed from the Teacher Credentials Fund for any expenses incurred in assisting the commission or the Committee of Credentials.

13114. The duties of the commission shall be to implement this chapter, to establish and promulgate standards and procedures for certifying educational personnel as qualified for a license to practice in the public schools of California, and to support, facilitate, and delineate functions and programs of preparation for the teaching profession.

The commission, consistent with the terms and provisions of this article, shall have the following powers and duties:

(a) To develop standards and procedures for the certification of educational personnel.

(b) To promulgate appropriate rules and regulations.

(c) To issue credentials upon certification to the State Board of Education.

(d) To provide leadership and to coordinate resources for the improvement of teacher education.

(e) To establish advisory committees consisting of representatives from various elements of the teaching profession related to each subject specialization which will help formulate performance standards for general teaching and other educational specialties.

(f) To develop and recommend to the Legislature for its approval alternative ways in which to demonstrate qualifications for licensing which are adapted to individual differences in candidates, preparing institutions, and performance requirements, while at the same time protecting against incompetence.

(g) To develop objective, independently verifiable standards of measurement and evaluation of teaching competence as it relates to teacher licensing.

(h) To develop new or employ existing objective examinations as a measure of subject matter knowledge for the purpose of certifying educational personnel.

(i) To develop objective standards for the identification of specialist teachers.

(j) To monitor and evaluate the results of its action as it relates to the performance of teachers licensed under this article.

(k) To develop and recommend to the Legislature for its consideration, any necessary or desirable legislation to require the continuing education of certified personnel and the issuance of life credentials.

13115. It is the intent of the Legislature that the commission develop rules and regulations of uniform and general applicability and not engage in the prescription of courses and prescriptive unit counting. It is the intention of the Legislature that the commission consider for approval for credential purposes accredited baccalaureate degree granting institutions, programs of professional education and clinical experience, and general standards for the fifth year of preparation as defined in subdivision (e) of Section 13103.

13116. The commission may approve any institution of higher education whose teacher education program meets the standards prescribed by the commission, to recommend to the commission the issuance of credentials to persons who have successfully completed such programs.

13116.1. To assist in approving teacher education programs, the commission may appoint panels of educators, including public school classroom teachers, to serve as members of visiting teams to institutions and school districts having such programs. The provisions of Sections 13108, 13109, and 13109.1 shall be applicable to such panels of educators.

13116.2. The commission shall invite the public, the teaching profession, and interested professional groups and associations to appear before it and submit proposals for commission consideration and action.

13117. The commission shall regularly transmit a report of its findings, and regulations to the State Board of Education. It is the intention of the Legislature that the commission follow policies consistent with the board's general educational objectives for the state, and the commission shall be responsible for the detailed development and implementation of preparation and licensing regulations, subject to conformity with this article.

13117.1. Unless otherwise specified, the meetings of the commission shall be open and public and due notice of their time and place shall be posted.

13117.2. The commission shall recommend to the State Board of Education for adoption amendments, deletions, and additions to those sections of Title 5 of the California Administrative Code dealing with the preparation and licensing requirements of California educational personnel for the implementation of this chapter. Notwithstanding any other provision of law to the contrary, any and all rules, regulations, and determinations of the commission shall be subject to review and approval by the State Board of Education. Any and all such rules, regulations, and determinations shall take effect within 60 days of submission, or 75 days if submitted less than 10 days before the next regularly scheduled board meeting, unless stayed by action of the State Board of Education.

13117.3. The commission shall continuously accumulate data about the number and kind of applicants for the various credentials, the issuance, denial, and revocation of the various credentials, patterns of application, issuance and nonissuance, and any other information deemed necessary and appropriate by the commission, the board, or the Legislature. Such data shall regularly be analyzed and evaluated and submitted to the State Board of Education for transmission to the Legislature in the form of an annual report not later than the fifth legislative day of each regular session of the Legislature.

13117.5. There is in the State Treasury the Teacher Credentials Fund. All fees levied and collected by the commission shall be deposited in the Teacher Credentials Fund, and are hereby continuously appropriated to support the activities and functions of the commission.

It is the intent of the Legislature that fees levied for the issuance of teachers' credentials shall be sufficient to offset the cost of all activities of the Commission for Teacher Preparation and Licensing, including the Committee of Credentials and any services provided by the Department of Education.

13118. Fees shall be levied by the commission for the issuance and renewal of teaching and related credentials. The fees shall be set by the commission in such a manner that revenues sufficient to support all activities and functions, including continuing research and evaluation activities, shall be produced. In no case shall a fee exceed twenty dollars (\$20) without express legislative approval.

13119. Any fee or excess amount of fee paid under Section 13118 may be refunded by the commission from the Teacher Credentials Fund when the applicant does not qualify for a credential or when such fee or excess is paid in error, and the amount of any such refund is hereby appropriated for the making of such refund.

13119.1. The commission shall hold public hearings to receive testimony on the examination system established by this chapter, shall study the effects of such an examination system, and shall report its findings, conclusions, and recommendations to the Legislature by the 10th day of the 1972 Regular Session of the Legislature.

Article 3. Committee of Credentials

13120. The commission shall appoint a Committee of Credentials, consisting of seven persons for terms of two years. The committee shall include:

(a) Two members who shall be full-time certified classroom teachers in the public elementary schools, each with not less than 10 years' classroom experience.

13120.1. Sections 13108, 13109, 13109.1, 13110, 13112, and 13113 are applicable to the Committee of Credentials.

13120.2. The Committee of Credentials shall be under the direct supervision of the commission.

13120.3. The commission may assign to the Committee of Credentials such administrative duties as it may see fit relating to the granting, issuance, suspension, and revocation of credentials and life diplomas, and it shall supervise the work of the committee and shall provide statements of policy relative to committee operation and procedures as it deems appropriate to do so.

13121. At least 30 days prior to any Committee of Credentials meeting or hearing at which the application or credential of a certified employee is to be considered, the committee shall notify the certified employee of the specific allegations of misconduct for which the application or credential may be denied, suspended, or revoked in ordinary and concise language setting forth the acts or omissions charged and the statutes or rules violated. Supplemental allegations of misconduct shall be sent to the certified employee 30 days prior to such meeting or hearing. The portions of the investigation of the original or supplemental allegations which constitute the basis for such allegations shall be open to inspection by such employee. The statement of the allegations shall inform such employee that such allegations, if they are true, are sufficient to cause his application or credential to be denied, suspended, or revoked.

The committee shall order the investigation of allegations of misconduct to be discontinued if a meeting or hearing on such allegations is not commenced within one year of the date of notification of the original allegations to such employee. An extension for one six-month period may be made by the chairman of the commission upon the submission to the committee of a statement of the cause or causes for such extension.

The decision of the committee shall be in writing and a copy of such decision shall be delivered to the certified employee personally or sent to him by registered mail within 30 days after the meeting or hearing together with specific information relative to any administrative hearing to which such employee is entitled.

13121.1. All meetings and hearings of the commission and Committee of Credentials to consider the suspension or revocation of credentials shall be executive and closed sessions with only commission members, committee members, staff members, the certified employee whose application or credential is in

issue, the counsel of such employee, and any material witnesses in attendance.

13121.2. When a hearing is held to deny, suspend, or revoke a credential, the proceeding shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commission shall have all the powers granted therein.

13122. Any applicant for the renewal certification document who is denied a renewal by the Committee of Credentials may request a reevaluation of his application by the commission.

13123. Any member of the commission, commission staff member, member or staff member of the Committee of Credentials, or Department of Education employee who releases or gives out information received at a commission or committee meeting or hearing or through the investigation of a certified employee without authorization of the commission or committee is guilty of a misdemeanor.

Article 4. Credential Types, Authorizations, and Requirements

13125. The commission shall issue only the following two types of credentials, with authorizations as hereinafter defined:

- (a) A teaching credential.
- (b) A services credential.

13125.1. The period for which a credential, as authorized under Section 13125, is valid shall be as follows:

- (a) For an internship credential: two years.
- (b) For a preliminary credential, pending completion of the fifth year of study: seven years.
- (c) For a life credential: the life of the holder.
- (d) For an emergency credential: one year or as the commission may determine.

13125.2. The commission shall establish standards and procedures for the initial issuance and renewal of credentials.

13125.3. The commission may issue an internship or a preliminary credential to an applicant, pending completion of any examination requirement by the applicant within the time limit, not to exceed one year, set by the commission.

13126. Emergency credentials may be issued in accordance with regulations adopted by the commission.

The terms, reasons, and justification for the issuance of such credentials shall be regularly reported to the Legislature, as well as their number, kind, and other pertinent information. Emergency credentials shall only be authorized when insufficient certified teachers are available.

An emergency credential may not be issued unless the holder has completed at least 90 semester units of college work.

With the exception of this chapter, any reference in any law or regulation to a "provisional credential" shall be deemed to mean an "emergency credential."

13127.1. No life credential shall be issued until all requirements for the credential have been met and the candidate has taught for two years in California public schools.

13128. Authorization for teaching credentials shall be of four basic kinds, as defined below:

(a) "Single subject instruction" means the practice of assignment of teachers and students to specified subject matter courses, as is commonly practiced in California high schools and most California junior high schools.

(b) "Multiple subject instruction" means the practice of assignment of teachers and students for multiple subject matter instruction, as is commonly practiced in California elementary schools and as is commonly practiced in early childhood education.

(c) "Specialist instruction" means any specialty requiring advanced preparation or special competence including but not limited to, reading specialist, mathematics specialist, specialist in special education, or early childhood education, and such other specialties as the commission may determine.

(d) "Designated subjects" means the practice of assignment of teachers and students to designated technical, trade, or vocational courses which courses may be part of a program of trade, technical, or vocational education.

13128.1. Governing boards may determine the authorization of a teaching assignment as defined in Section 13128. The commission may prepare appropriate forms and data collection instruments to monitor the implementation of this section, to routinely audit, sample, or otherwise verify conformity in assignment practices within the provisions of this chapter.

13129. A teacher who is authorized for single subject instruction may be assigned, with his consent, to teach any subject in his authorized fields at any grade level; preschool; kindergarten and grades 1 to 12, inclusive; or in classes organized primarily for adults, and similarly, a teacher authorized for multiple subject instruction may be assigned, with his consent, to teach in any self-contained classroom; preschool; kindergarten and grades 1 to 12, inclusive; or in classes organized primarily for adults; and similarly, a teacher authorized as a specialist teacher may be assigned, with his consent, to teach in his area of specialization at any grade level; preschool; kindergarten and grades 1 to 12, inclusive; or in classes organized primarily for adults.

13130. The minimum requirements for the teaching credential, except designated subjects, are:

(a) A baccalaureate degree or higher degree, except in professional education, from an approved institution.

(b) A fifth year of study to be completed within seven years of the first employment of the certified employee.

(c) An approved program of professional preparation.

(d) Passage of a subject matter examination or its waiver as specified in this chapter.

(e) Demonstration of a knowledge of the various methods of teaching reading, to a level deemed adequate by the commission, by successful completion of a program of study approved by the commission or passage of a commission-approved reading examination.

13132. The minimum requirements for the designated subjects teaching credential shall be successful passage of an approved designated subjects examination which shall be selected and interpreted by the commission, and either

(a) Adequate, successful, and recent experience in the technical skill, trade or vocation named on the credential with a minimum of five years experience; a program of personalized in-service training to provide professional preparation as approved by the commission; and possession of a high school diploma or the passage of an equivalency examination as designated by the commission; or

(b) Possession of a valid teaching credential.

This credential shall authorize the holder to teach in such subject or trade at such grade level approved by the commission and designated on the credential.

13133. Upon the recommendation of the governing board of a school district, the commission may issue an eminence credential to any person who has achieved eminence in a field of endeavor commonly taught or service practiced in the public schools of California. This credential shall authorize teaching or the performance of services in the public schools in the subject or subject area or service and at the level or levels approved by the commission as designated on the credential.

Each credential so issued shall be issued for a one-year period and may be renewed for one-year periods by the commission upon the request of the governing board of the school district. Upon three renewals the holder of an eminence credential shall be eligible for a life credential, which may be issued by the commission.

13134. With the approval of the commission, until June 30, 1975, a teacher licensed pursuant to the provisions of this article may be assigned, with his consent, to teach any single subject class in which he has 18 semester hours of coursework or nine semester hours of upper division or graduate coursework or a multiple subject class if he holds at least 60 semester hours equally distributed among the four areas of a diversified major set forth in Section 13157.4. A three-semester-unit variance in any of the required four areas may be allowed. The governing board of the school district by resolution shall provide specific authorization for such assignment. The authorization of the governing board shall remain valid for one year and may be renewed annually.

The governing board shall first submit a request for such authorization to the commission for its review and approval.

Appropriate forms for such requests shall be developed by the commission.

13135. The minimum requirements for specialist instruction credentials are:

- (a) A valid teaching credential; and
- (b) Such specialized and professional preparation as the commission may require and is required by other provisions of this code.

In adopting the necessary rules and regulations, the commission shall emphasize appropriate professional specialized preparation at both the undergraduate and postgraduate level; and supervised participation or student teaching, or equivalent experience in the public schools or institutions; or private schools or institutions of equivalent status.

Specialist instruction includes, but is not limited to, those specialties requiring advanced preparation or special competence, as enumerated:

- (a) Early childhood education,
- (b) Reading specialist,
- (c) Mathematics specialist, and
- (d) Specialists in special education, which may include teachers of the mentally retarded, educationally handicapped, physically retarded, and specialists in the teaching of pupils with speech and hearing disorders.

Preparation programs which result in concurrent issuance of a specialist credential and a teaching credential may be approved by the commission.

13136. The minimum requirements for the services credential with a specialization in pupil personnel services are either both (a) and (b), or (c):

(a) A baccalaureate degree or higher degree, except in professional education, from an approved institution; a fifth year of study to be completed within seven years of the first employment of the certified employee; and such specialized and professional preparation as the commission may require, including completion of a commission-approved program of supervised field experience which includes direct classroom contact, jointly sponsored by a school district and a college or university.

(b) Passage of an examination selected and interpreted by the commission, or its approved waiver, as set forth in Sections 13150 and 13158.

(c) Possession of a valid license, certificate, or registration, appropriate to the service to be rendered issued by the California agency authorized by law to license, certificate, or register persons to practice that service in California.

Preparation programs that result in concurrent issuance of a services credential with a specialization in pupil personnel services and a teaching credential may be approved by the commission.

The services credential with a specialization in pupil personnel services shall authorize the holder to perform, at all grade levels, the pupil personnel service approved by the commission as designated on the credential, which may include, but need not be limited to, counseling, psychological, child welfare and attendance services, and school social work.

13138. The requirement for the services credential with a specialization in health is possession of a valid license, certificate or registration, appropriate to the health service to be designated, issued by the California agency authorized by law to license, certificate, or register persons to practice that health service in California.

The services credential with a specialization in health shall authorize the holder to perform, at all grade levels, the health service approved by the commission as designated on the credential. Services as an audiometrist, occupational therapist, or physical therapist are not deemed health services within the meaning of this section.

The services credential with a specialization in health authorizing service as a school nurse shall not authorize teaching services unless the individual holds a baccalaureate degree, or its equivalent, and has completed a fifth year of preparation.

13140. The commission may issue a services credential authorizing service as a librarian upon completion of specialized preparation as required by the commission.

The standards for such credentials are a baccalaureate degree or higher degree from an institution approved by the commission, a valid teaching credential, a fifth year or its equivalent in college or university education to be completed within seven years of the first employment under this credential, and such specialized and professional preparation as the commission may require.

13141. The minimum requirements for the services credential with a specialization in administrative services are all of the following:

(a) The possession of a valid teaching credential as specified in Section 13130.

(b) A minimum of three years of successful, full-time classroom teaching experience in the public schools, or in private schools of equivalent status.

(c) The passage of an examination selected and interpreted by the commission or its approved waiver as set forth in Sections 13150 and 13158.

The services credential with a specialization in administrative services shall authorize the holder to serve as a superintendent, associate superintendent, deputy superintendent, principal, assistant principal, supervisor, consultant, coordinator, or in an equivalent or intermediate level administration position.

13142. A local governing board may waive any credential requirement for the chief administrative officer of the school district under its jurisdiction. Any individual serving as the

chief administrative officer of a school district who does not hold a credential may be required by the local governing board to pursue a program of in-service training conducted pursuant to guidelines approved by the commission.

No individual serving as the chief administrative officer of a school district shall be subject to the provisions of the merit system specified in Article 5 (commencing with Section 13701) of Chapter 3 of this division or any other similar merit system.

13143. The designated subjects teaching credential with a specialization in vocational trade and technical teaching shall authorize the holder, who also meets the requirements for administrative service, to supervise and administer programs of trade and technical education in school districts or in schools where the curricula are predominately trade, technical, or industrial in nature.

13144. The commission may issue limited services credentials authorizing administrative service in schools which are not part of the public school system but which are administered by other state agencies.

13144.1. Notwithstanding any other provisions of this code, any credential described in Section 13125 shall be issued to an applicant under the following circumstances:

(a) The commission has accepted, upon application of an approved institution supported by detailed data and justification, a program developed and offered by that institution as an experimental, exploratory, or pilot program of preparation for such a credential. The commission shall accept only those programs which it finds, by resolution entered in its minutes, to have merit and the potential of improving the quality of service authorized by the credential.

(b) The applicant has completed such a program following the date of its acceptance by the commission.

(c) The applicant holds upon completion of the credential program a baccalaureate or higher degree from an approved institution.

(d) The applicant meets all of the requirements of this chapter and the regulations of the commission adopted pursuant thereto, respecting age, character, citizenship, health, identification, oath or affirmation, and study of or examination in the Constitution of the United States.

Article 5. Subject Matter Examinations

13145. The adequacy of subject matter preparation and the basis for assignment of certified personnel shall be determined by the successful passage of a subject matter examination as certified by the commission, except as specifically waived as set forth in Article 6 (commencing with Section 13157) of this chapter.

13146. The commission shall select, administer, and interpret subject matter examinations, which shall be a prerequisite for assignment to assure minimum levels of subject matter

knowledge by all certified personnel regardless of the pattern and place of preparation.

13147. Subject matter examinations authorizing single subject instruction shall be required for all subjects taught in California public schools, such subjects to be subsumed, as directed by the commission, under the following categories as: English, physical and natural science, mathematics, social science, industrial arts, physical education, business, music, art, home economics, and languages, including, but not limited to, French, Spanish, Russian, German, and Chinese.

A general subject matter examination authorizing teaching multiple subjects shall include an examination of the candidate's knowledge of the following areas: English, social science, fine arts, general science, and mathematics.

13148. The adequacy and relevancy of the categories established under Section 13147 shall be regularly assessed and reported to the Legislature and necessary and appropriate changes in legislation may be requested by the commission from time to time.

13149. Examinations authorizing advanced or specialist teaching service may be authorized by the commission. Such examinations shall conform to the guidelines established by this chapter.

13149.5. The reading requirement as set forth in Section 13130 may be satisfied by the completion of a commission-approved program of study, not to exceed four semester units or its equivalent, or passage of a commission-approved reading examination.

13150. The general subject matter examination defined in Section 13147 is the required examination for the services credential with a specialization in administrative services as set forth in Section 13141, and the services credential with a specialization in pupil personnel services as set forth in Section 13136, except that the examination requirement may be waived for holders of diversified degrees as set forth in Sections 13157.4 and 13158.

13151. The commission shall create subject matter advisory panels to advise in the selection, administration, and interpretation of examinations. The subject matter advisory panels shall consist of recognized leaders in the subject matter fields to be examined and shall be composed primarily of full-time public school classroom teachers, and full-time college or university classroom teachers.

Experts and authorities in the field of examination design, interpretation, and analysis may be included in the subject matter panels or may be separately employed by the commission.

Members of the examination panels shall serve without compensation, but may be reimbursed for actual and necessary expenses.

The approved examinations shall provide for flexibility and variety in patterns of subject matter preparation.

13152. The commission shall set passing scores with the objective of assuring an adequate level of subject matter preparation.

The examination shall report at least relative and absolute scores to facilitate comparison and interpretation, if practicable.

The individual candidate's score on any examination shall be a matter of record, but shall not be posted on the front of the credential or be made available to the public; the teaching or other credential shall identify by name those examinations successfully passed.

Nothing in this section shall be construed to prohibit research, evaluation, analysis, or interpretation of test scores so long as individual confidentiality is maintained.

13153. The commission, before the adoption of any examination, shall provide an opportunity to the public and teaching profession to present their viewpoints with respect thereto in open hearings.

13153.1. The approved examinations shall be instruments whose purpose is to measure achievement and shall be used solely to measure objective knowledge of subject matter.

13153.2. Insofar as is reasonable and practicable, the commission shall adopt examinations which are nationally administered on a regular basis.

13154. In selecting subject matter examinations, the commission shall consider the importance of timely and expeditious processing and the desirability and convenience of machine scoring.

13156. The commission may approve more than one examination with passing scores appropriate to each examination for any of the categories to be examined as required by this chapter.

13156.1. In the selection, adoption and interpretation of examinations, the commission shall analyze and account for any cultural, class, or social bias which may arbitrarily and unfairly work to the disadvantage of any group of examinees, and shall assess and report upon the extent to which, if any, the passing score may adversely affect any group of prospective or actual examinees due to social, cultural, or ethnic factors.

13156.2. The commission may collect various data, including the ethnic background of examinees, age, sex, the college or university attended, degrees held, teaching experience, and other factors which may pertain in the judgment of the commission, to examination performance.

13156.3. No limit may be placed on the number of times an examinee may take the approved examinations.

13156.4. Fees charged for the examinations shall be sufficient to furnish the full cost of the examination system, except as these funds may be augmented from designated appropriations by the Legislature from the Teacher Credentials Fund.

Article 6. Subject Matter Examination Waivers

13157. The commission shall waive the subject matter examination requirement for graduates of accredited public and private institutions of higher education who hold specified subject matter degrees.

Eligibility for an examination waiver can only be achieved when the subject matter of the degree is the same as one of the subject matter examination categories specified by the commission, and the degree has been conferred by an approved institution of higher learning.

The commission may require that the approved examination be taken by candidates, who are otherwise eligible for an examination waiver, for informational purposes only.

13157.1. The commission shall evaluate any subject matter degree offered in satisfaction of subdivision (d) of Section 13130 to determine if it is substantially the same as one of the subject matter categories covered by the examinations.

13157.2. A finding by the commission of the inadequacy or inappropriateness of such degree as the basis for waiving the subject matter examination shall cause the holders of such subject matter degree from such ineligible institutions to be ineligible for the examination waiver.

13157.3. The subject matter examination authorizing multiple subject classroom instruction may be waived for holders of approved "diversified" or "liberal arts" degrees, or their equivalent, conferred by accredited institutions of higher education approved by the commission.

Notwithstanding the designation of the degree conferred, the commission shall approve the degree granted by such institution and shall not engage in the detailed analysis of the applicant's transcripts for purposes of issuing the credential. The commission, however, may provide for the selected analysis of transcripts to determine whether the degrees granted by such institutions conform with the requirements of the commission.

13157.4. A "diversified" or "liberal arts" degree is any degree, or program included within a degree, conferred by an institution approved by the commission. It shall consist of 84 semester hours, or equivalent quarter units, equally distributed among the following four areas:

1. English, including grammar, literature, composition, and speech.
2. Mathematics and the physical or life sciences.
3. Social sciences, other than education and education methodology.
4. Humanities and the fine arts, including foreign languages.

In implementing the provisions of this section, the commission may provide for a three-semester-unit variance in any of the four areas required.

13157.5. Notwithstanding any provisions of law or administrative regulations, a California state college may approve a

"diversified" or a "liberal arts" degree, provided that all coursework used to meet such requirements is provided in the several academic schools or departments, other than the school or department of education or educational methodology, of the institution.

13158. The general subject matter knowledge examination defined in Section 13147 as required for the services credential with a specialization in administrative services and the services credential with a specialization in pupil personnel services may be waived by applicants who meet the "diversified" degree requirements as provided in Section 13157.4.

Article 7. Professional Preparation

13160. Professional preparation, including student teaching, shall be made available in the upper division course offerings at all California public institutions of higher learning. No more than nine semester units or equivalent units of professional education courses may be designated prerequisites for purposes of admission to student teaching, except that in the case of candidates who elect to satisfy the reading requirement as set forth in subdivision (e) of Section 13130 by an approved program of study rather than by an approved examination may be required to take 12 semester units, or the equivalent, as prerequisites to student teaching.

The commission, upon the request of an approved teacher preparation institution, may issue a document at no cost to the applicant or institution authorizing student teaching by the applicant.

13160.1. Student internship programs shall be joint projects of school districts and teacher preparation institutions, and such internship programs shall be submitted to the commission for approval. Approved internship programs shall be subject to periodic review by the commission.

Upon completion of an approved internship program, with district and teacher preparation institution certification, the commission shall approve the teacher intern.

13161. Notwithstanding any other provision of this code, the professional preparation requirements for a teaching credential may be met by certification by the Director of the Peace Corps of the United States that the applicant has satisfactorily completed not less than 18 months in a Peace Corps assignment in a foreign country, during which time 50 percent or more of his duties consisted of classroom teaching of resident children of the foreign country.

An applicant meeting the requirements of this section shall not be required to complete any education or methodology courses or meet any other requirement relating to professional preparation as set forth in subdivision (c) of Section 13130.

13162. Nothing in this chapter shall be construed as preventing school districts from hiring, employing, or otherwise using teacher aides, instructional aides, or teacher assistants

under the terms of existing law and financial support formulas. The commission may study the various roles of such para-professionals and routinely report its findings.

Public and private colleges, universities, and community colleges may develop cooperative programs with school districts or school governing boards to place undergraduate and graduate students in public and private classrooms as teacher aides or assistants. Such assignment may be, at the discretion of the institution, the basis for securing college credit.

Article 8. Certificates and Credentials

13163. Each county or city and county board of education may provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications as an employee of the county superintendent of schools of such county or city and county or of a school district under the jurisdiction of such county superintendent of schools. Such registration shall authorize the service of the holder as an employee of the county superintendent of schools or of any school district under his jurisdiction in the capacity in which and for the period of time for which the certification or other document is valid.

13163.1. County boards of education may renew any certificate legally issued by them prior to October 1, 1945, and now in force; provided, that no certificate granted upon a credential issued by the State Board of Education or commission for a limited period shall be renewed or extended unless the credential upon which it was issued has been renewed or extended, and then only for the period of the renewal or extension of the credential.

13163.2. Each county or city and county board of education may issue temporary certificates for the purpose of authorizing salary payments to certified employees whose credential applications are being processed or to personnel employed in children's centers or other preschool educational programs whose permit applications are being processed. The applicant for such a temporary certificate shall make a statement under oath that he has duly filed his application for a credential or permit together with the required fee and that to the best of his knowledge no reason exists why he should not be issued a certificate or permit. Such certificate or permit shall be valid for not more than 120 schooldays, and only until the credential or permit originally requested is either issued or denied by the commission.

13164. The standard for the exchange credential shall be as prescribed by the commission pursuant to Section 13271.

This credential shall authorize service in a position requiring certification qualifications as an exchange certified employee for performance of the services specified in the credential. Services for which a license is required by the Business and Professions Code may not be authorized unless the applicant holds such a license.

13165. Except as provided in this code, no certification document shall be granted to any person unless and until he has subscribed to the following oath or affirmation: "I solemnly swear (or affirm) that I will support the Constitution of the United States of America, the Constitution of the State of California, and the laws of the United States and the State of California, and will promote respect for the flag and respect for law and order and allegiance to the government of the United States of America." The oath or affirmation shall be subscribed before any person authorized to administer oaths or before any member of the governing board of a school district or of any county board of education and filed with the commission or with the Board of Governors of the California Community Colleges, as the case may be. Any certificated person who is a citizen or subject of any country other than the United States, and who is employed in any capacity in any of the public schools of the state shall, before entering upon the discharge of his duties, subscribe to an oath to support the institutions and policies of the United States during the period of his sojourn within the state. Upon the violation of any of the terms of the oath or affirmation, the commission or the Board of Governors of the California Community Colleges, as the case may be, shall suspend or revoke the credential which has been issued.

13166. The issuance of any teaching credential requires (1) the passing of a satisfactory examination on the provisions and principles of the Constitution of the United States in a junior college, college, or university of recognized merit or (2) the satisfactory completion of two semester units of work on the provisions and principles of the Constitution of the United States in any university or college from which undergraduate credits earned are accepted by the commission as meeting undergraduate credit requirements for credentials issued by the commission or in any publicly supported junior college in the state. Public and private institutions in California may be authorized to attest to the individual's satisfaction of this requirement.

13168. When required by the commission or by the Board of Governors of the California Community Colleges, as the case may be, the application for a certification document or the renewal thereof shall be accompanied by a certificate in such form as shall be prescribed by the commission or by the Board of Governors of the California Community Colleges, from a physician and surgeon licensed under the provisions of the Business and Professions Code showing that the applicant is free from any contagious and communicable disease or other disabling disease or defect unfitting the applicant to instruct or associate with children.

13168.1. No person otherwise qualified shall be denied the right to receive credentials from the commission, to receive training for the purpose of becoming a teacher, or to engage in practice teaching in any school, on the grounds he is totally

or partially blind; nor shall any school district refuse to engage a teacher on such grounds, provided, that such blind teacher is able to carry out the duties of the position for which he applies in the school district.

The governing board of a school district may request the commission established pursuant to Section 363 for advice and assistance for purposes of this section, and it shall be the duty of the commission, upon such request, to render advice and assistance.

13168.2. No person otherwise qualified shall be denied the right to receive credentials issued by the commission, to receive training for the purpose of becoming a teacher, or to engage in practice teaching in any school, on the ground he has physical deformities; provided, that such physical deformities do not constitute a health hazard to other persons with whom he may become associated.

13169. The commission, or the Board of Governors of the California Community Colleges, as the case may be, shall adopt, in addition to any other regulations authorized by law, regulations requiring every applicant for a credential, or for the renewal of a credential, to submit reasonable evidence of identification and good moral character.

13169.1. Each applicant for a credential, or for the renewal of a credential, shall submit with his application duplicate personal identification cards provided by the commission or by the Board of Governors of the California Community Colleges, as the case may be upon which shall appear the legible fingerprints and a personal description of the applicant.

The commission, or the Board of Governors of the California Community Colleges, as the case may be, is authorized to, and shall adopt such regulations as may in its judgment be necessary for the administration of this section.

13169.2. The commission, or the Board of Governors of the California Community Colleges, as the case may be, is authorized to secure information, records, reports, and other data relative to the identification or fitness of any applicant for a credential or for the renewal of a credential from any agency or department of the state and for that purpose, notwithstanding any other provision of the law, the State Bureau of Criminal Identification and Investigation shall furnish, upon application of the commission or by the Board of Governors of the California Community Colleges, all information pertaining to any applicant of whom there is a record in its office.

The commission or the Board of Governors of the California Community Colleges, as the case may be, upon written request of any private school authority, shall release to that private school authority information and other data relative to the identification or fitness of any applicant for a teaching position in the private school so long as not otherwise prohibited by any other privileged communication statute.

13170. Teachers, principals, supervisors, school librarians, superintendents and assistant superintendents, and other certified personnel who are presently employed in public schools in California and all those persons who are in preparation of becoming teachers, school librarians, or other certified personnel, shall not be adversely affected by this chapter. However, presently employed personnel and those in preparation shall be permitted to seek certification, initial or renewal, under the terms of this chapter.

13171. A credential which was issued prior to January 1, 1973, shall remain in force as long as it is valid and continues to be valid under the law and regulations of the commission. The commission may not by regulation invalidate such valid credential unless it issues to the holder thereof, in substitution, a new credential authorized by other sections of this chapter which is no less restrictive than the credential for which it was substituted with respect to the kind of service which it authorizes, and the grades or classes of types of schools in which it authorizes services.

13171.1. The commission shall issue the appropriate credentials authorized by the law operative, and the rules and regulations of the commission in effect on December 31, 1971, to any person who, on November 1, 1971, has completed two years of college and on November 1, 1971, was either enrolled in a teacher education curriculum at any institution of higher learning approved by the commission, or was engaged in teaching in a foreign country, after such person has completed the requirements for such credential and if the person is otherwise qualified for such credential under the law and rules and regulations. No credential shall be issued under this section after September 15, 1974. However, no person shall be denied the issuance of a prior credential if he holds a provisional credential on November 1, 1971, and is working toward meeting the requirements of that prior credential in accordance with commission regulations; nor shall any person who, on November 1, 1971, is working toward meeting the requirements of a prior credential and on that date is enrolled in a teacher education program, be denied the issuance of a prior credential if because of active military service since September 15, 1970, he was prevented from meeting the educational requirements of a prior credential.

13172. Any state, county, or city and county superintendent, or any state, county, or city and county board of education, who issues a credential, except as provided by law, is guilty of a misdemeanor.

13173. Each county or city and county board of education may provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications as an employee of the county superintendent of schools of such county or city and county or of a school district under the jurisdiction of such county superintendent of schools.

13174. The commission may deny any application for the issuance of a credential or for the renewal of a credential made by any applicant who:

(a) Lacks the qualifications which are prescribed by law or regulations adopted by the commission pursuant thereto.

(b) Is physically so disabled as to be rendered unfit to perform the duties authorized by the credential for which he applies.

(c) Is addicted to the use of intoxicating beverages to excess.

(d) Is addicted to the use of narcotics or habit-forming drugs.

(e) Has committed any act involving moral turpitude.

(f) Has had a certification document revoked.

(g) Has intentionally practiced or attempted to practice any material deception or fraud in his application.

(h) Fails or refuses to furnish reasonable evidence of identification or good moral character.

(i) Has been convicted of any offense defined in subdivision 1 of Section 314 of the Penal Code prior to September 7, 1955.

13175. The commission shall deny any application for the issuance of a credential or for the renewal of a credential made by any applicant who comes within any of the following classes:

(a) Has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state.

(b) Has been convicted of any sex offense as defined in Section 12912.

(c) Has been convicted of a narcotics offense as defined in Section 12912.5.

13176. The terms of credentials shall be as specified in this article.

13177. Except as otherwise specifically required in this chapter, the commission shall establish regulations pertaining to the expiration dates of initially issued and renewed credentials.

13178. Each credential issued by the commission shall clearly state the kind of service that it authorizes, the grades or classes, or the types of schools in which it authorizes service, and shall have such other content as the commission may prescribe or as may be prescribed by authority of the commission.

13179. Each credential issued shall contain its date of expiration and shall be issued on a form prescribed by the commission, and shall bear the signatures of the secretary and the chairman of the commission or their facsimile signatures.

13180. Whenever the date of expiration of any credential occurs while the person holding the credential is in the active military service of the United States of America or of the State of California, including active service in any uniformed auxiliary of, or to, any branch of such military service created

or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California or in the service of the United States Merchant Marine, or in the full-time paid service of the American Red Cross, during any national emergency declared by the President of the United States of America, or during a war in which the United States of America is engaged, or within six months after such person honorably leaves such service or has been placed on inactive duty, the credential is hereby continued in force until six months after such person honorably leaves such service or has been placed on inactive duty.

The holder of a credential so extended shall be entitled to a renewal of the credential prior to its date of expiration as herein fixed, subject to provisions of this code relating to the renewal of credentials.

13181. Whenever satisfactory proof is presented to the commission by any person to whom the commission has granted a credential that has been lost or destroyed, the commission shall issue to him a new credential of the same kind, grade, character, and tenure as that lost or destroyed.

For issuance of the new credential the commission shall require a fee to cover the cost of replacement not to exceed the fee for issuance of an original credential pursuant to Section 13118. The revenues from the fee provided for in this section shall not be available for expenditure until appropriated.

13182. Satisfactory proof shall consist of an affidavit by the person, giving the kind of the credential, the date of issue, if possible, and the basis upon which it was issued, together with such other information as the issuing authority may require.

13183. Any oath required of an applicant for a credential may be administered by any of the persons enumerated in Section 61, by such employees of the Department of Education as the Superintendent of Public Instruction may designate, and by such employee of the commission or of the Board of Governors of the California Community Colleges as the commission or the board of governors may designate.

**Article 1. Interstate Agreement on Qualification
of Educational Personnel**

SEC. 37. Section 13186.5 of the Education Code is amended and renumbered to read:

13191. The Interstate Agreement on Qualification of Educational Personnel is hereby entered into with all jurisdictions joining therein, in the form as follows:

Article I

Purpose, Findings, and Policy

1. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II

Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.

3. "Accept," or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating state" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

6. "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III

Interstate Educational Personnel Contracts

1. The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in his own state.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV

Approved and Accepted Programs

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V

Interstate Cooperation

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement.

2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI

Agreement Evaluation

The designated state officials of any party state may meet from time to time as a group to evaluate progress under the agreement, and to formulate recommendations for changes.

Article VII

Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII

Effect and Withdrawal

1. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing state has given notice in writing of the withdrawal to the Governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX

Construction and Severability

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the Constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the Constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

Such permission shall be granted upon a year-to-year basis by the Superintendent of Public Instruction. Application for such authorization shall be on forms furnished by the State Department of Education. The Superintendent of Public Instruction shall not approve an institution to issue degrees until it is determined, based on information submitted to him, that the course of instruction has the facilities and the faculty to afford students and require of students the completion of a program of education which will prepare them for the attainment of a recognized professional, vocational, or educational objective; and the curriculum is consistent in content and quality with curricula offered by established institutions that issue the appropriate degree upon the satisfactory completion thereof. For the purpose of this subdivision the Superintendent of Public Instruction may compare with the requirements and standards of an accrediting agency generally accepted by the class of institution concerned. This shall include the determination that the course for which the degree is granted achieves its professed or claimed objective for higher education. The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the Superintendent of Public Instruction made pursuant to this subdivision.

(3) A corporation which has filed with the Superintendent of Public Instruction an affidavit by the president or other head of the corporation, stating that the corporation owns an interest in real or personal property or both real and personal property used exclusively for the purpose of education, of a fair market value of not less than fifty thousand dollars (\$50,000). Such affidavit shall be accompanied by an appraisal by a state inheritance tax appraiser appointed for the county in which the institution is located, describing the real or personal property or both, and showing the value of the interest of the corporation therein to be at least fifty thousand dollars (\$50,000). The value of the interest of the property required to be owned by the corporation for the purposes of this section shall be deemed to be the appraised value of the interest owned by the corporation less the unpaid balance on any note secured by a mortgage or deed of trust thereon or the unpaid balance on a contract of sale thereof. Filing pursuant to this section shall not be interpreted to mean, and it shall be unlawful for any corporation to expressly or impliedly represent by any means whatsoever, that the State of California, the Superin-

tendent of Public Instruction, the State Board of Education, the California State Department of Education, or any division or bureau thereof, has made any evaluation, recognition, accreditation, approval, or endorsement of the course of study.

(b) A hospital licensed under the provisions of Division 2, Chapter 2 (commencing with Section 1400) of the Health and Safety Code, which issues diplomas in connection with the operation of a hospital.

(c) A person, firm, association, partnership or corporation which is accredited, approved, or licensed by a state board or agency as a school and which issues or confers diplomas in the profession, vocation or occupation controlled by the board or agency accrediting, approving, or licensing it; provided, that this subdivision shall not be construed as authorizing the issuing of a diploma which is not customarily granted for the training given and which is limited to the profession, vocation or occupation controlled by the accrediting, approving, or licensing board.

(d) Any educational institution approved for teacher training by the Commission for Teacher Preparation and Licensing for credentials in the field of teacher training; provided, that this subdivision shall not be construed as authorizing the issuance of a diploma which is not based exclusively on the courses of instruction approved by the commission.

(e) A person, firm, association, partnership, or corporation which at the time of the issuance of a "diploma," as "diploma" is defined in Section 29001, has accreditation of the specific course of study upon which the "diploma" is based by a national or applicable regional accrediting agency recognized by the United States Department of Health, Education, and Welfare, Office of Education; provided, that the educational institution has filed with the Superintendent of Public Instruction an affidavit by the administrative head of the institution stating that the course of study is so accredited.

(f) A person, firm, association, partnership or corporation authorized by the Superintendent of Public Instruction to issue specified diplomas. Such permission shall be granted upon a year-to-year basis by the Superintendent of Public Instruction upon the submission of information to him that the courses of instruction and the faculty or requirements of such applicant will afford students or require of students a course of education comparable to that being furnished by persons, firms, associations, partnerships and corporations offering similar instruction and complying with other subdivisions hereof. For the purpose of this subdivision, the Superintendent of Public Instruction may rely on the findings of an accrediting or approving agency generally accepted by the class of institution concerned and shall consider the results of the examination taken pursuant to Section 2941.5 of the Business and Professions Code, by students of any applicant. The provisions of Chapter 5 (commencing with Section 11500) of Part

1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the superintendent made pursuant to this subdivision.

The commission is specifically charged with the responsibility to take the necessary administrative steps to provide for an orderly, efficient and expeditious transition of powers, duties, and regulations.

to special elementary school reading instruction program.*

[Approved by Governor July 31, 1970. Filed with
Secretary of State July 31, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 5771 of the Education Code is amended to read:

5771. It is the intent and purpose of the Legislature that the elementary school reading instruction program provided for by this chapter shall be directed to the prevention of reading disabilities, and the correction of reading disabilities at the earliest possible time in the educational career of the pupil. The instruction program shall be provided in grades 1, 2, and 3 in the elementary schools. The instruction program may be provided in kindergarten if the governing board of a school district, by resolution, acts to make the program so applicable. With respect to any district in which the instructional program has been made applicable to kindergarten, the units of average daily attendance in kindergarten shall in no manner be utilized in the computation of the basic quota of specialist reading teachers, computation of allowances for specialist reading teachers, establishment of a system of priorities, or computation for the salary allotment for professional school librarians, nor shall any kindergarten teacher be eligible to apply for a scholarship grant for teachers of reading. It is the intent of the Legislature that the applicability of the instructional program to kindergarten shall in no manner affect the school districts'

entitlements for the program authorized by this chapter or shall in no manner affect the statewide priorities established with respect to the program authorized by this chapter.

It is the further intent of the Legislature that the reading program in the public schools be of high quality, and that the program be designed to permit early development of reading skills, and the early correction of reading disabilities. The Legislature recognizes that early development of reading ability enhances the opportunity of each pupil for success in school and for success in a career upon leaving school. The Legislature further recognizes that to achieve its intent and purpose it will be necessary to provide means to employ teachers trained in the teaching of reading, to provide incentives to encourage such training, and to stimulate the establishment and maintenance of school libraries. To carry out its intent and purpose, the Legislature has enacted this chapter to provide salary payments for specialist teachers in reading, scholarships to encourage the development of skills in the teaching of reading, and salary payments for the employment of professional librarians in school districts. It is also the intent of the Legislature that the provisions of this chapter shall be administered to provide funds and services first to those school districts and to the schools in such districts where the need for reading instruction is greatest and the financial ability of the district to provide it is least. This program is voluntary and any school district may participate or may decline to participate. If a district participates, it shall participate fully with respect to those schools in the district in which the program is established.

SEC. 2. Section 1 of this act shall become operative on July 1, 1971.

And whenever conflicting claims are or may be made upon a person for or relating to personal property, or the performance of an obligation, or any portion

The amount which plaintiff or cross complainant admits to be payable under a contract may be deposited by him with the clerk of the court at the time of the filing of the complaint or cross complaint in interpleader without first obtaining order of the court therefor.

A defendant named in a complaint to compel conflicting claimants to interplead and litigate their claims, or a defendant named in a cross complaint in interpleader, may, in lieu of or in addition to any other pleading, file an answer to the complaint or cross complaint which shall be served upon all other parties to the action and which shall contain allegations of fact as to his ownership of or other interest in the amount or property and any affirmative defenses and the relief requested. The allegations in such answer shall be deemed denied by all other parties to the action, unless otherwise admitted in the pleadings.

Any interest on amounts deposited and any right to damages for detention of property so delivered, or its value, shall cease to accrue after the date of such deposit or delivery.

Except in cases where by the law a right to a jury trial is now given, conflicting claims to funds or property or the value thereof so deposited or delivered shall be deemed issues triable by the court, and such issues may be first tried. In the event the amount deposited shall be less than the amount claimed to be due by one or more of the conflicting claimants thereto, or in the event the property or the value thereof delivered is less than all of the property or the value thereof claimed by one or more of such conflicting claimants, any issues of fact involved in determining whether there is a deficiency in such deposit or delivery shall be tried by the court or a jury as provided in Title 8 (commencing with Section 577) of Part 2 of this code.

Where the public guardian has so applied for appointment as guardian or conservator, or the guardianship or conservatorship of a person and estate has been ordered into his hands by the court, letters of guardianship or conservatorship shall be procured, in like manner and on like proceedings as letters of guardianship or conservatorship are issued to other persons. The assessor shall provide the names of the seller and buyer of each property on which the comparison is based, the location of such property, the date of the sale, and the consideration paid for the property, whether paid in money or otherwise, but for purposes of providing such market data, the assessor shall not display any document relating to the business affairs or property of another.

SECTION 1. Section 13050 of the Insurance Code is amended to read:

13050. Within 30 days after the effective date of this chapter, with the approval of the commissioner, all insurers licensed to write and engaged in writing in this state, on a direct basis, of any of the reinsured lines, shall establish the California Riot and Civil Disorders Insurance Association, to formulate and administer the program for the equitable apportionment among such insurers of insurance to the State of California to permit the State of California to discharge its obligation to reimburse the secretary, pursuant to the provisions of the act. Each such insurer, as a condition of its authority to transact such kinds of insurance in this state, shall participate in the association in accordance with a plan of operation drawn up by the governing committee and approved by the commissioner. Such plan of operation may also provide for assessment of all members in amounts sufficient to operate the association. The governing committee shall administer this plan of operation. Unless otherwise determined at a general meeting of the insurers, the duly elected governing committee of the California FAIR Plan shall serve as the governing committee of the association.

SEC. 2. Section 13051 of the Insurance Code is amended to read:

13051. (a) Within 30 days after the effective date of this chapter, the association shall submit to the commissioner a proposed plan of operation consistent with the provisions of this chapter, consisting of the association of all insurers licensed to write and engaged in writing in this state, on a direct basis, of any of the reinsured lines. Every such insurer shall be a member of the association and shall remain a member as a condition of its authority to transact such kind of insurance in this state.

(b) Under the plan each insurer shall participate in the risk, expenses, and losses of the association in the proportion that its premiums during the calendar year immediately preceding the claim by the secretary against the state, pursuant to the provisions of the act, bear to the aggregate premiums of all insurers in the association, excluding that portion of the premiums attributable to the operation of the association.

(c) The plan of operation shall be subject to the approval of the commissioner, and shall go into effect upon the tentative approval of the commissioner. The commissioner may, at any time, withdraw his tentative approval, or he may, at any time after he has given his final approval, revoke such approval if in his judgment that is necessary to carry out the purpose of this chapter. The withdrawal or revocation of such approval shall not affect the validity of any contracts executed by the insurer members of the association prior to the date of such withdrawal. If the commissioner disapproves, or withdraws or revokes his approval to all or any part of the plan of operation, the governing committee shall immediately thereafter submit for review an appropriate revised plan, or part thereof, and, if the governing committee fails to do so, or if the revised plan so filed is unacceptable, the commissioner shall promulgate such a plan of operation, or part thereof, as he may deem necessary to carry out the purpose of this chapter.

(d) The governing committee may, on its own initiative, or at the request of the commissioner, amend the plan, subject to the approval of the commissioner. The commissioner, or any person designated by him, shall have the power of visitation of, and examination into, the operation, and free access to all of the books, records, files, papers, and documents that relate to the operation of the association and of any member-insurer thereof, and may summon, qualify, and examine as witnesses all persons having knowledge of such operations, including officers, agents, or employees of the association, or any member-insurer thereof.

(e) The commissioner shall have the right of approval or modification of any contract or contracts executed between the association, its member-insurers, and the State of California.

SEC. 3. Section 13056 is added to the Insurance Code, to read:

13056. (a) In exchange for the association's assuming the obligation of the State of California to the secretary under the act, the state shall transmit to the association an annual premium as long as the association's obligation under this chapter remains in force. The first premium shall be for the year commencing July 31, 1969, payable when this section becomes effective, and the next annual premium shall be due on July 31, 1970, and additional payments shall be made on July 31 of each year thereafter.

(b) The operating expenses of the association shall be deducted from such premium, and the balance of such premium shall be allocated to members of the association on the basis of their gross direct premium writings of reinsured lines in the state during such preceding calendar year.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

The initial payment to the California Riot and Civil Disorders Insurance Association for the obligation of the state, under Title XI of the Federal Housing and Urban Development Act of 1968, to reimburse the federal Secretary of Housing and Urban Development, which obligation the association has assumed under the provisions of Division 4 (commencing with Section 13000) of the Insurance Code, has been appropriated by the Legislature but not paid because of the lack of clarity of the provisions contained in such Division 4. The insurance companies covered by such Division 4 have been given an obligation of the state for which it was intended they should be paid. Unless this act becomes effective prior to July 31, 1970, the state may be obligated to the federal government for as much as thirty-three million dollars (\$33,000,000), or the federal reinsurance program may no longer be available in California.

CHAPTER 573

An act to add Chapter 10.3 (commencing with Section 673) to Part 1 of Division 1 of the Insurance Code, relating to insurance.

[Approved by Governor July 31, 1970. Filed with
Secretary of State July 31, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10.3 (commencing with Section 673) is added to Part 1 of Division 1 of the Insurance Code, to read:

CHAPTER 10.3. CANCELLATION OF POLICIES WHEN PREMIUM FINANCED

673. (a) As used in this section, "exercise the right to cancel" means the act of formally electing to use the right of the insured to cancel any insurance policy in accordance with and subject to the provisions of that policy when the right to use that right of the insured has been transferred or assigned by the insured in writing to a lender who has advanced to the insurer the premium for such policy. Such transfer or assignment may be by power of attorney or other document. Such transfer or assignment may, but need not, be accompanied by an assignment of any unearned premium due the insured on cancellation.

(b) No lender shall exercise the right to cancel a financed insurance policy because of the default of the insured under a premium payment loan agreement except in accordance with this section.

(c) Written notice of the exercise of such right to cancel shall be mailed by the lender to the insurer and to the

insured at the address shown on the premium payment loan agreement or his last known address, specifying a date five days or more after the date of mailing of such notice as the effective date of cancellation. Any insurer may, in writing delivered to the lender, waive, generally or specifically, the right to receive such notice or notices. A copy of such notice may be mailed to the producer of record if known to the lender, but failure to do so shall not affect any rights granted by this section. This subdivision shall not apply to an industrial loan company.

(d) An industrial loan company shall, in giving the insured 10 days' notice of its intent to cancel pursuant to Section 18923 of the Financial Code, furnish a copy of such notice to the insurance agent or insurance broker indicated on the premium finance agreement. After expiration of such 10-day period, the industrial loan company may thereafter, in the name of the insured, cancel such insurance contract or contracts by mailing to the insurer a written notice of cancellation, and the insurance contract shall be canceled as if such notice of cancellation had been submitted by the insured himself, but without requiring the return of the insurance contract or contracts. The industrial loan company shall also mail a notice of cancellation, setting forth the effective date of cancellation of the finance insurance contract, to the insured at his last known address and to the insurance agent or insurance broker indicated on the premium finance agreement. For the purposes of this subdivision, the words "premium finance agreement" shall have the same meaning as that specified in Section 18903 of the Financial Code.

(e) A written exercise of such right containing a confirmation of the effective date of cancellation shall be mailed by the lender to the insurer within five days following such effective date of cancellation specified in the notice described in subdivision (c) unless the insured has cured any and all defaults. Cancellation shall be effective on such financed insurance policy without requiring the return of the insurance policy or insurance policies, except as provided in subdivisions (f) and (g), on the confirmation date specified in the written exercise of such right. This subdivision shall not apply to an industrial loan company.

(f) All statutory, regulatory, and contractual restrictions providing that the financed insurance policy may not be canceled unless notice is given to a governmental agency, mortgagee, or other third party shall apply where cancellation is effected under this section. The insurer shall give the prescribed notice on behalf of itself or the insured to any governmental agency, mortgagee, or other third party on or before the fifth business day after the day it receives the written exercise of cancellation right containing confirmation of the cancellation date from such lender, as provided in subdivision (e), or a written notice of cancellation from an industrial loan company, pursuant to subdivision (d), and shall, for the purpose

of such notice, determine the effective date of cancellation as to those persons mentioned in this subdivision only, taking into consideration the number of days' notice required to complete the cancellation.

(g) Whenever such a financed insurance policy is canceled by any party for any reason, the insurer shall, in accordance with the written agreements of which it has notice, return to the lender such unearned premiums as are due to the lender. The amount of such return premiums shall be based upon the confirmed date of cancellation specified in subdivision (e), or upon the written notice of cancellation specified in subdivision (d) in the case of an industrial loan company, lessened by the amount, if any, to compensate equitably the insurer for carrying the risk of loss as to any governmental agency, mortgagee, or other parties specified in subdivision (f) from such date to the effective date of cancellation as to such parties.

(h) The commissioner may amend the rules and regulations of any assigned risk plan, fair plan, or similar plan to provide for the equitable assignment of insurance risks among insurers now in existence or hereafter established, in such manner as may be necessary to carry out the purposes of this section.

(i) A lender which sends a written exercise of cancellation right or a written notice of cancellation to an insurer, as provided in subdivision (c), or subdivision (d) in the case of an industrial loan company, thereby represents that he has a valid right so to do and to receive the unearned premium. If the lender thereby accomplishes the cancellation and receives an unearned premium, such representation shall be conclusive as between the insurer and the lender. An insurer relying upon the written exercise of such right containing a confirmation of cancellation date and giving, when applicable, notice as required by subdivision (e), shall be relieved from complying with any other duty or form of cancellation required by this code.

(j) This section shall not apply where the insurer exercises its own right to cancel the policy for nonpayment of premium, direct or indirect, or otherwise. Such a cancellation shall be subject to all applicable provisions of the policy, this code, except this section, and any rights of the lender of which the insurer has written notice.

(k) This section shall apply only to contracts entered into between an insured and a lender on or after the effective date of this section.

CHAPTER 574

In order to authorize the State Controller to take the reserve for working capital into account in stating the condition of the State General Fund as of June 30, 1970, for the 1969-1970 fiscal year, it is necessary for this act to be effective immediately.

And it shall be the duty of any peace officer, officer of the humane society, or officer of a pound or animal regulation department of a public agency, to take possession of the animal so abandoned or neglected and care for the same until it is redeemed by the owner or claimant, and the cost of caring for such animal shall be a lien on the same until the charges are paid. Every sick, disabled, infirm, or crippled animal, except a dog or cat, which shall be abandoned in any city, city and county, or judicial district, may, if after due search no owner can be found therefor, be killed by such officer; and it shall be the duty of all peace officers, an officer of such society, or officer of a pound or animal regulation department of a public agency to cause the same to be killed on information of such abandonment. Any such veterinarian who agrees to make such a determination, shall himself perform euthanasia on an animal if the owner does not redeem the animal within the locally prescribed waiting period or if he determines that such animal has incurred severe injuries or is incurably crippled. If any such veterinarian determines that the animal shall be hospitalized under proper care and given emergency treatment, the costs of any such services which are provided pending the owner's inquiry to such agency, department, or society shall be paid from the dog license fees, fines, and fees for impounding dogs in the city, county, or city and county in which the animal was licensed or if the animal is unlicensed the jurisdiction in which the animal was found, subject to the provision that this cost be repaid by the animal's owner. No such veterinarian shall be criminally or civilly liable for any decision which he makes or services which he provides pursuant to the provisions of this section.

An act to add Sections 1283 and 1283.1 to, and to repeal Section 1283 of, the Code of Civil Procedure, relating to arbitration proceedings.

[Approved by Governor August 4, 1970. Filed with Secretary of State August 4, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1283 of the Code of Civil Procedure is repealed.

SEC. 2. Section 1283 is added to the Code of Civil Procedure, to read:

1283. To the extent provided in Section 1283.1, depositions may be taken and discovery obtained in arbitration proceedings as follows:

(a) After the appointment of the arbitrator or arbitrators, the parties to the arbitration shall have the right to take depositions and to obtain discovery regarding the subject matter of the arbitration, and, to that end, to use and exercise all of the same rights, remedies, and procedures, and be subject to all of the same duties, liabilities, and obligations in the arbitration with respect to the subject matter thereof, as provided in Chapter 2 (commencing with Section 1985) of, and Article 3 (commencing with Section 2016) of Chapter 3 of, Title 3 of Part 4 of this code, as if the subject matter of the arbitration were pending in a civil action before a superior court of this state, subject to the limitation as to depositions set forth in subdivision (e) of this section.

(b) The arbitrator or arbitrators themselves shall have power, in addition to the power of determining the merits of the arbitration, to enforce the rights, remedies, procedures, duties, liabilities, and obligations of discovery by the imposition of the same terms, conditions, consequences, liabilities, sanctions, and penalties as can be or may be imposed in like circumstances in a civil action by a superior court of this state under the provisions of this code, except the power to order the arrest or imprisonment of a person.

(c) The arbitrator or arbitrators may consider, determine, and make such orders imposing such terms, conditions, consequences, liabilities, sanctions, and penalties, whenever necessary or appropriate at any time or stage in the course of the arbitration, and such orders shall be as conclusive, final, and enforceable as an arbitration award on the merits, if the making of any such order that is equivalent to an award or correction of an award is subject to the same conditions, if any, as are applicable to the making of an award or correction of an award.

(d) For the purpose of enforcing the duty to make discovery, to produce evidence or information, including books

and records, and to produce persons to testify at a deposition or at a hearing, and to impose terms, conditions, consequences, liabilities, sanctions, and penalties upon a party for violation of any such duty, such party shall be deemed to include every affiliate of such party as defined in this section. For such purpose:

(1) The personnel of every such affiliate shall be deemed to be the officers, directors, managing agents, agents, and employees of such party to the same degree as each of them, respectively, bears such status to such affiliate; and

(2) The files, books, and records of every such affiliate shall be deemed to be in the possession and control of, and capable of production by, such party. As used in this section, "affiliate" of the party to the arbitration means and includes any party or person for whose immediate benefit the action or proceeding is prosecuted or defended, or an officer, director, superintendent, member, agent, employee, or managing agent of such party or person.

(e) Depositions, whether for discovery or as evidence, or both, shall not be taken unless leave to do so is first granted by the arbitrator or arbitrators. Such leave shall not be granted unless it is impractical or impossible to obtain the attendance of the witness at a hearing, or it is grossly inconvenient, uneconomical, inefficient, or otherwise unjust to refuse such leave, having due regard to the importance of presenting the testimony orally at a hearing.

SEC. 3. Section 1283.1 is added to the Code of Civil Procedure, to read:

1283.1. (a) All of the provisions of Section 1283 shall be conclusively deemed to be incorporated into, made a part of, and shall be applicable to, every agreement to arbitrate any dispute, controversy, or issue arising out of or resulting from any injury to, or death of, a person caused by the wrongful act or neglect of another.

(b) Only if the parties by their agreement so provide, may the provisions of Section 1283 be incorporated into, made a part of, or made applicable to, any other arbitration agreement.

CHAPTER 582

An act to amend Sections 581a and 583 of the Code of Civil Procedure, relating to dismissal of actions.

[Approved by Governor August 4, 1970. Filed with
Secretary of State August 4, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 581a of the Code of Civil Procedure is amended to read:

581a. (a) No action heretofore or hereafter commenced by complaint shall be further prosecuted, and no further pro-

ceedings shall be had therein, and all actions heretofore or hereafter commenced shall be dismissed by the court in which the same shall have been commenced, on its own motion, or on the motion of any party interested therein, whether named as a party or not, unless the summons on the complaint is served and return made within three years after the commencement of said action, except where the parties have filed a stipulation in writing that the time may be extended or the party against whom the action is prosecuted has made a general appearance in the action.

(b) No action heretofore or hereafter commenced by cross-complaint shall be further prosecuted, and no further proceedings shall be had therein, and all actions heretofore or hereafter commenced shall be dismissed by the court in which the same shall have been commenced, on its own motion, or on the motion of any party interested therein, whether named as a party or not, unless, if a summons is not required, the cross-complaint is served within three years after the filing of the cross-complaint or unless, if a summons is required, the summons on the cross-complaint is served and return made within three years after the filing of the cross-complaint, except where the parties have filed a stipulation in writing that the time may be extended or, if a summons is required, the party against whom service would otherwise have to be made has made a general appearance in the action.

(c) All actions, heretofore or hereafter commenced, shall be dismissed by the court in which the same may be pending, on its own motion, or on the motion of any party interested therein, if service has been made and no answer has been filed or if the defendant has made a general appearance in the action, if plaintiff fails, or has failed, to have judgment entered within three years after service has been made or such appearance by the defendant, except where the parties have filed a stipulation in writing that the time may be extended.

(d) The time during which the defendant was not amenable to the process of the court shall not be included in computing the time period specified in this section.

When, in any action after judgment, a motion for a new trial has been made and a new trial granted, such action shall be dismissed on motion of defendant after due notice to plaintiff, or by the court of its own motion, if no appeal has been taken, unless such action is brought to trial within three years after the entry of the order granting a new trial, except when the parties have filed a stipulation in writing that the time may be extended. When in an action after judgment, an appeal has been taken and judgment reversed with cause remanded for a new trial (or when an appeal has been taken from an order granting a new trial and such order is affirmed on appeal), the action must be dismissed by the trial court, on motion of defendant after due notice to plaintiff, or of its own motion, unless brought to trial within three years from the date upon which remittitur is filed by the clerk of the trial court.

(c) For the purposes of this section, "action" includes an action commenced by cross-complaint; "cross-complaint" includes a counterclaim to the extent that it seeks affirmative relief.

(d) The time during which the defendant was not amenable to the process of the court and the time during which the jurisdiction of the court to try the action is suspended shall not be included in computing the time period specified in this section.

[Approved by Governor August 4, 1970. Filed with Secretary of State August 4, 1970.]

The people of the State of California do enact as follows:

The county counsel or, if there is no county counsel, the district attorney of the county specified in Section 233 shall, in a proper case, institute the action upon the request of any of the state or county agencies mentioned herein.

CHAPTER 591

An act to amend Sections 709 and 720 of the Probate Code, relating to estates.

[Approved by Governor August 4, 1970 Filed with
Secretary of State August 4, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 709 of the Probate Code is amended to read:

709. If an action is pending against the decedent at the time of his death, the plaintiff must in like manner file his claim with the clerk or present it to the executor or administrator for allowance or rejection, authenticated as required in other cases; and no recovery shall be had against decedent's estate in the action unless proof is made of such filing or presentation; provided, if the action which is pending is an action for damages and the decedent was insured therefor and the insurer has accepted the defense of the cause and an appearance has been made in such action on behalf of the decedent, no claim shall be required except for amounts in excess of or not covered by such insurance; provided, further, if any action is pending against the decedent at the time of his death and a claim based on such action is not filed

or presented within the prescribed period, the court may thereafter allow filing of said claim on such terms as may be just and equitable, upon the claimant's verified petition and notice of hearing given pursuant to Section 1200, if it finds that the claim was not filed or presented previously because neither the claimant nor his attorney had actual knowledge of the decedent's death at least 15 days prior to the expiration of the prescribed period for filing or presenting the claim, but any property distributed pursuant to court order or any payment properly made before notice of such petition shall not be subject to the claim.

No relief shall be granted unless the petition is filed within a reasonable time after discovery of decedent's death and in any event within one year after the expiration of said prescribed period, and before petition for final distribution has been filed.

If, at the time of filing the petition hereunder, assets of the estate have been paid to general creditors or some thereof or have been distributed by decree of preliminary distribution to heirs, devisees or legatees (in either case after expiration of the prescribed time for claims), and it appears that the filing and later establishment of the claim, in the circumstances, would cause or tend to cause unequal treatment between heirs, devisees, legatees or creditors, then permission to file the claim shall be denied.

SEC. 2. Section 720 of the Probate Code is amended to read:

720. If a claim for damages for injuries to, or death of, a person, for which no action specified in Section 709 was pending at the time of the decedent's death, is not filed within the time otherwise limited by this article, the court, upon application of the claimant made not later than one year after accrual of the claimant's cause of action, and upon such notice and hearing, if any, as the court may order, shall permit the filing of the claim and, if required, appoint or reappoint a personal representative. Neither the filing of the claim pursuant to this section nor its later establishment, in whole or in part, shall make property distributed pursuant to court order or any payments properly made before notice of such application subject to the claim. The personal representative, distributee, or payee shall not be liable on account of such prior distribution or payment. The court shall impose reasonable conditions upon the filing of the claim to avoid unequal treatment between the heirs, devisees, legatees, or creditors of the estate.

This section shall not be applicable to claims of public entities under Section 707.5.

CHAPTER 592

The people of the State of California do enact as follows:

SECTION 1. Section 155.1 is added to the Revenue and Taxation Code, to read:

155.1. Notwithstanding any provision of law to the contrary, the board of supervisors may, in any year, by ordinance, provide that every person who at 12:01 a.m. on the immediately preceding March 1 was the owner of, or had in his possession, or under his control, any taxable property, or who

acquired such property after such date and is liable for the taxes thereon for the fiscal year commencing the immediately following July 1, which property was thereafter damaged or destroyed, without his fault, by a major misfortune or calamity, in an area or region subsequently proclaimed by the Governor to be in a state of disaster, if such property was damaged or destroyed by the major misfortune or calamity which caused the Governor to proclaim the area or region to be in a state of disaster, may, within the time specified in the ordinance, apply for reassessment of such property by delivering to the assessor a written application showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown therein to be in excess of one thousand dollars (\$1,000). The application shall be executed under penalty of perjury, or if executed outside the State of California, verified by affidavit.

Upon receiving a proper application, the assessor shall reassess the property according to its full cash value immediately after the damage or destruction. The assessor shall notify the applicant in writing of the amount of the proposed reassessment. The notice shall state that the applicant may appeal the proposed reassessment to the local board of equalization within 14 days of the date of mailing the notice. If an appeal is requested within the 14-day period, the board shall hear and decide the matter as if the proposed reassessment had been entered on the roll as an assessment made outside the regular assessment period. The decision of the board regarding the damaged value of the property shall be final, provided that a decision of the local board of equalization regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of the damage.

If the damaged full cash value of the property as determined above is not at least one thousand dollars (\$1,000) less than the full cash value shown on the assessment roll for the year in question, no adjustment shall be made to said roll and no taxes shall be canceled or refunded. Those reassessed values resulting from reductions in full cash value of at least one thousand dollars (\$1,000), as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, said reassessed values shall not be subject to review except by a court of competent jurisdiction.

The tax rate fixed for property on the roll on which the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the reassessment determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the tax shall be determined as follows:

(a) With respect to property on the secured roll a prorated portion of the tax due on the property as originally assessed

at the rate established for property on the secured roll for the current fiscal year, said prorate to be determined on the basis of the number of months in the year during which the property was in an undamaged condition plus a proration of the tax due on the property as reassessed in its damaged or destroyed condition at the rate established for property on the secured roll for the said fiscal year, said proration to be determined on the basis of the number of months in the year in which the property was in a damaged condition, including the month in which the damage was incurred.

(b) With respect to property on the unsecured roll, he shall be liable for a prorated portion of the tax computed on the original assessment of the property and a prorated portion of the tax computed on the reassessment of the property as determined in the preceding paragraph.

Any tax paid in excess of the total tax due shall be refunded to the taxpayer pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

This section applies to all counties, whether operating under a charter or under the general laws of this state. As used in this section "board of supervisors" includes the city council of any city which does its own assessing of property for tax purposes and collection of property taxes.

SEC. 2. For property damaged subsequent to March 1, 1969, counties not expressly reassessing damaged property pursuant to this act are conclusively presumed to be reassessing pursuant to other authority.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The disastrous storms and floods in the northern part of this state have damaged and destroyed property to such an extent that, unless relief is given to the owners of such property, there is grave danger that they will be unable to pay the taxes levied thereon. In order that property tax relief may be provided at the earliest possible time to persons in these stricken areas, it is necessary that this act go into immediate effect.

In any other case, and where the court determines that interest should not be recovered from a date prior to the entry of judgment under subdivision (b) of Section 3287 of the Civil Code, the clerk or judge shall include in the judgment entered up by him, any interest on the verdict or decision of the court, from the time it was rendered or made, and the costs, if the same have been taxed or ascertained. The clerk or judge shall, within two days after the costs are tried or ascertained, if not included in the judgment, insert the same in a blank left in the judgment for that purpose, and shall make a similar insertion of the costs in the copies.

A party dissatisfied with the costs claimed may, within 10 days after the service of a copy of the bill of costs, file a motion to have the same taxed by the court in which the judgment was rendered or by the judge thereof at chambers.

In superior courts, municipal courts, and justice courts a judgment creditor claiming costs or necessary disbursements reasonably incurred in aid of the collection of such judgment or of any execution issued thereon; other than those hereinbefore specified; including items which have been disallowed by the judge or referee in the supplemental proceeding, must serve the adverse party either personally or by mail and file at any time or times not more than six months after such item has been incurred, and prior to the time the judgment is fully satisfied, a notice of motion for an order allowing the same, specifying the items claimed and the amount thereof, and supported by an affidavit of the party or his attorney or agent, or by the clerk of his attorney, stating that to the best of his knowledge and belief the items are correct, and showing that the costs have been reasonable, and the disbursements reasonably and necessarily incurred. The court or judge hearing such motion shall make such order respecting the costs or disbursements so claimed as the circumstances justify, allowing the same in whole or in part, or disallowing the same.

Within two days after the said costs are tried or ascertained, or after the time for making a motion to tax the same shall have expired, the clerk or judge shall enter the amount thereof on the margin of the judgment, and thereafter they shall be included, together with the amount of the fee charged for issuance thereof, in any execution issued upon such judgment.

The people of the State of California do enact as follows:

SECTION 1. Section 394 of the Code of Civil Procedure is amended to read:

394. (1) An action or proceeding against a county, or city and county, or local agency, may be tried in such county, or city and county, or the county in which such local agency is

situated, unless such action or proceeding is brought by a county, or city and county, or local agency, in which case it may be tried in any county, or city and county, not a party thereto and in which the local agency is not situated. Whenever an action or proceeding is brought by a county, city and county, city, or local agency within a certain county, or city and county, against a resident of another county, city and county, or city, or a corporation doing business in the latter, the action or proceeding must be, on motion of either party, transferred for trial to a county, or city and county, other than the plaintiff, if the plaintiff is a county, or city and county, and other than that in which the plaintiff is situated, if the plaintiff is a city, or a local agency, and other than that in which the defendant resides, or is doing business, or is situated. Whenever an action or proceeding is brought against a county, city and county, city, or local agency, in any county, or city and county, other than the defendant, if the defendant is a county, or city and county, or, if the defendant is a city, or local agency, other than that in which the defendant is situated, the action or proceeding must be, on motion of the said defendant, transferred for trial to a county, or city and county, other than that in which the plaintiff, or any of the plaintiffs, resides, or is doing business, or is situated, and other than the plaintiff county, or city and county, or county in which such plaintiff city or local agency is situated, and other than the defendant county, or city and county, or county in which such defendant city or local agency is situated; provided, however, that any action or proceeding against the city, county, city and county, or local agency for injury occurring within the city, county, or city and county, or within the county in which such local agency is situated, to person or property or person and property caused by the negligence or alleged negligence of such city, county, city and county, local agency, or its agents or employees, shall be tried in such county, or city and county, or if a city is a defendant, in such city or in the county in which such city is situated, or if a local agency is a defendant, in such county in which such local agency is situated. When the action or proceeding is one in which a jury is not of right, or in case a jury be waived, then in lieu of transferring the cause the court in the original county may request the chairman of the judicial council to assign a disinterested judge from a neutral county to hear said cause and all proceedings in connection therewith. When such action or proceeding is transferred to another county for trial, a witness required to respond to a subpoena for a hearing within the original county shall be compelled to attend hearings in the county to which the cause is trans-

ferred. If the demand for transfer be made by one party and the opposing party does not consent thereto the additional costs of the nonconsenting party occasioned by the transfer of the cause, including living and traveling expenses of said nonconsenting party and material witnesses, found by the court to be material, and called by such nonconsenting party, not to exceed five dollars per day each in excess of witness fees and mileage otherwise allowed by law, shall be assessed by the court hearing the cause against the party requesting the transfer. To the extent of such excess, such costs shall be awarded to the nonconsenting party regardless of the outcome of the trial. This section shall apply to actions or proceedings now pending or hereafter brought.

(2) Any court in a county hereinabove designated as a proper county, which has jurisdiction of the subject matter of the action or proceeding, is a proper court for the trial thereof.

(3) For the purposes of this section, "local agency" shall mean any governmental district, board, or agency, or any other local governmental body or corporation, but shall not include the State of California or any of its agencies, departments, commissions, or boards.

Such recorded statement, or a copy thereof certified by any recorder in whose office it or a copy thereof so certified is recorded, may be recorded in any other county or counties. The statement shall set forth the name of the partnership and the name of each of the partners, and shall state that the partners named are all of the partners. If a partnership is not dissolved by the death or by the withdrawal of a partner by reason of an agreement provided for in subdivision (4) or (7) of Section 15031 the statement or amended statement may state the name and date of death or withdrawal of such deceased or withdrawing (whether voluntarily or involuntarily according to the terms of the agreement) partner and that the partnership was not dissolved by reason of such death or withdrawal because of the existence of such agreement.

It shall be conclusively presumed, in favor of any bona fide purchaser for value of the partnership real property located in a county in which such statement or such certified copy thereof has been recorded, that the persons named as partners therein are members of the partnership named and that they are all of the members of the partnership, and that any partner stated to be dead is deceased, and any partner stated to have withdrawn has withdrawn therefrom, and that the partnership was not dissolved by reason of such death or withdrawal, unless there is recorded by anyone claiming to be a partner, or a personal representative, whether executor, administrator, guardian or conservator, of such partner, a statement of partnership, verified and acknowledged by the person executing it, which shall set forth the name of the partnership, a statement that such person claims to be a member of such partnership, or a personal representative of such member, or a statement that any of the persons named in a previously recorded statement of partnership are not members of such partnership.

(2) As used in this section and in Section 15010, "conveyance" includes every instrument in writing by which any

estate or interest in real estate is created, aliened, mortgaged, or encumbered, or by which the title to any real property may be affected, except wills; "convey" includes the execution of any such instrument; and "purchaser" includes any person acquiring an interest under any such instrument.

[Approved by Governor August 5, 1970 Filed with
Secretary of State August 5, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 23002 of the Corporations Code is amended to read:

23002. A qualification of the sale of securities by the Commissioner of Corporations finding that an unincorporated trust or association is a real estate investment trust shall be conclusive evidence thereof, so far as Section 23001 is concerned, as to all persons who become shareholders or beneficiaries of the unincorporated trust or association after the effective date of the qualification and prior to its suspension or revocation, if any, and as to all obligations of the unincorporated trust or association arising after the effective date of this part, whether they arose before or after the effective date of the qualification, and prior to suspension or revocation of the qualification. Expiration of the effective period of the qualification shall not be deemed a suspension or revocation within the meaning of this section.

SEC. 2. Section 25102 of the Corporations Code is amended to read:

25102. The following transactions are exempted from the provisions of Section 25110:

(a) Any offer (but not a sale) not involving any public offering and the execution and delivery of any agreement for

the sale of securities pursuant to such offer if (1) the agreement contains substantially the following provision: "The sale of the securities which are the subject of this agreement has not been qualified with the Commissioner of Corporations of the State of California and the issuance of such securities or the payment or receipt of any part of the consideration therefor prior to such qualification is unlawful. The rights of all parties to this agreement are expressly conditioned upon such qualification being obtained."; and (2) no part of the purchase price is paid or received and none of the securities are issued until the sale of such securities is qualified under this law.

(b) Any offer (but not a sale) of a security for which a registration statement has been filed under the Securities Act of 1933 but has not yet become effective, if no stop order or refusal order is in effect and no public proceeding or examination looking toward such an order is pending under Section 8 of such act and no order under Section 25140 or subdivision (a) of Section 25143 is in effect under this law.

(c) Any offer (but not a sale) and the execution and delivery of any agreement for the sale of securities pursuant to such offer as may be permitted by the commissioner upon application. Any negotiating permit under this subdivision shall be conditioned to the effect that none of the securities may be issued and none of the consideration therefor may be received or accepted until the sale of such securities is qualified under this law.

(d) Any transaction or agreement between the issuer and an underwriter or among underwriters if the sale of the securities is qualified prior to distribution thereof in this state, if any.

(e) Any offer or sale of any evidence of indebtedness, whether secured or unsecured, and any guarantee thereof, in a transaction not involving any public offering.

(f) Any offer or sale, in a transaction not involving any public offering, of any bona fide general partnership, joint venture or limited partnership interest, or any beneficial interest in a trust which is a "security" within the meaning of Section 25019, if in the case of such beneficial trust interests immediately after the sale and issuance they are owned by no more than five persons.

(g) Any offer or sale of conditional sale agreements, equipment trust certificates, or certificates of interest or participation therein or partial assignments thereof, covering the purchase of railroad rolling stock or equipment or the purchase of motor vehicles, aircraft, or parts thereof, in a transaction not involving any public offering.

(h) Any offer or sale of voting common stock by a corporation incorporated in California if, immediately after the proposed sale and issuance, there will be only one class of stock of such corporation outstanding which is owned beneficially by no more than five persons, provided all of the following requirements have been met:

(1) All such stock shall be evidenced by certificates which shall have stamped or printed prominently on their face a legend in a form to be prescribed by rule of the commissioner restricting transfer of such stock in such manner as the rule provides.

(2) The offer and sale of such stock is not accompanied by the publication of any advertisement, and no selling expenses have been given, paid, or incurred in connection therewith.

(3) The consideration to be received by the issuer for the stock to be issued shall consist of (i) only assets (which may include cash) of an existing business enterprise transferred to the issuer upon its initial organization, of which all of the persons who are to receive the stock to be issued pursuant to this exemption were owners during, and such enterprise was operated for, a period of not less than one year immediately preceding the proposed issuance, and the ownership of such enterprise immediately prior to such proposed issuance was in the same proportions as the shares of stock are to be issued, or (ii) only cash or cancellation of indebtedness for money borrowed or both upon the initial organization of the issuer, provided all such stock is issued for the same price per share, or (iii) only cash, provided the sale is approved in writing by each of the existing shareholders and the purchaser or purchasers are existing shareholders, or (iv), in a case where after the proposed issuance there will be only one owner of the stock of the issuer, any legal consideration.

(4) No promotional consideration has been given, paid, or incurred in connection with such issuance. Promotional consideration means any consideration paid directly or indirectly to a person who, acting alone or in conjunction with one or more other persons, takes the initiative in founding and organizing the business or enterprise of an issuer, for services rendered in connection with such founding or organizing.

(5) A notice in a form prescribed by rule of the commissioner, signed by the proposed issuees of the securities and by the officers and directors of the issuer under penalty of perjury and stating only the name and principal business address of the issuer and the facts required by this subdivision to establish this exemption, shall be filed with or mailed for filing to the commissioner not later than the day on which such securities are issued, which notice shall contain an opinion signed by an active member of the State Bar of California to the effect that on the basis of the facts stated in the notice it is his opinion that the exemption provided by this subdivision is available for the proposed offer and sale of securities.

For the purposes of this subdivision, all securities held by a husband and wife, whether or not jointly, shall be considered to be owned by one person, and all securities held by a corporation which has issued stock pursuant to this exemption shall be considered to be held by the shareholders to whom it has issued such stock.

(i) Any offer or sale (1) to a bank, savings and loan association, trust company, insurance company, investment company registered under the Investment Company Act of 1940, pension or profit-sharing trust (other than a pension or profit-sharing trust of the issuer), or such other institutional investor or governmental agency or instrumentality as the commissioner may designate by rule, whether the purchaser is acting for itself or as trustee, or (2) to any corporation with outstanding securities registered under Section 12 of the Securities Exchange Act of 1934 or any wholly owned subsidiary of such a corporation which after the offer and sale will own directly or indirectly 100 percent of the outstanding capital stock of the issuer; provided the purchaser represents that it is purchasing for its own account (or for such trust account) for investment and not with a view to or for sale in connection with any distribution of the security.

(j) Any offer or sale of any certificate of interest or participation in an oil or gas title or lease (including subsurface gas storage and payments out of production) if (1) all of the purchasers: (i) are and have been during the preceding two years engaged primarily in the business of drilling for, producing, or refining oil or gas (or whose corporate predecessor, in the case of a corporation, has been so engaged), or (ii) are persons described in clause (1) of subdivision (i) of this section, or (iii) have been found by the commissioner upon written application to be substantially engaged in the business of drilling for, producing or refining oil or gas so as not to require the protection provided by this law (which finding shall be effective until rescinded), or (2) such security is concurrently hypothecated to a bank in the ordinary course of business to secure a loan made by such bank; provided each purchaser represents that it is purchasing for its own account for investment and not with a view to or for sale in connection with any distribution of the security.

(k) Any offer or sale of any security under, or pursuant to, a plan of reorganization or arrangement which, pursuant to the provisions of the National Bankruptcy Act, has been confirmed or is subject to confirmation by the decree or order of a court of competent jurisdiction.

(l) Any offer or sale of an option, warrant, put, call, or straddle by a person who is not the issuer of the security subject to such right, if the transaction, had it involved an offer or sale of the security subject to such right by such person, would not have violated Section 25130.

SEC. 3. Section 25104 of the Corporations Code is amended to read:

25104. The following transactions are exempted from the provisions of Section 25130:

(a) Any offer or sale of a security by the bona fide owner thereof for his own account if the sale (1) is not accompanied by the publication of any advertisement and (2) is not effected by or through a broker-dealer in a public offering.

(b) Any offer or sale effected by or through a licensed broker-dealer pursuant to an unsolicited order or offer to buy. For the purpose of this subdivision (b) an inquiry regarding a written bid for a security or a written solicitation of an offer to sell a security made by another broker-dealer within the previous 60 days, shall not be considered the solicitation of an order or offer to buy.

(c) Any offer or sale to a bank, savings and loan association, trust company, insurance company, investment company registered under the Investment Company Act of 1940, pension or profit-sharing trust (other than a pension or profit-sharing trust of the issuer), or such other institutional investor or governmental agency or instrumentality as the commissioner may designate by rule, whether the purchaser is acting for itself or as trustee; provided the purchaser represents that it is purchasing for its own account (or for such trust account) for investment and not with a view to or for sale in connection with any distribution of the security.

(d) Any transaction or agreement between a person on whose behalf an offering is made and an underwriter or among underwriters, if the sale of the securities is qualified prior to distribution thereof in this state, if any.

(e) Any offer or sale of any security by or for the account of a bona fide secured party selling the security in the ordinary course of business to liquidate a bona fide debt.

(f) Any transaction by an executor, administrator, sheriff, marshal, receiver, trustee in bankruptcy, guardian or conservator.

(g) Any offer (but not a sale) of a security for which a registration statement has been filed under the Securities Act of 1933 but has not yet become effective, if no stop order or refusal order is in effect and no public proceeding or examination looking toward such an order is pending under Section 8 of that act and no order under Section 25140 or subdivision (a) of Section 25143 is in effect under this law.

(h) Any offer or sale of a security if a qualification under Chapter 2 (commencing with Section 25110) of this part for any securities of the same class has become effective within 18 months prior to such offer or sale or if a qualification under Chapter 3 (commencing with Section 25120) or Chapter 4 (commencing with Section 25130) of this part for any securities of the same class has become effective within 12 months prior to such offer or sale, provided no order under Section 25140 or subdivision (a) of Section 25143 is in effect under this law with respect to such qualification. The commissioner may, by rule or order, withhold this exemption with respect to securities qualified only pursuant to a limited offering qualification.

SEC. 4. Section 25111 of the Corporations Code is amended to read:

25111. (a) Any security for which a registration statement has been filed under the Securities Act of 1933 in connection

with the same offering may be qualified by coordination under this section either in an issuer or nonissuer transaction.

(b) An application for qualification under this section shall contain the following information and be accompanied by the following documents, in addition to the information specified in Section 25160 and the consent to service of process required by Section 25165: (1) a copy of the registration statement under the Securities Act of 1933, together with all exhibits (other than exhibits incorporated by reference and those specified by rule of the commissioner, unless requested by the commissioner); and (2) an undertaking to forward to the commissioner all future amendments to the registration statement under the Securities Act of 1933, other than an amendment which merely delays the effective date of the registration statement, promptly and in any event not later than the first business day after the day they are forwarded to or filed with the Securities and Exchange Commission, whichever first occurs. Such application must be filed with the commissioner not later than the fifth business day following filing of the registration statement with the Securities and Exchange Commission, unless such time is extended by rule or order of the commissioner.

(c) Qualification of the sale of securities under this section automatically becomes effective (and the securities may be offered and sold in accordance with the terms of the application as amended) at the moment the federal registration statement becomes effective if all the following conditions are satisfied: (1) no stop order or order under subdivision (a) of Section 25143 is in effect under this law; (2) the application has been on file with the commissioner for at least 10 days; and (3) a statement of the maximum and minimum proposed offering prices and the maximum underwriting discounts and commissions has been on file for two business days or such shorter period as the commissioner permits by rule or order and the offering is made within those limitations. The applicant shall promptly notify the commissioner by telephone or telegram of the date and time when the federal registration statement became effective and the content of the price amendment, if any, and shall promptly file a posteffective amendment to the application containing the information and documents in the price amendment. "Price amendment" means the final federal amendment which includes a statement of the offering price, underwriting and selling discounts or commissions, amount of proceeds, interest, dividend or conversion rates, call prices and other matters related to the offering price. Upon failure to receive the required notification and posteffective amendment with respect to the price amendment, the commissioner may enter a stop order, without notice or hearing, retroactively denying effectiveness to the application for qualification or suspending its effectiveness until compliance with this subdivision, if he promptly notifies the applicant by telephone or telegram (and promptly confirms by letter or telegram when

he notifies by telephone) of the issuance of the order. If the applicant proves compliance with the requirements of this subdivision as to notice and posteffective amendment, the stop order is void as of the time of its entry. The commissioner may by rule or order waive either or both of the conditions specified in clauses (2) and (3) of this subdivision. If the federal registration statement becomes effective before all the conditions in this subdivision are satisfied and they are not waived, the application for qualification automatically becomes effective as soon as all the conditions are satisfied. If the applicant advises the commissioner of the date when the federal registration statement is expected to become effective, the commissioner shall promptly advise the applicant by telephone or telegram, at the applicant's expense, whether all the conditions are satisfied and whether he then contemplates the institution of a proceeding under Section 25140 or 25143; but this advice by the commissioner does not preclude the institution of such a proceeding at any time.

SEC. 5. Section 25115 of the Corporations Code is amended to read:

25115. Every application for qualification of an issuer transaction under this chapter shall be signed and verified by the issuer; every application for qualification of a nonissuer transaction under Section 25111 shall be signed and verified by the person on whose behalf the offering is being made or by the issuer on behalf of such person.

SEC. 6. Section 25503 of the Corporations Code is amended to read:

25503. Any person who violates Section 25110, 25120 or 25130 shall be liable to any person acquiring from him the security sold in violation of such section, who may sue to recover the consideration he paid for such security with interest thereon at the legal rate, less the amount of any income received therefrom, upon the tender of such security, or for damages (if he no longer owns the security) equal to the difference between (a) his purchase price plus interest at the legal rate from the date of purchase and (b) the value of the security at the time it was disposed of by the plaintiff plus the amount of any income received therefrom by the plaintiff. Any person who violates Section 25120 shall be liable to any person acquiring from him the security sold in violation of such section who may sue to recover the difference between (a) the value of the consideration received by the seller and (b) the value of the security at the time it was received by the buyer, with interest thereon at the legal rate from the date of purchase. Any person on whose behalf an offering is made and any underwriter of the offering, whether on a best efforts or a firm commitment basis, shall be jointly and severally liable under this section, but in no event shall any underwriter (unless such underwriter shall have knowingly received from the issuer for acting as an underwriter some benefit, directly or indirectly, in which all other underwriters similarly situated did not share

in proportion to their respective interest in the underwriting) be liable in any suit or suits authorized under this section for damages in excess of the total price at which the securities underwritten by him and distributed to the public were offered to the public. Any tender specified in this section may be made at any time before entry of judgment. No person shall be liable under this section if the sale of the security is qualified prior to the payment or receipt of any part of the consideration for the security sold, even though an offer to sell or a contract of sale may have been made or entered into without qualification.

SEC. 7. Section 25507 of the Corporations Code is amended to read:

25507. (a) No action shall be maintained to enforce any liability created under Section 25503 (or Section 25504 insofar as it relates to that section) unless brought before the expiration of two years after the violation upon which it is based or the expiration of one year after the discovery by the plaintiff of the facts constituting such violation, whichever shall first expire.

(b) No buyer may commence an action under Section 25503 (or Section 25504 insofar as it relates to that section) if, before suit is commenced, such buyer shall have received a written offer approved as to form by the commissioner (1) stating the respect in which liability under such section may have arisen, (2) offering to repurchase the security for a cash price payable upon delivery of the security or offering to pay the buyer an amount in cash equal in either case to the amount recoverable by the buyer in accordance with Section 25503, or, offering to rescind the transaction by putting the parties back in the same position as before the transaction, (3) providing that such offer may be accepted by the buyer at any time within a specified period of not less than 30 days after the date of receipt thereof, (4) setting forth the provisions of this subdivision (b), and (5) containing such other information as the commissioner may require by rule or order, and such buyer shall have failed to accept such offer in writing within the specified period after receipt thereof.

17919. (a) A fictitious business name statement may be executed, filed, and published by the trustee in bankruptcy at any time after bankruptcy where a failure to comply with the provisions of this chapter would otherwise preclude the maintenance of an action to recover any sums due to the bankrupt or the partnership of which the bankrupt was a member.

(b) A fictitious business name statement may be executed, filed, and published by the guardian, conservator, executor, or administrator at any time after the incompetency or death of any individual or partner where a failure to comply with the provisions of this chapter would otherwise preclude the maintenance of an action to recover any sums due the incompetent or deceased person or the partnership of which he was a member.

(b) Except as provided in Section 17923, a fictitious business name statement expires 40 days after any change in the facts set forth in the statement pursuant to Section 17913, except that a change in the residence address of an individual,

general partner, or trustee does not cause the statement to expire.

(c) A fictitious business name statement expires when the registrant files a statement of abandonment of the fictitious business name described in the statement.

17921. (a) Not later than the first day of December immediately preceding the expiration date of a fictitious business name statement as determined under subdivision (a) of Section 17920, the county clerk shall send a notice to the principal place of business of the registrant. The statement shall be published in the same manner as a fictitious business name statement and an affidavit showing its publication shall be filed with the county clerk after the completion of publication.

(b) The statement shall include:

659. The party intending to move for a new trial must file with the clerk and serve upon each adverse party a notice of his intention to move for a new trial, designating the grounds upon which the motion will be made and whether the same will be made upon affidavits or the minutes of the court or both, either

SEC. 2. Section 660 of the Code of Civil Procedure is amended to read:

On the hearing of such motion, reference may be had in all cases to the pleadings and orders of the court on file, and when the motion is made on the minutes, reference may also be had to any depositions and documentary evidence offered at the trial and to the report of the proceedings on the trial taken by the phonographic reporter, or to any certified transcript of such report or if there be no such report or certified transcript, to such proceedings occurring at the trial as are within the recollection of the judge; when the proceedings at the trial have been phonographically reported, but the reporter's notes have not been transcribed, the reporter

Except as otherwise provided in Section 12a of this code, the power of the court to rule on a motion for a new trial shall expire 60 days from and after the mailing of notice of entry of judgment by the clerk of the court pursuant to Section 664.5 or 60 days from and after service on the moving party by any party of written notice of the entry of the judgment, whichever is earlier, or if such notice has not theretofore been given, then 60 days after filing of the first notice of intention to move for a new trial. If such motion is not determined within said period of 60 days, or within said period as thus extended, the effect shall be a denial of the motion without further order of the court. A motion for a new trial is not determined within the meaning of this section until an order ruling on the motion (1) is entered in the permanent minutes of the court or (2) is signed by the judge and filed with the clerk. The entry of a new trial order in the permanent minutes of the court shall constitute a determination of the motion even though such minute order as entered expressly directs that a written order be prepared, signed and filed. The minute entry shall in all cases show the date on which the order actually is entered in the permanent minutes, but failure to comply with this direction shall not impair the validity or effectiveness of the order.

In a case in which the minor is alleged to be a person described in Section 601 or 602, the court shall appoint counsel for the minor if he appears at the hearing without counsel, whether he is unable to afford counsel or not, unless there is an intelligent waiver of the right of counsel by the minor; and, in the absence of such waiver, if the parent or guardian does not furnish counsel and the court determines that the parent or guardian has the ability to pay for counsel, the court shall appoint counsel at the expense of the parent or guardian. The judge shall ascertain whether the minor and his parent or guardian or adult relative, as the case may be, has been informed of the right of the minor to be represented by counsel, and if not, the judge shall advise the minor and such person, if present, of the right to have counsel present and where applicable, of the right to appointed counsel. If such person is unable to afford counsel and desires to have the minor represented by counsel, the court may in a case in which the minor is alleged to be within the provisions of Section 600, appoint counsel to represent the minor. In a case in which the minor is alleged to be a person described in Section 601 or 602, the court shall appoint counsel to represent the minor if he appears at the hearing without counsel, whether he is unable to afford counsel or not, unless there is an intelligent waiver of the right of counsel by the minor; and, in the absence of such waiver, if the parent or guardian does not furnish counsel and the court determines that the parent or guardian has the ability to pay for counsel, the court shall appoint counsel at the expense of the parent or guardian. The court shall continue the hearing for not to exceed seven days, as necessary to make an appointment of counsel, or to enable counsel to acquaint himself with the case, or to determine whether the parent or guardian or adult relative is unable to afford counsel at his own expense, and shall continue the hearing as necessary to provide reasonable opportunity for the minor and the parent or guardian or adult relative to prepare for the hearing.

CHAPTER 629

An act to amend Sections 11543, 11543.5, 11543.6, and 11544 of the Business and Professions Code, relating to the Subdivision Map Act.

[Approved by Governor August 6, 1970. Filed with
Secretary of State August 6, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 11543 of the Business and Professions Code is amended to read:

11543. Whenever a local ordinance requires that a subdivider install sanitary sewers, drains, or other facilities for sewers and drains as a condition precedent to the acceptance of a final map, and where, in the opinion of the governing body it is necessary that laterals or other facilities be constructed which can be, or will be, used for the benefit of property not in the subdivision, and such sanitary sewers, drains, or other facilities are dedicated to the public, the governing body may by contract with the subdivider agree to reimburse and may reimburse the subdivider for such lateral or other facility. Such contract shall provide that the governing body may collect from any person using such lateral or other facil-

ity for the benefit of property not within such subdivision a reasonable charge for such use.

SEC. 2. Section 11543.5 of the Business and Professions Code is amended to read:

11543.5. A local ordinance may require the payment of fees as a condition of approval of a final subdivision map for purposes of defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and storm waters from local or neighborhood drainage areas, and of constructing planned sanitary sewer facilities for local sanitary sewer areas.

Such local ordinances may require payment of fees pursuant to this section if:

(1) The ordinance was adopted 30 days prior to the filing of the tentative map of any subdivision for which payment of fees is required;

(2) The ordinance refers to a drainage or sanitary sewer plan adopted for a particular drainage or sanitary sewer area, which contains an estimate of the total costs of constructing the local drainage or sanitary sewer facilities required by the plan, and a map of such area showing its boundaries and the location of such facilities;

(3) The drainage or sanitary sewer plan, in the case of a city situated in a county having a countywide general drainage or sanitary sewer plan, has been determined by resolution of the governing body of the county to be in conformity with such a county plan, or in the case of a city situated in a county not having such a plan but in a district having such a plan, has been determined by resolution of the governing body of the district to be in conformity with the district general plan, or in the case of a city situated in a county having such a plan and in a district having such a plan, has been determined by resolution of the governing body of the county to be in conformity with such a plan and by resolution of the governing body of the district to be in conformity with the district general plan;

(4) The costs, whether actual or estimated, are based upon findings by the governing body that subdivision and development of property within the planned local drainage area or local sanitary sewer area will require construction of the facilities described in the drainage or sewer plan, and that the fees are fairly apportioned within such areas either on the basis of benefits conferred on property proposed for subdivision or on the need for such facilities created by the proposed subdivision and development of other property within such areas;

(5) The fee as to any property proposed for subdivision within such a local area does not exceed the pro rata share of the amount of the total actual or estimated costs of all facilities within such area which would be assessable on such property if such costs were apportioned uniformly on a per-acre basis.

(6) The drainage or sanitary sewer facilities planned are in addition to existing facilities serving the area at the time of the adoption of such a plan for the area.

Fees required by an ordinance adopted pursuant to this section for planned local drainage or sanitary sewer facilities shall be paid into a "planned local drainage facilities fund" and a "planned local sanitary sewer fund," respectively. Separate funds shall be established for each local drainage and sanitary sewer area. Moneys in such funds shall be expended solely for the construction or reimbursement for construction of local drainage or sanitary sewer facilities within the area from which the fees comprising the fund were collected, or to reimburse the county or city for the cost of engineering and administrative services to form the district and design and construct the facilities. An ordinance adopted pursuant to this section may provide for the acceptance of cash or other consideration in lieu of the payment of fees.

A county or city imposing fees pursuant to this section may advance money from its general fund to pay the costs of constructing such facilities within a local drainage or sanitary sewer area and reimburse the general fund for such advances from the planned local drainage or sanitary sewer facilities fund for the local drainage or sanitary sewer area in which the drainage or sanitary sewer facilities were constructed.

A county or city imposing fees pursuant to this section may incur an indebtedness for the construction of drainage or sanitary sewer facilities within a local drainage or sanitary sewer area; provided that the sole security for repayment of such indebtedness shall be moneys in the planned local drainage or sanitary sewer facilities fund.

SEC. 3. Section 11543.6 of the Business and Professions Code is amended to read:

11543.6. Any city or county within a local drainage or sanitary sewer area may adopt the plan and map designated in Section 11543.5 and impose a reasonable charge on property within the area which, in the opinion of the legislative body, is benefited by the drainage or sanitary sewer facilities. The charge collected must be paid to the county, city, or subdivider constructing the drainage or sanitary sewer facilities pursuant to Sections 11543 or 11543.5, and any city or county within the drainage or sanitary sewer area may enter into a reimbursement agreement with the subdivider.

SEC. 4. Section 11544 of the Business and Professions Code is amended to read:

11544. Whenever the governing body has reimbursed or agreed to reimburse a subdivider or school district for the construction of a drainage or sanitary sewer lateral or other facility, or any facilities contemplated by Section 15007 of the Education Code, which can or will be used by persons for the benefit of property other than that being subdivided by such subdivider, or for the benefit of property outside of a school

site belonging to the school district, such governing body may impose and collect for such use a reasonable charge.

SEC. 5. Section 11543.5 of the Business and Professions Code is amended to read:

11543.5. A local ordinance may require the payment of fees as a condition of approval of a final subdivision map, or parcel map for a division of land not defined as a subdivision, for purposes of defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and storm waters from local or neighborhood drainage areas and of constructing planned sanitary sewer facilities for local sanitary sewer areas.

Such local ordinances may require payment of fees pursuant to this section if:

(1) The ordinance was adopted 30 days prior to the filing of the tentative map of any subdivision, or the filing of a parcel map for a division of land not defined as a subdivision, for which payment of fees is required:

(2) The ordinance refers to a drainage or sanitary sewer plan adopted for a particular drainage or sanitary sewer area, which contains an estimate of the total costs of constructing the local drainage or sanitary sewer facilities required by the plan, and a map of such area showing its boundaries and the location of such facilities;

(3) The drainage or sanitary sewer plan, in the case of a city, situated in a county having a countywide general drainage or sanitary sewer plan, has been determined by resolution of the governing body of the county to be in conformity with such a county plan, or in the case of a city situated in a county not having such a plan but in a district having such plan, has been determined by resolution of the governing body of the district to be in conformity with the district general plan, or in the case of a city situated in a county having such a plan and in a district having such a plan, has been determined by resolution of the governing body of the county to be in conformity with such a plan and by resolution of the governing body of the district to be in conformity with the district general plan;

(4) The costs, whether actual or estimated, are based upon findings by the governing body that subdivision, or division of land not defined as a subdivision, and development of property within the planned local drainage area or local sanitary sewer area will require construction of the facilities described in the drainage or sewer plan, and that the fees are fairly apportioned within such areas either on the basis of benefits conferred on property proposed for subdivision or other division or on the need for such facilities created by the proposed subdivision or other division and development of other property within such areas;

(5) The fee as to any property proposed for subdivision within such a local area does not exceed the pro rata share of the amount of the total actual or estimated costs of all facilities

within such area which would be assessable on such property if such costs were apportioned uniformly on a per-acre basis.

(6) The drainage or sanitary sewer facilities planned are in addition to existing facilities serving the area at the time of the adoption of such plan for the area.

Fees required by an ordinance adopted pursuant to this section for planned local drainage or sanitary sewer facilities shall be paid into a "planned local drainage facilities fund" and a "planned local sanitary sewer fund," respectively. Separate funds shall be established for each local drainage and sanitary sewer area. Moneys in such funds shall be expended solely for the construction or reimbursement for construction of local drainage or sanitary sewer facilities within the area from which the fees comprising the fund were collected, or to reimburse the county or city for the cost of engineering and administrative services to form the district and design and construct the facilities. An ordinance adopted pursuant to this section may provide for the acceptance of cash or other consideration in lieu of the payment of fees.

A county or city imposing fees pursuant to this section may advance money from its general fund to pay the costs of constructing such facilities within a local drainage or sanitary sewer area and reimburse the general fund for such advances from the planned local drainage or sanitary sewer area in which the drainage or sanitary sewer facilities were constructed.

A county or city imposing fees pursuant to this section may incur an indebtedness for the construction of drainage or sanitary sewer facilities within a local drainage or sanitary sewer area; provided that the sole security for repayment of such indebtedness shall be moneys in the planned local drainage or sanitary sewer facilities fund.

SEC. 6. It is the intent of the Legislature, if amendments to Section 11543.5 of the Business and Professions Code proposed both by this bill and Assembly Bill 899 are enacted, that both amendments be given effect and incorporated in Section 11543.5 in the form set forth in Section 5 of this act. Therefore, in the event Assembly Bill 899 is enacted and amends Section 11543.5, Section 5 of this act shall become operative at the same time that Section 11543.5 as amended by Assembly Bill 899 becomes operative, and at that time, Section 11543.5 of the Business and Professions Code as amended by Section 2 of this act is repealed.

The people of the State of California do enact as follows:

SECTION 1. Section 23358 of the Business and Professions Code is amended to read:

23358. Licensed winegrowers, notwithstanding any other provisions of this division, may also sell wine and brandy to any person holding a license authorizing the sale of wine or brandy, and to consumers for consumption off the premises where sold, and may also sell only wine and brandy to consumers for consumption on the premises in a bona fide eating place as defined in Section 23038 of this code, which is located on the licensed premises or on premises owned by the licensee that are contiguous to the licensed premises and which is operated by and for the licensee. At such bona fide public eating place wine and brandy may be used in the preparation of food and beverages to be consumed on the premises. A winegrower shall actually produce on his licensed premises by conversion of grapes, berries or other fruit, into wine, not less than 50 percent of all wines sold to consumers on his licensed premise or premises and any licensed branch premise or premises.

The department may, if it shall determine for good cause that the granting of such privilege would be contrary to public welfare or morals, deny the right to exercise the on-sale privilege authorized by this section in any bona fide eating place

The department shall upon request issue to a winegrower or brandy manufacturer a duplicate of his original license for a location or locations other than his wine production or brandy manufacture premises. The duplicate license authorizes the maintenance and operation of each branch or warehouse or United States bonded wine cellar declared and designated by the winegrower or brandy manufacturer at the location for which the duplicate license is issued. The fee for each duplicate winegrower's license is an amount equal to the license fee payable for a like period for a wholesale beer and wine license, and for each duplicate brandy manufacturer's license an amount equal to the fee paid for the original license.

Notwithstanding the provisions of any other section of this division, a duplicate winegrower's license or duplicate brandy manufacturer's license shall be issued forthwith upon the application therefor. In the event any protest is received by the department concerning the issuance of such duplicate license, the protest shall be considered as an accusation against the licensee and a hearing had thereon as if an accusation had been filed.

For 30 days from the date of the issuance of such duplicate license, no retail sales of wine or brandy shall be made at any branch office for which a duplicate winegrower's license or duplicate brandy manufacturer's license is issued pursuant to this section.

[Approved by Governor August 10, 1970. Filed with
Secretary of State August 10, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1825 of the Education Code is amended to read:

1825. Whenever in the creation or dissolution of a school district, or the change of boundaries thereof, pursuant to any provision of Division 5 of this code, an existing district having outstanding bonded indebtedness is divided between two or more districts, whether or not previously existing, the territory of the district so divided as constituted prior to said division, shall remain liable for the outstanding bonded indebtedness of said district existing at the time of said division, and said territory shall, except as otherwise provided in this section, be liable for taxation for the repayment of principal and interest on said outstanding bonded indebtedness until the same is fully retired.

(a) Whenever in the creation or dissolution of a school district, or the change of boundaries thereof, pursuant to any provision of Division 5 of this code, an existing district having outstanding bonded indebtedness is divided between two or more districts, and as a result of said division, real property and improvements thereon, if any, which are the property of the divided district are transferred to one or more new or existing districts, the county superintendent of schools

shall, for each acquiring district, calculate a "bond factor" to be computed as follows:

(1) The county superintendent of schools shall separately appraise the fair market value as of the date the action of division is complete, of all parcels of real property and improvements thereon, if any, which are the property of the divided district on said date, and thereafter compute the total fair market value of all real property and improvements thereon, if any, which are the property of the divided district on the date the action of division is complete, which total shall be the denominator of each "bond factor" computation;

(2) The county superintendent of schools shall then compute the total fair market value as appraised of those parcels of real property and improvements thereon, if any, to be acquired from the divided district by each acquiring district, which total shall be the numerator of the bond factor calculated for each acquiring district.

(b) The county superintendent of schools shall multiply each bond factor computed pursuant to subdivision (a) of this section, by the total principal of bonded indebtedness, and interest thereon to maturity, of the divided district outstanding as of the date the action of division is complete, and shall certify to each acquiring district the amount resulting from the multiplication of the bond factor computed for said acquiring district as herein provided. The amount so certified to each acquiring district shall be designated "use charge."

(c) Beginning the fiscal year in which the aforementioned action or division is effective for all purposes the district acquiring the real property and improvements thereon, if any, as herein provided, shall pay annually to the county superintendent of schools for deposit in a separate fund that portion of the use charge certified as herein provided equal to the amount which would be annually required to pay principal of and interest on that portion of the bonded indebtedness of the divided district outstanding as of the date the action of division is effective for all purposes as represented by the use charge certified as herein annually the amounts deposited in said fund as herein provided for the payment of principal of and interest on the outstanding bonded indebtedness of the divided district. To the extent that said annual payments to the county superintendent of schools are sufficient to pay the principal of and interest on said outstanding bonded indebtedness as the same become due, the territory of the divided district shall not be taxed therefor.

(d) The annual payment required by the provisions of subdivision (c) hereinabove to be made by the acquiring district shall be designated the "use payment". Beginning the fiscal year in which the action of division is effective for all purposes, the county board of supervisors shall, each year, levy a tax upon the territory of the acquiring district in an amount sufficient to enable said district to make the annual use payment as hereinabove provided. Said tax shall be in

addition to any other taxes authorized by law or by election.

(e) Notwithstanding any other provision of this code, for purposes of the State School Building Aid Law, that amount of outstanding bonded indebtedness of the divided district equal to what would have been certified as the use charge, if the same had been computed without reference to any interest on the principal of the bonded indebtedness, shall be considered a liability of the district liable for the use payment for purposes of computing bonding capacity of said district.

(f) When a use charge certified as herein provided has been paid in full, the use payments herein provided shall cease.

(g) If an existing high school district is divided and a unified school district is formed from the territory within such high school district, and such division and formation is effective for all purposes on July 1, 1969, the county superintendent of schools, in computing the bond factor pursuant to subdivision (a) of this section, shall include in the appraisal of real property and improvements an amount equal to the funds of the high school district which are required to be expended for a project pursuant to Chapter 10 (commencing with Section 19551) of Division 14.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the bonding capacities of reorganized school districts be calculated in a uniform manner at the earliest possible date to determine qualifications for loans under the School Building Bond Aid Law, it is necessary that this act take effect immediately.

28827. Clean toilet facilities, in good repair, shall be provided for employees in each food establishment. The number of toilet facilities required shall be in accordance with local building and plumbing ordinances. Toilet rooms shall be separated by well-fitted, self-closing doors that prevent passage of flies, dust, or odors.

Hand washing facilities, in good repair, shall be provided for employees within or adjacent to toilet rooms and shall be equipped with an adequate supply of hot and cold running water under pressure from a combination faucet, or tepid water from a premixing faucet, which supply warm water while both hands are free for washing. Hand washing detergent or soap, single-use sanitary towels, and toilet tissue in permanently installed dispensers shall be provided.

All toilets, lavatory facilities, and dressing rooms, or enclosures shall be maintained in a clean and sanitary condition.

28828. An adequate supply of hot and cold running water under pressure shall be provided in all areas in which food is prepared or utensils are washed. Containers of raw materials or ingredients which have been opened shall be adequately protected from contamination or adulteration.

All returned or damaged food products and food products from which the label has been removed shall be separated and stored in a separate area and in such a manner as to prevent adulteration of other foods and shall not contribute to a rodent or insect problem.

No insecticide, rodenticide, or other poisonous or deleterious substance shall be stored in any food preparation area except

in a separate cabinet provided for that purpose. All poisonous substances, detergents, bleaches, cleaning compounds, or similar materials shall be specifically and plainly labeled as to contents and hazardous use. No such product shall be used or stored in a manner which would cause contamination or adulteration of food, food preparation surfaces, or food preparation utensils.

28834. The storage rooms, shelves, and racks shall be constructed and installed so as to be easily cleaned. Where utensils are washed by hand, there shall be provided in each new food establishment constructed after the effective date of this chapter, at least a two-compartment metal sink

with metal drainboards. The sink compartments and drainboards shall be large enough to adequately clean the largest utensils used. An adequate supply of hot and cold running water under pressure shall be provided for each sink compartment. A one-compartment utensil sink which is in use on the effective date of this chapter may be continued in use until replaced.

28841. A room or a space outside of any food preparation area shall be provided for the storage of cleaning equipment and supplies, such as mops, buckets, brooms, detergent and waxes. This section shall not apply to foods during reasonable periods of preparation, handling or transportation. An accurate thermometer, suitable for measuring temperature of food, shall be kept readily available.

28843. If the department determines that a specific food which otherwise meets the definition of a potentially hazardous food will not support rapid or progressive growth of infectious or toxigenic micro-organisms, it shall by regulation exempt such food from the requirements of Section 28842.

28844. All packaged frozen foods shall be kept in a frozen state until sold or ready for processing or preparation.

28845. All refrigerators and thermometers shall be kept in good repair and clean. All food stored in refrigerators shall be protected from contamination. Foods that require no further preparation before service, when stored in refrigerators, shall either be covered or so placed that they are not subject to contamination from containers, unwashed fruits and vegetables, raw meats, or other contamination. An accurate thermometer shall be installed in all refrigerators so as to be readily visible either from the outside of the refrigerator or freezer or when the refrigerator or freezer is opened.

28846. The premises of all food establishments shall be kept clean and free of litter and rubbish.

28847. No sleeping accommodation shall be maintained or kept in any room where food is prepared, stored, or sold. All living and sleeping quarters shall be separated from the food establishment. Article 3. Health Requisites

28850. All employees preparing, serving, or handling unpackaged food shall wear clean washable outer garments or other clean uniforms and shall keep their hands clean at all times while engaged in handling food, beverages, or utensils. All such food handlers shall wash their hands and arms with soap or detergent and warm water before commencing work after using toilet facilities and before returning to work, and at such other times as are necessary to prevent contamination of food.

All employees while preparing or selling unpackaged processed food shall wear hairnets, caps, headbands, or other suitable coverings which confine the hair. Employees handling such food shall use tongs or other implements rather than their hands. The use of tobacco in any form by any employee while handling or selling food or utensils is prohibited. No employee or other person shall use tobacco in any form in any room or space used primarily for the preparation of food, and the employer shall post and maintain "No smoking" signs in such rooms or places.

28851. When information as to the possibility of disease transmission is presented to the local health officer, he shall investigate conditions and take appropriate action. The health officer may, after investigation and for reasonable cause, require any or all of the following measures to be taken:

(a) The immediate exclusion of such employee or owner from the affected food establishment operation by the health officer.

(b) The immediate closing of the establishment, until in the opinion of the health officer, no further danger of disease outbreak exists.

(c) Medical examination of the owner, employee, and his coemployees, with such laboratory examination as may be indicated; or should such examination or examinations be refused, then the immediate exclusion of the refusing owner, employee, or coemployee from that or any other food establishment operation, until a medical or laboratory examination shows that he is not affected with, or a carrier of, any disease in a communicable form.

Article 4. Enforcement and Inspection

28860. The director, agents, or sanitarians appointed by the director, and all local health officers, sanitarians, and duly authorized agents thereof, are charged with the enforcement of the provisions of this chapter.

28861. The director, sanitarians, and agents appointed by the director, and local health officers, sanitarians, and duly authorized agents thereof, may enter and inspect any food establishment or any operation suspected of being such, whenever it is open for business, for the purpose of carrying out the provisions of this chapter. A written report of the inspection shall be made, and a copy shall be supplied or mailed to the operator, manager, or owner of the establishment.

28862. Any person who violates any provision of this chapter or regulations adopted pursuant to this chapter is guilty of a misdemeanor. Each offense shall be punished by a fine of not less than twenty-five dollars (\$25) nor more than five hundred dollars (\$500) or by imprisonment in the county jail for a term not exceeding six months, or by both such fine and imprisonment.

The owner, manager, or operator of any food establishment is also responsible for any violation by his employees of any provision of this chapter.

28863. The provisions of this chapter shall apply to all parts of the state. The State Department of Public Health may adopt such rules and regulations as it determines are reasonably necessary to interpret and carry out the provisions of this chapter. When adopted, such rules and regulations shall apply to all parts of the state. The department shall investigate to determine satisfactory enforcement of this chapter by local authorities.

28864. Six months after the effective date of this chapter, it shall be unlawful for any person to operate any food establishment unless, in addition to any other permit, he has a valid permit issued by the local health officer.

28865. The building department having jurisdiction over the area where the proposed food establishment will be located shall notify the health department having jurisdiction when plans to build or remodel a food establishment are received. A building permit shall not be issued until the health department has approved the plans. The plans shall be approved or rejected within 10 days after receipt by the health department and the applicant shall be notified of such decision.

28866. Permits to operate shall be issued by the local health officer if the applicant complies with the provisions of this chapter and the regulations adopted thereunder. The fees for the permits may be determined by the local governing body.

28867. Permits for operation shall be posted in a conspicuous place in the establishment.

28868. Any permit issued pursuant to this chapter may be suspended or revoked for good cause by the enforcement

agency. "Good cause," for the purpose of this section, means a violation of any of the provisions of this chapter, the regulations adopted thereunder, or any condition of such permit.

The local health officer shall issue and serve upon the permittee a notice setting forth in clear and concise language the acts or omissions with which the permittee is charged and informing him of his rights to a hearing.

At any time within the 15-day period after service of such notice, the permittee may request a hearing before the local health officer to show cause why his permit should not be suspended or revoked.

A failure to request a hearing within 15 days shall be deemed a waiver of a right to such hearing. The local health officer may call a hearing for the purpose of investigating any violations of this article.

CHAPTER 654

An act to amend Section 1174 of the Code of Civil Procedure, relating to unlawful detainer.

[Approved by Governor August 11, 1970. Filed with
Secretary of State August 11, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1174 of the Code of Civil Procedure is amended to read:

1174. If upon the trial, the verdict of the jury, or, if the case be tried without a jury, the findings of the court be in favor of the plaintiff and against the defendant, judgment shall be entered for the restitution of the premises; and if the proceedings be for an unlawful detainer after neglect, or failure to perform the conditions or covenants of the lease or agreement under which the property is held, or after default in the payment of rent, the judgment shall also declare the forfeiture of such lease or agreement if the notice required by Section 1161 of the code states the election of the landlord to declare the forfeiture thereof, but if such notice does not so state such election, the lease or agreement shall not be forfeited.

The jury or the court, if the proceedings be tried without a jury, shall also assess the damages occasioned to the plaintiff by any forcible entry, or by any forcible or unlawful detainer, alleged in the complaint and proved on the trial, and find the amount of any rent due, if the alleged unlawful detainer be after default in the payment of rent. Judgment against the defendant guilty of the forcible entry, or the forcible or unlawful detainer may be entered in the discretion of the court either for the amount of the damages and the rent found due, or for three times the amount so found.

When the proceeding is for an unlawful detainer after default in the payment of rent, and the lease or agreement under which the rent is payable has not by its terms expired, and the notice required by Section 1161 has not stated the election of the landlord to declare the forfeiture thereof, the court may, and, if the lease or agreement is in writing, is for a term of more than one year, and does not contain a forfeiture clause, shall order that execution upon the judgment shall not be issued until the expiration of five days after the entry of the judgment, within which time the tenant, or any subtenant, or any mortgagee of the term, or any other party interested in its continuance, may pay into the court, for the landlord, the amount found due as rent, with interest thereon, and the

amount of the damages found by the jury or the court for the unlawful detainer, and the costs of the proceedings, and thereupon the judgment shall be satisfied and the tenant be restored to his estate.

But if payment as here provided be not made within five days, the judgment may be enforced for its full amount, and for the possession of the premises. In all other cases the judgment may be enforced immediately.

A plaintiff, having obtained a writ of restitution of the premises pursuant to an action for unlawful detainer, shall be entitled to have the premises restored to him by officers charged with the enforcement of such writs. Promptly upon payment of reasonable costs of service, the enforcing officer shall serve or post a copy of the writ in the same manner as upon levy of writ of attachment pursuant to subdivision 1 of Section 542 of this code. In addition, where the copy is posted on the property, another copy of the writ shall thereafter be mailed to the defendant at his business or residence address last known to the plaintiff or his attorney or, if no such address is known, at the premises. If the tenant does not vacate the premises within five days from the date of service, or, if the copy of the writ is posted, within five days from the date of mailing of the additional notice, the enforcing officer shall remove the tenant from the premises and place the plaintiff in possession thereof. It shall be the duty of the party delivering the writ to the officer for execution to furnish the information required by the officer to comply with this section.

All goods, chattels or personal property of the tenant remaining on the premises at the time of its restitution to the plaintiff shall be stored by the plaintiff in a place of safekeeping for a period of 30 days and may be redeemed by the tenant upon payment of reasonable costs incurred by the plaintiff in providing such storage and the judgment rendered in favor of plaintiff, including costs. Plaintiff may, if he so elects, store such goods, chattels or personal property of the tenant on the premises, and the costs of storage in such case shall be the fair rental value of the premises for the term of storage. An inventory shall be made of all goods, chattels or personal property left on the premises prior to its removal and storage or storage on the premises. Such inventory shall either be made by the enforcing officer or shall be verified in writing by him. The enforcing officer shall be entitled to his costs in preparing or verifying such inventory.

In the event the property so held is not removed within 30 days, such property shall be deemed abandoned and may be sold at a public sale by competitive bidding, to be held at the place where the property is stored, after notice of the time and place of such sale has been given at least five days before the date of such sale by publication once in a newspaper of general circulation published in the county in which the sale is to be held. Notice of the public sale may not be given more than five days prior to the expiration of the 30 days during which

the property is to be held in storage. All money realized from the sale of such personal property shall be used to pay the costs of the plaintiff in storing and selling such property, and any balance thereof shall be applied in payment of plaintiff's judgment, including costs. Any remaining balance shall be returned to the defendant.

CHAPTER 655

An act to amend Section 227 of the Civil Code, relating to adoptions.

[Approved by Governor August 11, 1970. Filed with Secretary of State August 11, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 227 of the Civil Code is amended to read:

227. The person or persons desiring to adopt a child, and the child proposed to be adopted, must appear before the court; provided, that if said adoptive parent is then commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, so that it is impossible or impracticable, because of such person's absence from the State of California, or otherwise, for said person to make such appearance in person, and said circumstances are established by satisfactory evidence, said appearance may be made for such person by his or her counsel, commissioned and empowered in writing so to do and which said power of attorney may be incorporated in the petition for adoption. The court must examine all persons appearing before it pursuant to this section. The examination of each such person shall be conducted separately but within the physical presence of each such other person or persons unless the court, in its discretion, shall order otherwise. The party or parties adopting shall execute or acknowledge an agreement in writing that the child shall be treated in all respects as the lawful child of the party or parties. If satisfied that the interest of the child will be promoted by the adoption, the court may thereupon make and enter a decree of adoption of the child by the adopting parent or parents, and the child and the adopting parents shall thereupon and thereafter sustain toward each other the legal relationship of parent and child and have all the rights and be subject to all the duties of that relation. In a case where the adopting parent is permitted to appear by counsel, the agreement may be executed and acknowledged by such counsel for such absent party, or may be executed by such absent party before a notary public, or any other person authorized to take acknowledgments including the persons authorized by Sections 1183 and 1183.5 of this code; provided, that in any case where said adoptive parent

is permitted to appear by counsel hereunder, or otherwise, the court may, in its discretion, cause such examination of said adoptive parent, other interested party, or witness to be made upon deposition, as it deems necessary, said deposition to be taken upon commission, as prescribed by the Code of Civil Procedure, and the expense thereof to be borne by the petitioner. The petition, relinquishment, agreement, order, report to the court from any investigating agency, and any power of attorney and deposition must be filed in the office of the county clerk and shall not be open to inspection by any other than the parties to the action and their attorneys and the State Department of Social Welfare except upon the written authority of the judge of the superior court. A judge of the superior court shall not authorize anyone to inspect the petition, relinquishment, agreement, order, report to the court from any investigating agency, or power of attorney or deposition or any portion of any such documents except in exceptional circumstances and for good cause approaching the necessities. The petitioner may be required to pay the expenses for preparing the copies of the documents to be inspected.

Upon written request of any party to the action and upon the order of any judge of the superior court, the county clerk shall not provide any documents referred to in this section for inspection or copying to any other person, unless the name of the natural parents of the child or any information tending to identify the natural parents of the child is deleted from the documents or copies thereof.

Upon the request of the adoptive parents or the child, a county clerk may issue a certificate of adoption which states the date and place of adoption, the birthday of the child, the name of the adoptive parents, and the name which the child has taken. Unless the child has been adopted by a stepparent, the certificate shall not state the name of the natural parents of the child.

The provisions of this section permitting an adoptive parent, who is commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, to make an appearance through his or her counsel, commissioned and empowered in writing to do so, are equally applicable to the spouse of such adoptive parent who resides with such adoptive parent outside of this state.

Where, pursuant to this section, neither adoptive parent need appear before the court, the child proposed to be adopted need not appear. If the law otherwise requires that the child execute any document during the course of the hearing, the child may do so by and through counsel. Where none of the parties appear, no order of adoption shall be made by the court until after a report has been filed with the court pursuant to Section 226.6.

CHAPTER 656

19532. The claim on which the assistance is based shall be filed after May 15 of the fiscal year for which assistance is claimed but on or before October 15 succeeding the fiscal year for which assistance is claimed for property taxes paid.

The state shall assist the claimant after June 30 and before November 30 of the calendar year in which the claim is filed, except that if the claim is defective, assistance shall be made as promptly as is practicable after the claim has been perfected. The Franchise Tax Board, whenever in its judgment good cause exists, may grant a reasonable extension of time for filing a claim. No extension or extensions shall aggregate more than six months from the due date provided for filing the claim. The first claim filed shall include proof of the claimant's age, acceptable to the Franchise Tax Board.

A claimant who, because of a medically certified incapacity, is prevented from filing a timely claim, shall be permitted to file a claim within six months after the end of his medical incapacity or three (3) years succeeding the end of fiscal year for which assistance is claimed, whichever date is earlier.

SEC. 3. Section 1242.5 of the Code of Civil Procedure is amended to read:

1242.5. (a) In any case in which the entry and activities mentioned in subdivision (b) of Section 1242 will subject the person having the power of eminent domain to liability under Section 816 of the Government Code, before making such entry and undertaking such activities, the person shall secure:

(1) The written consent of the owner to enter upon his property and to undertake such activities; or

(2) An order for entry from the superior court in accordance with subdivision (b).

(b) The person seeking to enter upon the property shall petition the court for an order permitting the entry and shall give such prior notice to the owner of the property as the court determines is appropriate under the circumstances of the particular case. Upon such petition and after such notice has been given, the court shall determine the purpose for the entry, the nature and scope of the activities reasonably necessary to accomplish such purpose, and the probable amount of compensation to be paid to the owner of the property for the actual damage to the property and interference with its possession and use. After such determination, the court may issue its order permitting the entry. If the court determines that the nature and scope of the activities to be undertaken or the amount of the deposit should be modified, the court shall make its order prescribing the necessary changes.

(d) The court shall retain the amount deposited under this section for a period of six months following the termination of the entry. Such amount shall be held, invested, deposited, and disbursed in accordance with Section 1254.

the court, in the proceeding under this section. Where a deposit has been made pursuant to this section, the owner may, upon noticed motion made within six months following the termination of the entry, request the court to determine the amount he is entitled to recover under this subdivision. Thereupon, the court shall determine such amount and award it to the owner and the money on deposit shall be available for the payment of such amount. Nothing in this subdivision affects the availability of any other remedy the owner may have for the damaging of his property.

SEC. 4. This act shall become effective only if Senate Bill No. 94 is enacted by the Legislature at its 1970 Regular Session and in such case this act shall take effect at the same time that Senate Bill No. 94 takes effect.

CHAPTER 663

An act to add Sections 11547, 11548, and 11549 to the Business and Professions Code, relating to bridges.

[Approved by Governor August 12, 1970 Filed with
Secretary of State August 12, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 11547 is added to the Business and Professions Code, to read:

11547. A local ordinance may require the payment of a fee as a condition of approval of a final subdivision map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges.

Such local ordinance may require payment of fees pursuant to this section if:

(1) The ordinance refers to the circulation element of the General Plan and to flood control provisions thereof which identify streams for which bridge crossings are required on General Plan or local roads; provided, such flood control provisions have been adopted by the local agency 30 days prior to the filing of a subdivision map or application for a building permit.

(2) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65905 of the Government Code. In addition to the requirements of Section 65905 of the Government Code, such notice shall contain preliminary information related to the boundaries of the area of benefit, estimated cost and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of the subdivision map or building permit application considered at such proceedings.

(3) The ordinance provides that at such public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of fee apportionment are established. A description of the boundaries of the area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be filed by the governing body conducting the hearing with the recorder of the county in which the area of benefit is located. Such apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final subdivision map or as a condition of issuing a building permit for such property or portions thereof.

(4) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is in addition to any existing bridge facilities serving the area at the time of the adoption of the boundaries of the area of benefit.

(5) The ordinance provides that if, within the time when protests may be filed under the provisions of such ordinance, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under the provisions of this section.

Any protests may be withdrawn by the owner making the same, in writing, at any time prior to the conclusion of a public hearing held pursuant to the ordinance.

If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the legislative body, within such one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of a majority of the property within the area of benefit are in favor of going forward with such portion of the improvement or acquisition.

Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility fund. A separate fund shall be established for each planned bridge facility project. Moneys in such fund shall be expended solely for the construction or reimbursement for construction of the bridge facility serving the area to be benefited and from

which the fees comprising the fund were collected, or to reimburse the county or city for the cost of constructing the bridge facility.

An ordinance adopted pursuant to this section may provide for the acceptance of considerations in lieu of the payment of fees.

A county or city imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the bridge facilities and may reimburse the general fund or road fund for such advances from planned bridge facility funds established to finance the construction of such bridge facilities.

A county or city imposing fees pursuant to this section may incur an indebtedness for the construction of bridge facilities; provided that the sole security for repayment of such indebtedness shall be moneys in planned bridge facility funds.

The term "construction" as used in this section includes design, acquisition of right-of-way, administration of construction contracts and actual construction.

SEC. 2. Section 11548 is added to the Business and Professions Code, to read:

11548. Whenever, pursuant to a local ordinance a subdivider or land developer is required to pay a fee for the construction of a bridge as a condition precedent to the acceptance of a final map or as a condition of issuing a building permit and the facility is dedicated to the public, the governing body may contract with the subdivider or land developer for the construction of the bridge, and reimburse the subdivider or land developer for the cost of constructing the facility.

SEC. 3. Section 11549 is added to the Business and Professions Code, to read:

11549. Any city or county may establish an area of benefit pursuant to Section 11547 and may impose a reasonable charge on property within the area which, in the opinion of the legislative body, is benefited by the construction of the bridge. The charge collected shall be paid to the county, city or subdivider constructing the bridge pursuant to Sections 11547 and 11548, and any city or county having jurisdiction over any property which, in the opinion of the legislative body, is benefited by the construction of the bridge may enter into a reimbursement agreement with the subdivider.

3301. Every domestic corporation organized on or after January 1, 1971 shall within 90 days after the filing of its articles of incorporation with the Secretary of State, and every domestic corporation heretofore or hereafter organized (other than a corporation which has already filed such a statement during the preceding three calendar months and there is no change in the information therein) shall during the period commencing on April 1st and ending on June 30th in each year, file with the Secretary of State, on a form prescribed by him, a statement of the names and complete business or residence addresses of its president, vice president, secretary, and treasurer, together with a statement of the location and address of its principal office. If desired, the statement may designate, as the agent of such corporation for the purpose of service of process, any natural person residing in this state or any corporation which has complied with Section 3301.5 or Section 6403.5 and whose capacity to act as such agent has not terminated. If a natural person be designated, the statement shall set forth his complete business or residence address. If a corporate agent be designated, the statement shall set forth the state or place under the laws of which such agent was incorporated and the name of the city, town or village wherein it has the office at which the corporation designating it as such agent may be served, as set forth in the certificate filed by such corporate agent pursuant to Sections 3301.5, 3301.6, 6403.5 or 6403.6.

A corporation may at any time file a new statement wherein a new agent for service of process is designated or a prior designation of agent is expressly revoked without designating a new agent, and such filing shall be deemed to revoke any prior designation of agent.

Delivery by hand of a copy of any process against the corporation (a) to any natural person designated by it as agent, or (b), if the corporation has designated a corporate agent, at the office of such corporate agent in the city, town or village named in the statement filed by the corporation pursuant to this section to any person at such office named in the certificate of such corporate agent filed pursuant to Section 3301.5

or 6403.5, if such certificate has not been superseded, or otherwise to any person at such office named in the last certificate filed pursuant to Section 3301.6 or 6403.6, shall constitute valid service on the corporation.

The Secretary of State shall establish by regulation a fee to be charged and collected for filing a statement of the names and addresses of officers and the location and address of the principal office of the corporation as provided in this section. The filing fee shall approximate the estimated cost of such filing, and in any event shall not exceed three dollars (\$3) for each filing. For filing a combined statement of the names and addresses of officers, the location and address of the principal office and a designation of agent for service of process, the Secretary of State shall charge and collect a filing fee of five dollars (\$5). The information filed by a corporation pursuant to this section shall be made available to the public upon request. For furnishing a copy of any such statement, the Secretary of State shall charge and collect a fee of one dollar (\$1). This section shall not be construed to place any person dealing with such corporation on notice of, or on duty or obligation to inquire about the existence or content of any such statement.

If the only address disclosed by the records of the Secretary of State for the corporation's principal office is the county in which the office is located, then such notice of the suspension of the corporation's powers shall be sent to the county seat addressed to the corporation in care of the county clerk, who shall promptly send it to the corporation at its address in the county, if known to him, or if unknown, he shall cause the notice to be posted at the courthouse of the county for 30 days.

The suspension of the corporate powers, rights and privileges shall be effective upon the transmittal to the Franchise Tax Board of notification of the suspension and has the same effect as a suspension for nonpayment of franchise taxes pursuant to Section 23301 of the Revenue and Taxation Code.

The agreement may provide for the distribution of cash, property, or securities, in whole or in part, in lieu of shares, to shareholders of the constituent corporations or any class of them; but upon such distribution of cash, property, or securities, the liabilities of the consolidated or surviving corporation, including those derived by it from the constituent corporations, plus the amount of the stated capital of the consolidated or surviving corporation, shall not exceed the value of the assets of the consolidated or surviving corporation.

Thereupon the court shall set the case for hearing at a date, or shall cause a jury to be summoned and to be in attendance at a date stated, not less than five nor more than 10 days from the date of the demand for a court or jury trial. The court shall adjudge whether the person is a mentally disordered sex offender, or if it is a trial by jury the judge shall submit to the jury the question: Is the person a mentally disordered sex offender?

The corporation shall restore the stream or watercourse, road, street, avenue, highway, railroad, canal, ditch, or flume thus intersected to its former state of usefulness as near as may be, or so that the railroad does not unnecessarily impair its usefulness or injure its franchise.

SEC. 2. The Director of Parks and Recreation is authorized to exchange a portion of San Clemente State Beach for beach land owned by the City of San Clemente in order to consolidate state and city beach ownership.

(b) That the exchange will be made upon such terms and conditions as will be for the best interests of the state.

SEC. 4. There is hereby excepted and reserved to the State of California all deposits of minerals, including oil and gas, in such land and to the State of California or persons authorized by the State of California the right to prospect for, mine, and

remove such deposits from such property, without, however, the right to enter upon the surface of the land or any part of the subsurface of the land within 500 feet of the surface thereof.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Immediate operation of this act will enable the state to obtain lands adjacent to the Malakoff Diggins State Historic Park and the San Clemente State Beach and will permit earlier possible development of that park and beach.

CHAPTER 692

An act to add Section 6571.1 to the Government Code, relating to joint exercise of powers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 12, 1970 Filed with
Secretary of State August 12, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 6571.1 is added to the Government Code, to read:

6571.1. In addition to other powers, any agency, commission, or board provided for by a joint powers agreement entered into prior to January 1, 1971, between the County of San Bernardino and any city thereof, pursuant to Article 1, if such entity has the power to acquire, construct, maintain, or operate sanitary sewer facilities, including, but not limited to, sanitary sewage treatment plants, and such other sanitary sewerage facilities as may be necessary in connection therewith, may, if the county health officer and the appropriate city health officer or officers, if any, determine that an immediate health hazard exists with respect to sewage, issue revenue bonds pursuant to this article to pay for the acquisition or construction of such facilities at a price below the par or face value thereof, provided that the discount on any bonds so sold shall not exceed 4 percent of the par value thereof.

The Legislature finds and declares that unique problems of sanitation exist in the County of San Bernardino in that the extremely rapid growth in population and the rapid opening of large tracts of land to residential development have caused serious difficulties involving the disposal of sewage which threaten to cause the ordering of cessation of all new construction in many areas unless means are quickly found to provide for the disposal of sewage therein

The Legislature further finds and declares that federal funding, which is presently available to alleviate this critical

problem, may be lost unless immediate steps are authorized to be taken at the local level.

These problems are not, however, common to all areas of the state. It is, therefore, hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary to effectuate the solution of problems which threaten the health of the residents of San Bernardino County.

This section shall be of no further force or effect after January 1, 1971.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to rapid growth of population in certain areas there is a critical need for cooperation between public agencies in the acquisition, construction, maintenance and operation of sanitary sewerage facilities. To meet this critical problem, it is imperative that this act go into effect immediately.

CHAPTER 693

The board of supervisors may by contract provide that any public defender duly appointed or elected may charge reasonable fees to the Department of Corrections for representing inmates of prisons under its control, and the Department of Corrections may upon approval by the court pay such fees into the county treasury to be placed in the general fund of the county.

Counsel shall be appointed to represent, in the municipal or justice court, a person who desires but is unable to employ counsel, when it appears that such appointment is necessary to provide an adequate and effective defense for defendant.

SEC. 2. Section 987.4 is added to the Penal Code, to read:

987.4. When the public defender or an assigned counsel represents a person who is a minor in a criminal proceeding, at the expense of a county, the court may order the parent or guardian of such minor to reimburse the county for all or any part of such expense, if it determines that the parent or guardian has the ability to pay such expense.

CHAPTER 725

An act to amend Sections 1812.10 and 2984.4 of the Civil Code, to amend Section 396a of, and to add Section 585.5 to, the Code of Civil Procedure, relating to jurisdiction.

[Approved by Governor August 14, 1970. Filed with Secretary of State August 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1812.10 of the Civil Code is amended to read:

1812.10. An action on a contract or installment account under the provisions of this chapter shall be tried in the county in which the contract was in fact signed by the buyer, in the county in which the buyer resided at the time the contract was entered into, in the county in which the buyer resides at the commencement of the action, or in the county in which the goods purchased pursuant to such contract have been so affixed to real property as to become a part of such real property.

If within any such county there is a municipal or justice court, having jurisdiction of the subject matter, established in the city and county or judicial district in which the contract was in fact signed by the buyer, or in which the buyer resided at the time the contract was entered into, or in which the buyer resides at the commencement of the action or in which the goods purchased pursuant to such contract have been so affixed to real property as to become a part of such real property, then such court is the proper court for the trial of such action. Otherwise, any municipal or justice court in such county, having jurisdiction of the subject matter, is the proper court for the trial thereof.

In any action subject to the provisions of this section, concurrently with the filing of the complaint, the plaintiff shall file an affidavit stating facts showing that the action has been commenced in a county or judicial district described in this section as a proper place for the trial of the action. Such facts may be stated in a verified complaint and shall not be stated on information or belief. If a plaintiff fails to file the affidavit or state facts in a verified complaint required by this section, the court shall, upon its own motion or upon motion of any party, dismiss any such action without prejudice.

SEC. 2. Section 2984.4 of the Civil Code is amended to read:

2984.4. An action on a contract under the provisions of this chapter shall be tried in the county in which the contract was in fact signed by the buyer, in the county in which the buyer resided at the time the contract was entered into, in the county in which the buyer resides at the commencement of the action, or in the county in which the motor vehicle purchased pursuant to such contract is permanently garaged.

If within any such county there is a municipal or justice court, having jurisdiction of the subject matter, established in the judicial district in which the contract was in fact signed by the buyer, or in which the buyer resided at the time the contract was entered into, or in which the buyer resides at the commencement of the action, or in which the motor vehicle purchased pursuant to such contract is permanently garaged, such court is the proper court for the trial of the action. Otherwise, any municipal or justice court in such county, having jurisdiction of the subject matter, is the proper court for the trial of the action.

In any action subject to the provisions of this section, concurrently with the filing of the complaint, the plaintiff shall file an affidavit stating facts showing that the action has been commenced in a county or judicial district described in this section as a proper place for the trial of the action. Such facts may be stated in a verified complaint and shall not be stated on information or belief. If a plaintiff fails to file the affidavit or state facts in a verified complaint required by this section, the court shall, upon its own motion or upon motion of any party, dismiss any such action without prejudice.

SEC. 3. Section 396a of the Code of Civil Procedure is amended to read:

396a. In all actions and proceedings commenced in a justice or municipal court which are within the subject matter jurisdiction of justice courts, or are subject to the provisions of Sections 1812.10 and 2984.4 of the Civil Code, plaintiff shall state facts in the complaint, verified by his oath, or the oath of his attorney, or in an affidavit of the plaintiff or of his attorney filed with the complaint, showing that the action has been commenced in the proper court for the trial of such action or proceeding, and showing that the action is or is not subject to the provisions of Sections 1812.10 and 2984.4 of the Civil Code. When such affidavit is filed with the complaint, a copy thereof must be served with the summons. Except as herein provided, if such complaint or affidavit be not so filed, no further proceedings shall be had in the action or proceeding, except to dismiss the same without prejudice. However, the court may, on such terms as may be just, permit such affidavit to be filed subsequent to the filing of the complaint, and a copy of such affidavit shall be served on the defendant and the time to answer or otherwise plead shall date from such service. If it appears from such complaint or affidavit, or otherwise, that the court in which such action or proceeding is commenced is not the proper court for the trial thereof, the court in which such action or proceeding is commenced, or a judge thereof, shall, whenever such fact appears, transfer it to such proper court, on its own motion, or on motion of the defendant, unless the defendant consents in writing, or in open court (such consent in open court being entered in the minutes or docket of the court), to the keeping of the action or proceeding in the court where commenced. If such consent be given, the action

or proceeding may continue in the court where commenced. Notwithstanding the provisions of Section 1801.1 and subdivision (f) of Section 2983.7 of the Civil Code, such consent may be given by a defendant who is represented by counsel at the time the consent is given. In any such case where the transfer of the action or proceeding is ordered under the provisions of this paragraph, if summons is served prior to the filing of such action or proceeding in the court to which it is transferred, as to any defendant, so served, who has not appeared in the action or proceeding, the time to answer or otherwise plead shall date from service upon such defendant of written notice of such filing.

When it appears from such complaint or affidavit of the plaintiff that the court in which such action or proceeding is commenced is a proper court for the trial thereof, all proper proceedings may be had, and the action or proceeding may be tried therein; provided, however, that in such case a motion for a transfer of the action or proceeding may be made as in other cases, within the time, upon the grounds, and in the manner provided in this title, and if upon such motion it appears that such action or proceeding is not pending in the proper court, or should for other cause be transferred, the same shall be ordered transferred as provided in this title.

When any such action or proceeding is ordered transferred as herein provided, proceedings shall be had, and the costs and fees shall be paid, as provided in Sections 398 and 399 of this code.

SEC. 4. Section 585.5 is added to the Code of Civil Procedure, to read:

585.5. Every application to enter default under subdivision 1 of Section 585 shall include or be accompanied by an affidavit stating facts showing that the action is or is not subject to the provisions of Section 1812.10 or 2984.4 of the Civil Code.

SEC. 5. This act shall apply to actions commenced on or after January 1, 1971.

"Meet and confer in good faith" means that a public agency, or such representatives as it may designate, and representatives of recognized employee organizations, shall have the mutual obligation personally to meet and confer within a reasonable period of time in order to exchange freely information, opinions, and proposals, and to endeavor to reach agreement on matters within the scope of representation.

CHAPTER 728

An act relating to the conservation of open space lands, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 14, 1970. Filed with Secretary of State August 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law to the contrary, the assessment procedures specified under Sec-

Some instruments duly executed and received by counties were inadvertently not recorded until the Monday following the date said instruments were required to be of record. Some counties and cities have inadvertently failed to file the instruments reflecting the true status of property as being eligible for the assessment authorized by the Constitution for open space lands, and in some cases negotiations to sign such instruments were not completed by the lien date in 1970, making it necessary to have this act take effect immediately to provide relief this year.

Such revolving fund shall be for the purpose of administering payments to meet the immediate or emergent needs of persons entitled to aid or services under the provisions of Division 9 of the Welfare and Institutions Code, and

may be fixed by the board of supervisors in an amount sufficient to enable the director of the county department to meet the immediate and emergent needs of the persons entitled thereto. In all other respects, the provisions of this article shall apply to the revolving fund provided for in this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

All such mixes so used shall be secured from a licensed manufacturer of milk products.

The director may by agreement with any approved milk inspection service, authorize such service to inspect and enforce Agricultural Code requirements applicable to the establishments covered by this section. Any such agreement shall provide that the approved inspection service shall collect the applicable license fee for such establishments as provided in Section 35221. [Approved by Governor August 14, 1970. Filed with Secretary of State August 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 13353 of the Vehicle Code is amended to read:

13353. (a) Any person who drives a motor vehicle upon a highway shall be deemed to have given his consent to a chemical test of his blood, breath or urine for the purpose of determining the alcoholic content of his blood if lawfully arrested for any offense allegedly committed while the person was driving a motor vehicle under the influence of intoxicating liquor. The test shall be incidental to a lawful arrest and administered at the direction of a peace officer having reasonable cause to believe such person was driving a motor vehicle upon a highway while under the influence of intoxicating liquor. Such person shall be told that his failure to submit to or complete such a chemical test will result in the suspension of his privilege to operate a motor vehicle for a period of six months.

The person arrested shall have the choice of whether the test shall be of his blood, breath or urine, and he shall be advised by the officer that he has such choice. If the person arrested either is incapable, or states that he is incapable, of completing any chosen test, he shall then have the choice of submitting to and completing any of the remaining tests or test, and he shall be advised by the officer that he has such choice.

Any person who is dead, unconscious, or otherwise in a condition rendering him incapable of refusal shall be deemed not to have withdrawn his consent and such tests may be administered whether or not such person is told that his failure to submit to or complete the test will result in the suspension of his privilege to operate a motor vehicle.

(b) If any such person refuses the officer's request to submit to, or fails to complete, a chemical test, the department, upon receipt of the officer's sworn statement that he had reasonable cause to believe such person had been driving a motor vehicle upon a highway while under the influence of intoxicating liquor and that the person had refused to submit to, or failed to complete, the test after being requested by the officer, shall suspend his privilege to operate a motor vehicle for a period of six months. No such suspension shall become effective until 10 days after the giving of written notice thereof, as provided for in subdivision (c).

(c) The department shall immediately notify such person in writing of the action taken and upon his request in writing and within 15 days from the date of receipt of such request shall afford him an opportunity for a hearing in the same manner and under the same conditions as provided in Article

3 (commencing with Section 14100) of Chapter 3 of this division. For the purposes of this section the scope of the hearing shall cover the issues of whether the peace officer had reasonable cause to believe the person had been driving a motor vehicle upon a highway while under the influence of intoxicating liquor, whether the person was placed under arrest, whether he refused to submit to, or failed to complete, the test after being requested by a peace officer, and whether, except for the persons described in paragraph (a) above who are incapable of refusing, he had been told that his driving privilege would be suspended if he refused to submit to, or failed to complete, the test.

An application for a hearing made by the affected person within 10 days of receiving notice of the department's action shall operate to stay the suspension by the department for a period of 15 days during which time the department must afford a hearing. If the department fails to afford a hearing within 15 days, the suspension shall not take place until such time as the person is granted a hearing and is notified of the department's action as hereinafter provided. However, if the affected person requests that the hearing be continued to a date beyond the 15-day period, the suspension shall become effective immediately upon receipt of the department's notice that said request for continuance has been granted.

If the department determines upon a hearing of the matter to suspend the affected person's privilege to operate a motor vehicle, the suspension herein provided shall not become effective until five days after receipt by said person of the department's notification of such suspension.

(d) Any person who is afflicted with hemophilia shall be exempt from the blood test required by this section.

(e) Any person who is afflicted with a heart condition and is using an anticoagulant under the direction of a physician and surgeon shall be exempt from the blood test required by this section.

(f) A person lawfully arrested for any offense allegedly committed while the person was driving a motor vehicle under the influence of intoxicating liquor may request the arresting officer to have a chemical test made of the arrested person's blood, breath or urine for the purpose of determining the alcoholic content of such person's blood, and, if so requested, the arresting officer shall have the test performed.

SEC. 2. Section 13353 of the Vehicle Code is amended to read:

13353. (a) Any person who drives a motor vehicle upon a highway shall be deemed to have given his consent to a chemical test of his blood, breath or urine for the purpose of determining the alcoholic content of his blood if lawfully arrested for any offense allegedly committed while the person was driving a motor vehicle under the influence of intoxicating liquor. The test shall be incidental to a lawful arrest and administered at the direction of a peace officer having reasonable

cause to believe such person was driving a motor vehicle upon a highway while under the influence of intoxicating liquor. Such person shall be told that his failure to submit to or complete such a chemical test will result in the suspension of his privilege to operate a motor vehicle for a period of six months.

The person arrested shall have the choice of whether the test shall be of his blood, breath or urine, and he shall be advised by the officer that he has such choice. If the person arrested either is incapable, or states that he is incapable, of completing any chosen test, he shall then have the choice of submitting to and completing any of the remaining tests or test, and he shall be advised by the officer that he has such choice.

Such person shall also be advised by the officer that he does not have the right to have an attorney present before stating whether he will submit to a test, before deciding which test to take, or during administration of the test chosen.

Any person who is dead, unconscious, or otherwise in a condition rendering him incapable of refusal shall be deemed not to have withdrawn his consent and such tests may be administered whether or not such person is told that his failure to submit to or complete the test will result in the suspension of his privilege to operate a motor vehicle.

(b) If any such person refuses the officer's request to submit to, or fails to complete, a chemical test, the department, upon receipt of the officer's sworn statement that he had reasonable cause to believe such person had been driving a motor vehicle upon a highway while under the influence of intoxicating liquor and that the person had refused to submit to, or failed to complete, the test after being requested by the officer, shall suspend his privilege to operate a motor vehicle for a period of six months. No such suspension shall become effective until 10 days after the giving of written notice thereof, as provided for in subdivision (c).

(c) The department shall immediately notify such person in writing of the action taken and upon his request in writing and within 15 days from the date of receipt of such request shall afford him an opportunity for a hearing in the same manner and under the same conditions as provided in Article 3 (commencing with Section 14100) of Chapter 3 of this division. For the purposes of this section the scope of the hearing shall cover the issues of whether the peace officer had reasonable cause to believe the person had been driving a motor vehicle upon a highway while under the influence of intoxicating liquor, whether the person was placed under arrest, whether he refused to submit to, or failed to complete, the test after being requested by a peace officer, and whether, except for the persons described in paragraph (a) above who are incapable of refusing, he had been told that his driving privilege would be suspended if he refused to submit to, or failed to complete, the test.

An application for a hearing made by the affected person within 10 days of receiving notice of the department's action shall operate to stay the suspension by the department for a period of 15 days during which time the department must afford a hearing. If the department fails to afford a hearing within 15 days, the suspension shall not take place until such time as the person is granted a hearing and is notified of the department's action as hereinafter provided. However, if the affected person requests that the hearing be continued to a date beyond the 15-day period, the suspension shall become effective immediately upon receipt of the department's notice that said request for continuance has been granted.

If the department determines upon a hearing of the matter to suspend the affected person's privilege to operate a motor vehicle, the suspension herein provided shall not become effective until five days after receipt by said person of the department's notification of such suspension.

(d) Any person who is afflicted with hemophilia shall be exempt from the blood test required by this section.

(e) Any person who is afflicted with a heart condition and is using an anticoagulant under the direction of a physician and surgeon shall be exempt from the blood test required by this section.

(f) A person lawfully arrested for any offense allegedly committed while the person was driving a motor vehicle under the influence of intoxicating liquor may request the arresting officer to have a chemical test made of the arrested person's blood, breath or urine for the purpose of determining the alcoholic content of such person's blood, and, if so requested, the arresting officer shall have the test performed.

SEC. 3. It is the intent of the Legislature, if amendments to Section 13353 of the Vehicle Code proposed by both this bill and Senate Bill No. 241 are enacted, that both amendments be given effect and incorporated in Section 13353 in the form set forth in Section 2 of this act. Therefore, in the event Senate Bill No. 241 is enacted and amends Section 13353, Section 2 of this act shall become operative at the same time that Section 13353 as amended by Senate Bill No. 241 becomes operative, and at that time, Section 13353 of the Vehicle Code as amended by Section 1 of this act is repealed.

The people of the State of California do enact as follows:

SECTION 1. Section 232 of the Civil Code is amended to read:

232. An action may be brought for the purpose of having any person under the age of 21 years declared free from the custody and control of either or both of his parents when such person comes within any of the following descriptions:

(a) Who has been left without provision for his identification by his parent or parents or by others or has been left by both of his parents or his sole parent in the care and custody of another without any provision for his support, or without communication from such parent or parents, for a period of six months with the intent on the part of such parent or parents to abandon such person. Such failure to provide identification, failure to provide, or failure to communicate for a period of six months shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that such parent or parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(b) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody for the period of one year prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

(c) Whose parent or parents are habitually intemperate, or morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such intemperance, or moral depravity, for the period of one year continuously immediately prior to the filing of the petition praying that he be declared free from the custody and control of such habitually intemperate or morally depraved parent or parents.

(d) Whose parent or parents are deprived of their civil rights due to the conviction of a felony, if the felony of which such parent or parents were convicted is of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child, or if any term of sentence of such parent or parents is of such length that the child will be deprived of a normal home for a period of years.

(e) Whose parent or parents have, in a divorce action, been found to have committed adultery and been divorced on that

ground, if the court finds that the future welfare of the child will be promoted by an order depriving such parent or parents of the control and custody of the child.

(f) Whose parent or parents have been declared by a court of competent jurisdiction to be mentally deficient or mentally ill, if the State Director of Mental Hygiene and the superintendent of the state hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

(g) Whose parent or parents are, and will remain incapable of supporting or controlling the child in a proper manner because of mental deficiency or mental illness, if there is testimony to this effect from two medical examiners certified under Section 5000 of the Welfare and Institutions Code. The parent or parents shall be cited to be present at the hearing, and if he or they have no attorney, the judge shall appoint an attorney or attorneys to represent the parent or parents and fix the compensation to be paid by the county for such services, if he determines the parent or parents are not financially able to employ counsel.

A licensed adoption agency may institute under this section, an action to declare a child, as described in this section, free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel, or if there is no county counsel, the district attorney shall in a proper case institute such action.

[Approved by Governor August 14, 1970. Filed with
Secretary of State August 14, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 22007 of the Financial Code is repealed.

SEC. 2. Section 22011 is added to the Financial Code, to read:

22011. "Commercial loan" means any loan in which:

(a) The borrower is a corporation, a general or limited partnership, or a joint venture; or

(b) A substantial part of the security for the loan consists of property used primarily for other than personal, family, or household purposes; or

(c) The borrower is self-employed, on a full- or part-time basis and represents in writing to the lender that a substantial portion of the proceeds of the loan will be used for the purpose of carrying on his business or businesses or acquiring a business or businesses. The lender shall not be required to ascertain that the proceeds of the loan are used in accordance with such representation.

A loan which otherwise qualifies as a commercial loan is not affected by the fact that any person other than the borrower may become or be personally obligated to repay the loan as either a comaker, endorser, or guarantor.

SEC. 3. Section 22053 of the Financial Code is amended to read:

22053. The following sections of this division do not apply to any loan of a bona fide principal amount of ten thousand dollars (\$10,000) or more, or to any commercial loan of a bona fide principal amount of five thousand dollars (\$5,000) or more, or to a duly licensed personal property broker in connection with any such loan or loans, if the provisions of this section are not used for the purpose of evading this division: Sections 22004, 22005, 22404, 22405, 22450, 22451, 22451.1, 22453, 22454, 22455, 22456, 22457, 22458, 22458.1, 22458.2, 22458.3, 22458.4, 22458.5, 22459, 22460, 22461, 22462, 22463, 22464, 22465, 22467, 22468, 22469, 22470, 22472, 22473, 22474, 22480, 22650, 22651, and 22652.

SEC. 4. Section 22054 of the Financial Code is amended to read:

22054. In determining under Section 22053 whether a loan is a loan of a bona fide principal amount of ten thousand dollars (\$10,000) or more and whether the provisions of that section are used for the purpose of evading this division, the following principles apply:

(a) If a borrower applies for a loan in a principal amount of less than ten thousand dollars (\$10,000) and a loan to that borrower of a principal amount of ten thousand dollars (\$10,000) or more is made by a licensed personal property broker, and

(1) No adequate economic reason for the increase in the size of the loan exists, and

(2) By prearrangement or understanding between the borrower and the licensee a substantial payment is to be made upon the loan with the effect of reducing the principal amount of the loan to less than ten thousand dollars (\$10,000) within a short time after the making of the loan other than by reason of a requirement that the loan be paid in substantially equal periodical installments, then the loan shall not be deemed to be a loan of the bona fide principal amount of ten thousand dollars (\$10,000) or more and the provisions of Section 22053 shall be deemed to be used for the purpose of evading this division

unless the loan complies with the provisions of this division relating to loans of less than ten thousand dollars (\$10,000).

(b) An individual advance of money of less than ten thousand dollars (\$10,000) pursuant to a revolving loan agreement or similar agreement between a borrower and a licensed personal property broker, or a loan agreement providing for the making of advances to the borrower from time to time up to an aggregate maximum amount, shall be deemed to be a loan of a principal amount of ten thousand dollars (\$10,000) or more if the total unpaid principal amount of all loans owing by the borrower to the licensed personal property broker after any such advance, including the additional advance, is ten thousand dollars (\$10,000) or more.

(c) If a loan made by a licensed personal property broker is in a principal amount of ten thousand dollars (\$10,000) or more, the fact that the transaction is in the form of a sale of accounts, chattel paper, contract rights, goods or instruments or a lease of goods shall not be deemed to affect the loan or the bona fides of the amount thereof or to indicate that the provisions of Section 22053 are used for the purpose of evading this division. As used herein, "accounts," "chattel paper," "contract rights," "goods" and "instruments" shall have the same meaning as in the Commercial Code.

This section shall be deemed declaratory of existing law and not amendatory thereof.

SEC. 5. Section 22054.1 is added to the Financial Code, to read:

(a) If a borrower applies for a loan in a principal amount of less than five thousand dollars (\$5,000), and a loan to that borrower of a principal amount of five thousand dollars (\$5,000) or more is made by a licensee, and

(1) No adequate economic reason for the increase in the size of the loan exists, and

(2) By prearrangement or understanding between the borrower and the licensee a substantial payment is to be made upon the loan with the effect of reducing the principal amount of the loan to less than five thousand dollars (\$5,000) within a short time after the making of the loan other than by reason of a requirement that the loan be paid in substantially equal periodic installments, then the loan shall not be deemed to be a commercial loan of a bona fide principal amount of five thousand dollars (\$5,000) or more and the provisions of Section 22053 shall be deemed to be used for the purpose of evading this division unless the loan complies with the provisions of this division relating to noncommercial loans of less than ten thousand dollars (\$10,000).

(b) An individual advance of money of less than five thousand dollars (\$5,000) pursuant to a revolving loan agreement or similar agreement between a borrower and a licensee, or a loan agreement providing for the making of advances to the borrower from time to time up to an aggregate maximum amount shall be deemed to be a commercial loan of a bona fide principal amount of five thousand dollars (\$5,000) or more if the total unpaid principal amount of all loans owing by the borrower to the licensee after any such advance, including the additional advance, is five thousand dollars (\$5,000) or more.

(c) If a loan made by a licensee is in a principal amount of five thousand dollars (\$5,000) or more, the fact that the transaction is in the form of a sale of accounts, chattel paper, contract rights, goods or instruments or a lease of goods shall not be deemed to affect the loan or the bona fides of the amount thereof or to indicate that the provisions of Section 22053 are used for the purpose of evading this division. As used herein, "accounts," "chattel paper," "contract rights," "goods" and "instruments" shall have the same meaning as in the Commercial Code.

The application shall be considered withdrawn within the meaning of this section if the applicant fails to respond to a written notification of a deficiency in such application within six months of the date of such notification. The commissioner shall within 60 days from the filing of the application for a license with the fees and the approved bond, either issue a license or file a statement of issues prepared in accordance with the provisions of Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2, of the Government Code.

The report shall be made under oath and in the form prescribed by the commissioner.

For the calendar year of the effective date of the amendment of this section enacted at the 1970 Regular Session of the Legislature, annual reports shall be prepared in the form prescribed by the commissioner and shall be made under oath.

22480. This article applies only to loan contracts payable in substantially equal and consecutive monthly installments of principal and charges combined, the first of which is due not less than 15 days nor more than one month and 15 days from the date the loan is made. In lieu of computing charges and applying payments as provided in Section 22454, a licensee may precompute charges and apply payments as follows:

(a) The total charges which would be earned if the contract were repaid exactly according to its terms, at the monthly rate stated in the contract, may be precomputed when the loan is made and added to the principal of the loan. For the purpose of computation a month shall be that period of time from any date in one month to the corresponding date in the next month and if there is no such corresponding date, then to the last day of the said next month. The principal amount of the loan shall be its face value as referred to in Section 22455. Every payment may be applied to the combined total of principal and precomputed charges until the contract is fully paid. The acceptance of payment of charges on loans made under the provisions of this article shall not be deemed to constitute payment, deduction or receipt thereof in advance nor compounding under Section 22455. Such precomputed charges shall be subject to the following adjustments:

(1) The portion of the precomputed charge applicable to any particular monthly installment period shall bear the same ratio to the total precomputed charge, excluding any adjustment made for a first period of more than one month, as the balance scheduled to be outstanding during that monthly period bears to the sum of all monthly balances scheduled originally by the contract of loan.

(2) If the loan contract is prepaid in full by cash, a new loan, refinancing or otherwise before the final installment date, the borrower shall receive a rebate of the portion of the precomputed charge applicable to the full installment periods following the installment date nearest the date of such prepayment; provided, however, that if prepayment in full occurs on or before:

(i) The third installment date if the loan contract provides for charges at a rate not exceeding that set forth in Section 22451, or,

(ii) The ninth installment date, or such different installment date as shall have been established by rule of the commissioner adopted pursuant to Section 22400, if the loan contract provides for charges at a rate exceeding that rate set forth in Section 22451, the rebate shall be the difference between the total precomputed charge and the charges at the contract rate computed on unpaid principal balances by applying each payment first to charges and the remainder to principal. After the installment date in (i) or (ii) above, whichever is applicable, any prepayment made on or before the 15th day following an installment date shall be deemed to have been made on the installment date preceding such prepayment. The tender, by the borrower or at his request, of an amount equal to the unpaid balance less the required rebate must be accepted by the licensee in full payment of the contract.

(3) If three or more, but not all, installments are prepaid in full at any one time a special rebate shall be made which shall be equal to the portion of precomputed charge applicable to the last installment period multiplied by the total number of full months such installments are prepaid. Such special rebate shall be computed and made at the termination of the contract and shall be an addition to any required rebate for prepayment in full.

(4) If the payment date of all wholly unpaid installments on which no default charge has been collected is deferred one or more full months and the contract so provides, the licensee may charge and collect a deferment charge. Such deferment charge shall not exceed the portion of precomputed charge applicable, prior to deferment, to the first deferred monthly installment period multiplied by the number of months the maturity of the contract is deferred. Such number of months shall not exceed the number of full installments which are in default on the date of deferment or which may become due within 15 days of such date. When a deferment charge is made, no portion of the precomputed charge shall apply to the installment periods in which no installment payment is required by reason of the deferment. In computing any default charge or required rebate, the portion of the precomputed charge applicable to each deferred balance and installment period following the deferment period and prior to the deferred maturity shall remain the same as that applicable to such balances and periods under the original contract of loan. Such charge may be collected at the time of deferment or at any time thereafter. Any payment received at the time of deferment may be applied first to the deferment charge and the remainder, if any, applied to the unpaid balance of the contract; provided, however, if such payment is sufficient to pay, in addition to the appropriate deferment charge, any installment which is in default and the applicable default charge, it shall be first so applied and any such installment shall not be deferred nor subject to the deferment charge.

puting the refund of precomputed charges in case of prepayment in full or acceleration of maturity and for computing default and deferment charges. The delivery of a receipt for each payment showing the total amount of each payment is compliance with subdivision (d) of Section 22473.

(c) If the maturity of the contract when the charges are precomputed is accelerated for any reason, the licensee shall make the same refund or credit as would be required if the

unpaid balance shall be treated as the unpaid principal balance and thereafter the unpaid balance of the contract shall bear charges at the agreed rate of charge if the loan contract so provides.

SEC. 24. It is the intent of the Legislature, if amendments to Section 22473 to the Financial Code proposed by both this bill and A.B. 1852 are enacted, that both amendments be given effect and incorporated in Section 22473 in the form set forth in Section 21.5 of this act. Therefore, in the event A.B. 1852 is enacted and amends Section 22473, Section 21.5 of this act shall become operative at the same time that Section 22473 as amended by A.B. 1852 becomes operative, and at that time, Section 22473 of the Financial Code as amended by Section 21 of this act is repealed.

Such plates shall be renewed between the inclusive dates of January 1 through February 4 every three years by application and payment of the five-dollar (\$5) service charge, except that payment shall be a four-dollar (\$4) service charge on renewal or original applications for 1970, and a three-dollar (\$3) service charge on renewal or original applications for 1971. Such applications for 1970 and 1971 shall expire in two and one years, respectively, to place all such identification plates on an identical three-year basis. Thereafter, the five-dollar (\$5) service charge on original applications for such identification plates shall be decreased by one dollar (\$1) for each subsequent year of the three-year cycle.

As used in this section, three years means three (3) calendar years. Any part of the year of first application shall constitute a calendar year.

This section shall not prohibit a school district from making a payment of earned salary prior to the last working day of the pay period or of the month.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing at Section 13701) of this chapter.

SEC. 2. Section 21114.5 of the Education Code is amended to read:

21114.5. In any school district situated wholly or partly within a city containing a population of over 1,900,000 persons, according to the 1950 federal census as an alternative to the payment procedures prescribed by Section 21114, orders for the payment of wages, and payroll orders for the payment of wages and warrants for the payment of wages of employees employed full time in positions not requiring certification qualifications shall be drawn once each two weeks, or once each four weeks on days designated in advance by the governing board of the district. The payroll order may direct the transfer from the districts' funds to a clearing fund in the county treasury, to be known as the schools payroll revolving fund, of the total of the amount of the payroll warrants to be issued under the order to the end that payroll warrants for all districts may be drawn against a single revolving fund. The payroll order may further direct the transfer from the districts' funds of the totals of the various deductions set forth therein to the trust funds in the county treasury entitled to receive credit for them and may further direct the proper disbursement of such trust amounts.

When the payroll procedure provides for payment of salary once each month the payment shall be made on the last working day of the month as required by Section 13604.

The taxing agency need not accept such a payment actually received in the mail if it is received more than 30 days after the date and time set by law for the payment.

2512.5. If a remittance to cover a payment required by law to be made to a taxing agency prior to a specified date and hour before being delinquent is deposited in the United States mail in a sealed envelope, properly addressed with postage prepaid, on the date the same becomes delinquent, the remittance shall be deemed received before delinquency on the date shown by the post office cancellation mark stamped upon the envelope containing the remittance or on the date it was mailed if proof satisfactory to the agency establishes that the mailing occurred on an earlier date. CHAPTER 749

An act to amend Sections 3050, 3051, and 3100 of the Welfare and Institutions Code, relating to involuntary commitment of persons addicted or in imminent danger of becoming addicted to narcotics.

[Approved by Governor August 14, 1970. Filed with
Secretary of State August 14, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 3050 of the Welfare and Institutions Code is amended to read:

3050. Upon conviction of a defendant of any crime in a municipal or justice court, or following revocation of probation previously granted, whether or not sentence has been imposed, if it appears to the judge that the defendant may be addicted or by reason of repeated use of narcotics may be in imminent danger of becoming addicted to narcotics, such judge shall adjourn the proceedings or suspend the imposition or execution of the sentence, certify the defendant to the superior court and order the district attorney to file a petition for a commitment of the defendant to the Director of Corrections for confinement in the narcotic detention, treatment and rehabilitation facility.

Upon the filing of such a petition, the superior court shall order the defendant to be examined by two physicians. At least one day before the time of the examination as fixed by the court order, a copy of the petition and order for examination shall be personally delivered to the defendant. A written report of the examination by the physicians shall be delivered to the court, and if the report is to the effect that the person is not addicted nor in imminent danger of addiction, it shall so certify and return the defendant to the municipal or justice court which certified such defendant to the superior court for such further proceedings as the judge of such municipal or justice court deems warranted. If the report is to the effect that the defendant is addicted or is by reason of the repeated use of narcotics in imminent danger of addiction, further proceedings shall be conducted in compliance with Sections 3104, 3105, 3106, and 3107 of Article 3.

If, after a hearing, the judge finds that the defendant is a narcotic addict, or is by reason of the repeated use of narcotics in imminent danger of becoming addicted thereto, and is not ineligible for the program under the application of Section 3052 hereof, he shall make an order committing such defendant to the custody of the Director of Corrections for confinement in the facility until such time as he is discharged pursuant to Article 5 of this chapter, except as this chapter permits earlier discharge. In any case to which Section 3052 applies, the judge may request the district attorney to investigate the facts relevant to the advisability of commitment pursuant to this section. In unusual cases, wherein the interest of justice would best be served, the judge may, with the concurrence of the district attorney and defendant, order commitment notwithstanding Section 3052. If, upon the hearing, the judge shall find that the defendant is not a narcotic addict and is not in imminent danger of becoming addicted to narcotics, he shall so certify and return the defendant to the municipal or justice court which certified such defendant to the superior court for such further proceedings as the judge of such municipal or justice court deems warranted.

If a person committed pursuant to this section is dissatisfied with the order of commitment, he may within 10 days

after the making of such order, file a written demand for a jury trial in compliance with Section 3108.

SEC. 2. Section 3051 of the Welfare and Institutions Code is amended to read:

3051. Upon conviction of a defendant for any crime in any superior court, or following revocation of probation previously granted, whether or not sentence has been imposed, if it appears to the judge that the defendant may be addicted or by reason of repeated use of narcotics may be in imminent danger of becoming addicted to narcotics he shall adjourn the proceedings or suspend the imposition or execution of the sentence and order the district attorney to file a petition for commitment of the defendant to the Director of Corrections for confinement in the narcotic detention, treatment and rehabilitation facility unless, in the opinion of the judge, the defendant's record and probation report indicate such a pattern of criminality that he does not constitute a fit subject for commitment under this section.

Upon the filing of such a petition, the court shall order the defendant to be examined by two physicians. At least one day before the time of the examination as fixed by the court order, a copy of the petition and order for examination shall be personally delivered to the defendant. A written report of the examination by the physicians shall be delivered to the court, and if the report is to the effect that the person is not addicted nor in imminent danger of addiction, it shall so certify and return the defendant to the department of the superior court which directed the filing of the petition for such further proceedings on the criminal charges as the judge of such department deems warranted. The facts constituting such necessity are:

A recent decision of the California Supreme Court has cast serious doubt upon the constitutionality of a provision which would authorize persons literate in Spanish or English to vote but would prohibit persons literate in another language from voting.

Assembly Constitutional Amendment No. 7 of the 1969 Regular Session enacted as Resolutions Chapter 308 of the Statutes of 1969 is hereby rescinded, and the Secretary of State shall not submit it to the people of the state for approval or ratification.

If the respective constitutional amendment was not adopted unanimously by the house in which it was introduced, one member of that house, who voted against it, shall be appointed by the presiding officer of that house to write an argument against the measure. If there was no negative vote on the measure in the house in which it was introduced, the presiding officer of that house shall appoint some qualified person to draft an argument against the measure. No argument shall exceed 500 words. All such arguments shall be filed with the Secretary of State within 10 days after either the effective date of this act or the adoption by the Legislature of the respective Senate constitutional amendment, whichever occurs later.

Each title and analysis shall be filed with the Secretary of State within 10 days after either the effective date of this act or the adoption by the Legislature of the respective Senate constitutional amendment, whichever occurs later. Each measure submitted pursuant to this act shall be designated on the ballot at the election by its ballot title.

SEC. 7. (a) Notwithstanding Section 4 of Assembly Bill No. 2107 of the 1970 Regular Session of the Legislature, there shall be submitted to the people at the general election, to be held on the third day of November, 1970, the act to amend an initiative act entitled "An act prescribing the terms upon which licenses may be issued to practitioners of chiropractic, creating the State Board of Chiropractic Examiners and declaring its powers and duties, prescribing penalties for violation hereof, and repealing all acts and parts of acts inconsistent herewith," approved by electors November 7, 1922, by amending Sections 4 and 10 thereof, proposed by Assembly Bill No. 2107 of the 1970 Regular Session of the Legislature. (b) Within five days after the effective date of this section or within five days after the adoption by the Legislature of Assembly Bill No. 2107, whichever occurs later, the author and first coauthor of the bill and one member of the opposite house who voted with the majority on the bill, shall be appointed by the presiding officers of the respective houses to draft the argument for the adoption of the measure. If the bill was not adopted unanimously by the house in which it was introduced, one member of that house, who voted against it, shall be appointed by the presiding officer of that house to write an argument against the measure. If there was no negative vote on the measure in the house in which it was introduced, the presiding officer of that house shall appoint some qualified person to draft an argument against the measure. No argument shall exceed 500 words. All such arguments shall be filed with the Secretary of State within two days after the date of appointment.

(c) Upon the effective date of this section or upon the date of the adoption by the Legislature of Assembly Bill No. 2107, whichever occurs later, the Secretary of State shall request the Attorney General to prepare a ballot title for the measure submitted pursuant to this section and shall also request the Legislative Counsel to prepare an analysis of said measure in accordance with Section 3566 of the Elections Code. SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Various conflicting constitutional amendments have been adopted which will be submitted to the people at the November 1970 general election. It is necessary to revise these measures to eliminate these conflicts. In addition, the various constitutional amendments which have been adopted by the Legislature will not appear on the November ballot unless action is taken immediately. For these reasons, it is necessary that this act go into immediate effect.

Amounts equal to the actual costs incurred by the Department of Motor Vehicles in performing its duties pursuant to Article 8.5 are hereby continuously appropriated from the fund to the department, and shall be transferred to, and in augmentation of, the appropriation from which such costs were paid. The balance of the moneys in such fund shall be available for expenditure for the purposes and uses of the California Environmental Protection Program upon appropriation by the Legislature.

SEC. 7. Article 8.5 (commencing with Section 5100) is added to Chapter 1 of Division 3 of the Vehicle Code, to read:

Article 8.5. Personalized License Plates

5100. The purpose of this article is to provide revenue for the California Environmental Protection Program Fund.

5101. Any person who is the registered owner of a passenger motor vehicle registered with the department or who makes application for an original registration of a passenger motor vehicle or renewal registration of a passenger motor vehicle

may, upon payment of the fee prescribed in Section 5106 of this article, apply to the department for personalized license plates, in the manner prescribed in Section 5105, which plates shall be affixed to the passenger motor vehicle for which registration is sought in lieu of the regular license plates.

5102. The personalized license plates shall be the same color and design as regular passenger motor vehicle license plates, and shall consist of numbers or letters, or any combination thereof not exceeding six positions and not less than two positions, provided that there are no conflicts with existing passenger, commercial, trailer, motorcycle, or special license plates series or with the provisions of Section 4851.

5103. "Personalized license plates," as used in this article, means license plates that have displayed upon them the registration number assigned to the passenger motor vehicle for which such registration number was issued in a combination of letters or numbers, or both, requested by the owner of the vehicle.

5104. Personalized license plates shall be issued only to the registered owner of the vehicle on which they are to be displayed.

5105. An applicant for issuance of personalized license plates or renewal of such plates in the subsequent year pursuant to this article shall file an application therefor in such form and by such date as the department may require, indicating thereon the combination of letters or numbers, or both, requested as a registration number. There shall be no duplication of registration numbers, and the department may refuse to issue any combination of letters or numbers, or both, that may carry connotations offensive to good taste and decency or which would be misleading or a duplication of license plates provided for in Article 8 (commencing with Section 5000) of Chapter 1 of Division 3.

5106. In addition to the regular registration fee, the applicant shall be charged a fee of twenty-five dollars (\$25). In addition to the regular renewal fee, the applicant for a renewal of such plates shall be charged an additional fee of ten dollars (\$10).

5107. All revenue derived from the fees provided for in Sections 5106 and 5108 shall be deposited in the California Environmental Protection Program Fund.

5108. Whenever any person who has been issued personalized license plates applies to the department for transfer of such plates to a subsequently acquired passenger motor vehicle, a transfer fee of twelve dollars (\$12) shall be charged in addition to all other appropriate fees.

5109. When any person who has been issued personalized license plates sells, trades, or otherwise releases ownership of the vehicle upon which the personalized licensed plates have been displayed, he shall immediately report the transfer of such plates to an acquired passenger motor vehicle pursuant to Section 5108 or he shall surrender such plates to the depart-

ment forthwith and release his priority to the letters or numbers, or combination thereof, displayed on the personalized license plates.

5110. The director may establish such rules and regulations as may be necessary to carry out the purposes of this article.

SEC. 8. Any reference in any law to the California Environmental Protection Program Fund created by Senate Bill No. 262 of the 1970 Regular Session of the Legislature shall be deemed to refer to such fund as created by either Senate Bill No. 262 or Assembly Bill No. 522 of the 1970 Regular Session of the Legislature, or by both.

SEC. 9. This act shall be known and may be cited as the Marks-Badham Environmental Protection and Research Act.

SEC. 10. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Motor vehicles are a major contributor to air pollution in this state, and the need to abate such pollution is growing greater each day. Only through research into all phases of this problem can we take a giant step to preserving and protecting California's environment and the health of the people of this state. The program established under this act will serve as an instrument to solve this serious and dangerous problem. It is therefore necessary that the legislation which establishes such programs be given effect immediately.

CHAPTER 780

An act to amend Sections 15505 and 15512 of the Education Code, relating to public school buildings, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 21, 1970 Filed with
Secretary of State August 21, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 15505 of the Education Code is amended to read:

15505. If the district does not have sufficient funds available to permit the governing board of the district to proceed with the repair, reconstruction, or replacement of the building or buildings, the governing board shall within 12 months after receiving the report of the examination of the building or buildings, call an election. At such election there shall be submitted to the qualified electors of the district either proposition (a) or (b), or both propositions (a) and (b), as determined by the governing board of the district, as follows:

(a) (1) Authorization of bonds of the district in an amount sufficient, as shown by the estimate, to provide funds for the repair, or reconstruction, of the building or buildings, in accordance with the governing board's plan; or

(2) Authorization of bonds of the district in an amount sufficient as shown by the estimate obtained by the district to construct new school facilities on the site of one or more of the unfit building or buildings, or on other sites, in accordance with the governing board's plan.

(b) Authorization of the increase of the maximum tax rate of the district for such length of time as will permit raising sufficient funds by district taxation for the repair, reconstruction, or replacement of the building in accordance with the governing board's plan.

In connection with the submission of either proposition (a) or (b), or both propositions (a) and (b), the governing board of the district may submit to the qualified electors of the district a proposition for the abandonment of the building and the use of tents or other temporary structures for school purposes in lieu of the building abandoned.

Neither of the propositions under (a) and (b) shall be required to make provision for financing of the entire repair, reconstruction or replacement program of the district, but shall at least provide funds for commencement of such repair, reconstruction or replacement, consistent with the governing board's plan.

SEC. 2. Section 15512 of the Education Code is amended to read:

15512. The governing board of each school district required to act pursuant to Section 15503 shall, within 12 months after receiving the report of the examination of the building or buildings, place on file with the Bureau of School Planning within the Department of Education a summary of all reports of examinations and estimates relating to school buildings which have not been repaired, reconstructed or replaced in accordance with law, including a summary of previous elections held and actions taken concerning this matter, if any, and a statement of intentions to repair, reconstruct or replace such buildings which shall constitute the governing board's plan. The plan shall include the approximate date it is contemplated that such actions to repair, reconstruct or replace each such building will occur.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to preclude the necessity on the part of school districts having to hold elections this year, elections which they would not have to hold under the provisions of this act, in regards to the method of raising the necessary funds for the replacement or reconstruction of school buildings not constructed in conformance with the standards of the Field Act, it is necessary that this act take effect immediately.

CHAPTER 781

An act to amend Sections 10219 and 10301 of the Elections Code, relating to elections, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 21, 1970. Filed with Secretary of State August 21, 1970.]

The people of the State of California do enact as follows:

(c) No more than three words designating the principal professions, vocations or occupations of the candidate; provided, however, that if a candidate ceases to engage in a particular profession, vocation or occupation 59 days or more prior to the general election, he may not designate that profession, vocation or occupation on the general election ballot.

(c) No more than three words designating the principal professions, vocations or occupations of the candidate; provided, however, that if a candidate ceases to engage in a particular profession, vocation or occupation 59 days or more prior to the general election, he may not designate that profession, vocation or occupation on the general election ballot.

The designation shall be the same as appears in the affidavit of registration of the candidate. If upon checking the nomination paper the officer in charge of the election finds the wording to be different than that upon the registration affidavit of the candidate, he shall notify the candidate by registered mail, return receipt requested. The candidate shall within three

days from the date of receipt of the notice appear before the officer and reregister to conform with the request for the designation that appears on his nomination paper. Any candidate at the direct primary election who is elected at a special election held to fill a vacancy in the office for which he is a candidate or in any other office, and who receives his certificate of election and takes his oath of office, may use any appropriate designation as set forth in Section 10219 on the general election ballot, regardless of the designation he may have used on the direct primary election ballot.

In all cases words so used shall be printed in eight-point roman boldface capitals and lowercase type.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This statute must take immediate effect in order to prevent misleading ballot designations on the 1970 general election ballot.

CHAPTER 782

An act to add Article 5.5 (commencing with Section 11922) to Chapter 10 of Part 3 of Division 6 of the Water Code, relating to financing a program of planning and developing recreation and fish and wildlife enhancement in connection with state water projects by providing the funds necessary therefor through the issuance and sale of bonds of the State of California, providing for the handling and disposition of such funds, and providing for the submission of this act to a vote of the people at the general election to be held in the month of November 1970.

[Approved by Governor August 21, 1970. Filed with
Secretary of State August 21, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Article 5.5 (commencing with Section 11922) is added to Chapter 10 of Part 3 of Division 6 of the Water Code, to read:

**Article 5.5. Recreation and Fish and
Wildlife Enhancement Bond Act**

11922. The Legislature finds and declares that due to insufficient funds recreation and fish and wildlife enhancement facilities of state water projects are generally inadequate to accommodate the demands made upon them at the present time and will become critically inadequate as time progresses and that this condition is not in accordance with the policy of the Legislature as set forth in Sections 11900 and 11901.

11922.1. The Legislature further finds and declares that a guaranteed source of funding is necessary in order to carry out the intent of this chapter.

11922.2. The purpose of this article is to provide funds to assist in meeting the costs of planning and developing facilities for recreation and fish and wildlife enhancement in connection with state water projects pursuant to the provisions of this chapter as the same may now or hereafter be amended.

Funds made available pursuant to this article shall only be used for facilities of the State Water Facilities as defined in subdivision (d) of Section 12934.

11922.3. The expenditures of the proceeds of bonds issued pursuant to this article shall be as hereafter provided by the Legislature. All proposed appropriations for the program contemplated by this article shall be included in a section in the Budget Bill for each fiscal year for consideration by the Legislature, and shall bear the following caption: "Recreation and Fish and Wildlife Enhancement Bond Act Program." Such section shall contain separate items for each project for which an appropriation is made, except Wildlife Conservation Board projects which are developed cooperatively with and maintained by local government. Wildlife Conservation Board Bond Act projects shall be subject to existing statutory procedures and legislative review and shall be listed in the Wildlife Conservation Board's annual report as the: "Recreation and Fish and Wildlife Enhancement Bond Act Program". Such appropriations shall be subject to all of the limitations contained in the Budget Bill and to all other fiscal procedures prescribed by law with respect to the expenditure of state funds. Such section shall contain proposed appropriations only for the programs contemplated by this article, and, except as otherwise provided, no funds derived from the bonds authorized by this article may be expended pursuant to an appropriation not contained in such section of the Budget Act.

11922.4. Bonds in the total amount of sixty million dollars (\$60,000,000), or so much thereof as is necessary, of which not more than fifty-four million dollars (\$54,000,000) shall be allocated to the Department of Parks and Recreation for the design and construction of recreation facilities and not more than six million dollars (\$6,000,000) shall be allocated to the Department of Fish and Game and the Wildlife Conservation Board for design and construction of fish and wildlife enhancement features and fishing access sites pursuant to

this chapter, may be issued and sold to provide a fund to be used for carrying out the purposes of this article and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. Such bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California are hereby pledged for the punctual payment of both principal and interest on such bonds as such principal and interest become due and payable.

11922.5. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal and interest on bonds issued and sold pursuant to this article, as such principal and interest become due and payable. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, such sum in addition to the ordinary revenues of the state as shall be required to pay the principal and interest on such bonds maturing in such year, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of such revenue to do and perform each and every act which shall be necessary to collect such additional sum.

11922.6. The proceeds of bonds issued and sold pursuant to this article, together with interest earned thereon, if any, shall be deposited in the Recreation and Fish and Wildlife Enhancement Fund, which fund is hereby created. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

11922.7. The Recreation and Fish and Wildlife Enhancement Finance Committee is hereby created to carry out the purposes of this article. The committee consists of the Governor or his designee, the State Controller, the Director of Finance, the State Treasurer, and the Secretary for Resources. As used in this article, and for the purposes of this article as used in the State General Obligation Bond Law, "committee" means the Recreation and Fish and Wildlife Enhancement Finance Committee. The Secretary of the Resources Agency is hereby designated as the board for the purposes of this article and for the purposes of the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3, Division 4, Title 2 of the Government Code).

11922.8. Insofar as it is not inconsistent with the express provisions of this article, the State General Obligation Bond Law [Chapter 4 (commencing with Section 16720) of Part 3, Division 4, Title 2 of the Government Code], is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to the bonds authorized to be issued by this article, and the provisions of that law are included in this article as though set out in full in this article.

11922.9. For the purposes of carrying out the provisions of this article the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purposes of carrying out this article. Any amounts withdrawn shall be deposited in the Recreation and Fish and Wildlife Enhancement Fund. Any moneys made available under this section shall be returned to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out the provisions of this article.

SEC. 2. Section 1 of this act shall take effect upon adoption by the people of the Recreation and Fish and Wildlife Enhancement Bond Act, as set forth in Section 1 of this act. Sections 3 and 4 of this act contain provisions relating to and necessary for the submission of the Recreation and Fish and Wildlife Enhancement Bond Act to the people and for returning, canvassing, and proclaiming the votes thereon, and shall take effect immediately; provided, however, that the Recreation and Fish and Wildlife Enhancement Bond Act as set forth in Section 1 of this act shall not be submitted to the people at any time unless this act is approved by two-thirds or more of the members elected to each house of the Legislature.

SEC. 3. The Recreation and Fish and Wildlife Enhancement Bond Act, as set forth in Section 1 of this act, shall be submitted to the people of the State of California for their ratification at the next general election, to be held in the month of November 1970, and all ballots of such election shall have printed thereon and in a square thereof, the words: "For the Recreation and Fish and Wildlife Enhancement Bond Act," and in the same square under such words the following in eight-point type: "This act provides for a bond issue of sixty million dollars (\$60,000,000) to be used to meet the recreation and fish and wildlife enhancement requirements of the people of this state by planning and developing facilities for recreation and fish and wildlife enhancement purposes." In the square immediately below the square containing such words, there shall be printed on such ballot the words: "Against the Recreation and Fish and Wildlife Enhancement Bond Act," and in the same square immediately below such words, in eight-point type shall be printed: "This act provides for a bond issue of sixty million dollars (\$60,000,000) to be used to meet the recreation and fish and wildlife enhancement requirements of the people of this state by planning and developing facilities for recreation and fish and wildlife enhancement purposes." Opposite the words "For the Recreation and Fish and Wildlife Enhancement Bond Act", and "Against the Recreation and Fish and Wildlife Enhancement Bond Act," there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against such act, and those voting

for such act shall do so by placing a cross opposite the words "For the Recreation and Fish and Wildlife Enhancement Bond Act", and those voting against such act shall do so by placing a cross opposite the words: "Against the Recreation and Fish and Wildlife Enhancement Bond Act". Provided, that where the voting of such election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, such use of such voting machines and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section. The Governor of this state shall include the submission of this act to the people, as aforesaid, in his proclamation calling for such election.

SEC. 4. The votes cast for or against the Recreation and Fish and Wildlife Enhancement Bond Act shall be counted, returned and canvassed and declared in the same manner, and subject to the same rules as votes cast for state officers; and if it appears that this act shall have received a majority of all the votes cast for and against it at such election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrevocable until the principal and interest of the liabilities herein created shall be paid and discharged, and the Governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

CHAPTER 783

C. "Authority" means the Colorado River Toll Bridge Authority.

D. "Toll bridge" means the bridge crossing the Colorado River near Needles, California, at a point between the location of the present Bureau of Reclamation bridge and a point $2\frac{1}{2}$ miles upstream, which the authority is authorized to finance, construct, operate, and maintain as a toll facility pursuant to this compact, and includes all appurtenances and additions, alterations, or improvements thereto or replacements thereof, the approaches thereto, all lands and interest used therefor, and buildings and improvements thereon.

E. "Bond" means any written evidence of indebtedness which the authority may issue pursuant to this compact in order to secure funds with which to carry out the purpose of this compact.

G. Nothing in this compact prevents the state from making appropriations from time to time in aid of the construction of the toll bridge or other improvements, acquisition of franchises or rights appurtenant thereto, meeting expenses of making preliminary surveys, plans, and estimates of the cost thereof, and meeting other preliminary expenses as the Legislatures deem proper.

Article II. Organization of the Authority

A. The Colorado River Toll Bridge Authority is hereby created.

B. The authority shall be governed by a board consisting of seven members. Five of these members, to be known as the "appointed members," shall be residents and taxpayers who live within a 15-mile radius of the City Hall of Needles, California. Two of the appointed members shall be appointed by the Board of Supervisors of Mohave County, Arizona, from the Mohave Valley area. Two of the appointed members shall be appointed by the Board of Supervisors of San Bernardino County from the Needles, California area. One of the appointed members, who shall serve as chairman of the board, shall be appointed jointly by the San Bernardino County and Mohave County Boards of Supervisors. Article III. General Powers and Duties of the Authority

A. The authority may study the feasibility of and plan, design, finance, construct, operate, and maintain the toll bridge, together with any necessary connections with other state highways and county roads in the area.

B. As an alternative to the construction, maintenance, and operation of the toll bridge by the authority itself, the authority may contract with a person, firm, or corporation for such construction, maintenance, and operation by him or it on behalf of the authority under such terms and conditions as the authority may prescribe, including, but not limited to, a lease-purchase arrangement with, and the issuance and transfer of revenue bonds of the authority to, such person, firm, or corporation.

C. The authority shall fix the rates of toll and other charges for the toll bridge.

D. The authority in establishing toll charges shall give consideration to the cost of operating and maintaining the toll bridge, including the cost of insurance, and to the amount required annually to meet the redemption of bonds and interest payments thereon. At all times the tolls and charges shall be fixed at rates sufficient to yield annual revenue equal to annual operating and maintenance expenses, including insurance costs, and all redemption payments and interest charges of the bonds issued for the toll bridge as they fall due.

E. Toll charges so fixed may be changed from time to time as conditions warrant.

F. The authority may do such acts and make such agreements as are necessary or desirable in connection with the duties and powers conferred upon it.

G. The authority, through such engineers or experts as it may employ, shall design the toll bridge and may build it, or any portions of it, either by its own employees or by contract with any person, firm, or corporation. The cost of the toll bridge shall be paid from the proceeds of bonds issued and sold pursuant to this compact, or from contributions or appropriations from other sources as provided in this compact.

H. The authority shall keep full, complete, and separate accounts of the toll bridge and annually shall prepare balance sheets, income statements, and profit and loss statements showing the financial condition of the toll bridge. The financial statements shall be open at all reasonable times to the inspection of holders of bonds issued by the authority.

I. (1) The authority may issue permits for the use of the toll bridge on a credit basis. The holder of such a permit shall furnish to, and maintain in force with, the authority a cash deposit or a corporate surety bond in an amount equal to twice the authority's estimate of the toll charges to be incurred under such permit during a one-month period.

(2) The authority may require the holder of such permit to increase the amount of cash bond or to furnish an additional surety bond, or may reduce the amount of the cash bond or surety bond required, as the amount of charges incurred and regularity of payment warrant, or may revoke any permit granted for failure of the holder to comply with its terms.

(3) The authority may also require the holder of any such permit to pay a fee not to exceed five dollars (\$5) a month to cover printing and other overhead expense, the proceeds thereof to be deposited in the fund from which such expenses are paid.

J. When necessary to facilitate movement of traffic, the authority may limit the use of the toll bridge on a credit basis to particular classes of vehicles.

K. (1) The authority may adopt rules and regulations not inconsistent with the California Vehicle Code or Title 28 of the Arizona Revised Statutes for the control of traffic on the toll bridge to aid and insure the safe and orderly flow of traffic, and shall so far as practicable notify the public of such rules and regulations by signs placed along the route to the toll bridge.

(2) The California Highway Patrol and the Arizona Highway Patrol shall have concurrent authority and it shall be their duty to provide proper and adequate policing of the toll bridge to insure the enforcement thereon of the California Vehicle Code, Title 28 of the Arizona Revised Statutes, and rules and regulations adopted by the authority pursuant to this paragraph, and to cooperate with the authority so that the toll bridge will be operating efficiently at all times in carrying traffic.

(3) All required accident and supplemental reports, and all other reports made to the California Highway Patrol or the Arizona Highway Patrol by any peace officer or employee of the California Department of Motor Vehicles or of the Arizona Motor Vehicles Division relative to accidents and incidents occurring on property of the authority shall be immediately available for the confidential use of the authority.

Article IV. Bonds

A. Whenever the authority determines that it is for the best interests of the public highways in the State of California and the State of Arizona that the toll bridge be constructed and operated by the authority, based upon preliminary estimates of the cost of construction, an estimate of the amount required to be raised for that purpose by the issuance of revenue bonds, and a statement prepared by its staff of the probable amount of money, property, materials, or labor to be contributed from other sources in aid of the construction, it shall adopt a resolution declaring that public interest and necessity require the construction of the toll bridge and authorizing the issuance of revenue bonds for the purpose of obtaining funds in an amount not in excess of that estimated to be required for the construction of the toll bridge.

B. Bonds issued by the authority shall not constitute or be a debt, liability, or obligation of the State of California, the State of Arizona, the County of San Bernardino, or the County of Mohave. The payment of both principal and interest of all bonds shall be secured only by the tolls or other revenues collected from the toll bridge, other revenues and interest thereon, and sinking funds created therefrom received by the authority, and shall be paid from such tolls or revenues or from such other contributions or appropriations as may be made available pursuant to this compact.

C. All bonds authorized shall be issued in the name of the authority and shall constitute obligations of the authority only. Such bonds shall be identified as toll bridge bonds and shall contain a recital on the face thereof that the payment or redemption of the bonds and the payment of the interest thereon is secured by a direct and exclusive charge and lien upon the tolls and other revenues received from the operation of the toll bridge, and that neither the payment of the principal or any part thereof or any interest thereon, constitutes a debt, liability, or obligation of the State of California, the State of Arizona, the County of San Bernardino, or the County of Mohave.

D. (1) The authority shall determine the form, conditions, and denominations of all bonds, the dates which the bonds to be sold shall bear, and the interest rate thereon.

(2) The rate of interest need not be uniform for all bonds of the same authorized issue. Principal and interest of the bonds shall be payable at such places as are fixed and determined by the authority. The bonds may contain provisions for regis-

tration as to principal only or as to both principal and interest. The bonds shall be issued in coupon form with interest payable at such times as are determined by the authority, and shall mature at such times and in such amounts as the authority prescribes.

(3) The authority may provide for the retirement of the bonds at any time prior to their maturity, in such manner and upon payment of such premiums as may be fixed and determined in the proceedings providing for the issuance of the bonds and referred to therein.

E. All bonds shall be signed by the treasurer and countersigned by the chairman. The signatures of the treasurer and the chairman may be by facsimile, but the bonds shall be authenticated by such signatures as the bond resolution or indenture may require. All interest coupons shall bear the facsimile signature of the treasurer. In case any officer whose signature or countersignature appears on the bonds or coupons ceases to hold his office before the delivery of the bonds to the purchaser, his signature or countersignature is nevertheless valid and sufficient for all purposes, as if he had remained in office until the delivery of the bonds.

F. All revenue bonds authorized may be issued and sold by the authority from time to time and in such amounts as the authority deems necessary to provide sufficient funds for the purposes for which the bonds were authorized, including the payment of interest on the bonds during the period of actual construction and for a period of six months thereafter.

G. Bonds authorized may be sold below the par or face value thereof and shall include the interest which has accrued thereon up to the date of delivery of the bonds.

H. Successive issues of bonds within the limits of the original authorization for the issuance of bonds for the construction of the toll bridge shall have equal preference with respect to the redemption thereof and the payment of interest thereon, but the authority may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization.

I. All bonds issued and sold shall be sold on sealed proposals to the highest and best bidder after such advertising for bids as the authority deems proper. The authority may reject any and all bids submitted and may thereafter sell the bonds so advertised for sale at private sale under such terms and conditions as it deems most advantageous to its own interest, but the bonds shall not be sold at a price below that of the best bid which was rejected.

J. Temporary or interim bonds, certificates, or receipts signed by the treasurer, of any denomination and with or without coupons attached thereto, may be issued and delivered until the definitive bonds are executed and available for delivery.

K. The purchase price of all bonds issued shall be paid to the treasurer for the account of the authority.

L. The authority may include in the proceedings authorizing the issuance of bonds any provisions not inconsistent with this compact which limit, restrict, or regulate the holding, deposit, investment, and application of money consisting of the proceeds from the sale of the bonds or the tolls and other revenues received from the operation of the toll bridge, and such provisions shall constitute a contract with the holders of the bonds and shall be binding upon the authority as long as the bonds are outstanding.

M. The authority may provide in the proceedings authorizing the issuance of bonds for the setting up of one or more reserve funds out of the proceeds of the bonds or out of the tolls and other revenues not needed for the payment of interest on the bonds and the principal of the bonds as they currently mature, and for the preservation and continuance thereof in a manner to be provided therein. The authority may also require the immediate application of all surplus money in the toll revenue fund to the retirement, by call or purchase of the bonds prior to maturity in such manner and upon such terms and upon the payment of such premiums as the authority deems advisable.

N. The authority may provide in the proceedings authorizing the issuance of bonds, or may otherwise agree with the purchasers of bonds, regarding the deposit of all money constituting the Construction Fund and the Toll Revenue Fund, and may provide for the deposit of such money at such times with such depositories or paying agents upon the furnishing of such security as may meet with the approval of the purchasers of the bonds. The depositories and security provided for or agreed upon, however, shall be qualified and eligible in accordance with the laws of the state in which the money is deposited.

O. The authority may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this compact, and the purchase and carrying of such insurance shall thereupon be obligatory upon the authority and be paid for out of the Toll Revenue Fund as may be specified in the proceedings.

P. Whenever any bonds are to be issued, the authority may enter into indentures or agreements containing any or all of the following provisions:

(1) Providing for the amount, form, maturities, registration, and transfer and interchange of the bonds and coupons, and the terms and conditions upon which they shall be issued, sold, paid, retired, funded, and refunded.

(2) Providing for a sinking fund for the bonds and designating a trustee or trustees, which shall be a bank or trust company or banks or trust companies duly qualified to do business in the State of California or the State of Arizona, to receive and disburse the revenues of the toll bridge or improvements.

(3) Providing that as long as any of such bonds are outstanding, there shall be raised in each year by tolls not less than the minimum amounts required for interest, sinking fund, redemption, and reserve requirements for the bonds, in addition to the amount needed for current operating and maintenance expenses, including insurance costs required to be paid from such sources.

(4) Such other provisions for the protection of the holders of the bonds as the authority approves, including, but not limited to subparagraphs (1), (2), and (3), provisions that in the event of refusal or failure to comply with any provisions of this compact or any other applicable law, or of any agreement made with the holders of the bonds or of any issue thereof, the holders of a stated percentage in aggregate principal amount of the then outstanding bonds, or of such issue thereof, as the case may be, may, in accordance with such appropriate procedure as is provided in the agreement or indenture, appoint a trustee to represent all the holders of the bonds, or all the holders of the issue thereof, as the case may be, in the matter of exercising and prosecuting on their behalf such rights and remedies as are available to them under the law. The authority shall, in its absolute discretion, fix the terms and conditions upon which the trustee or trustees shall receive, hold, and disburse the revenues and may prescribe the powers and duties of the trustee or trustees.

Q. All benefits conferred or obligations imposed by this compact or by any other law with respect to making provision for the payment, whether from tolls or other revenues received from the use and operation of the toll bridge or from other sources, of expenses in connection with the operation, maintenance, and insurance of, and the construction of approaches to, the toll bridge, shall, notwithstanding the retirement or discharge of any or all of the bonds issued by the authority for the purpose of constructing the toll bridge, inure to and continue for the benefit of any other bonds issued in addition to, funding of, or refunding of the bonds originally issued.

R. The authority may contract loans and borrow money through the sale of bonds of the same character as those authorized from the United States or any of its departments, agencies, or instrumentalities upon such conditions and terms as may be agreed to. Such bonds shall be subject to all the provisions of this compact, except the requirement that the bonds be first offered at public sale pursuant to advertisement.

S. (1) If a bond issue for the construction of the toll bridge is authorized and sold in whole or in part, and the authority deems it advisable and advantageous to enlarge or extend the toll bridge or to change the structure or design thereof in order to afford new or greater facilities for any type or class of traffic, the authority may issue additional bonds for such purpose. The additional bonds shall be issued only if the surrender and cancellation of all outstanding bonds issued for the

construction of the toll bridge as originally designed can be assured or obtained by call or by consent of the holders thereof. The additional bonds shall not constitute a debt or obligation of the State of California, the State of Arizona, the County of San Bernardino, or the County of Mohave, but shall be bonds of the authority of the same character and payable from the same funds as other bonds authorized. The pledge of the tolls and other revenues to be received from the operation of the toll bridge to the payment of outstanding bonds shall not be lessened, diminished, or affected in any way by the issuance of the additional bonds.

(2) If the outstanding bonds issued for the construction of the toll bridge as originally designed are, at the time of issuance of the additional bonds, by their terms subject to immediate retirement before maturity at the option of the authority, or if the holders consent to the retirement of such bonds, the authority may include in the issue of bonds to be sold for the purpose of enlarging or extending the toll bridge or changing the design thereof, an amount of bonds sufficient to produce funds with which to retire the outstanding bonds according to their terms. Before any of the additional bonds are delivered, the authority shall first duly call the outstanding bonds for redemption in accordance with their terms and conditions, or obtain the consent of the holders thereof to their retirement.

(3) Out of the proceeds derived from the sale of any such additional bonds, there shall be set aside an amount of money sufficient to retire such outstanding bonds as may be thereafter presented for payment. Bonds of the new authorized issue may be delivered in part in exchange for a like principal amount of outstanding bonds of the original issue, if the holders of the outstanding bonds to be exchanged consent thereto.

(4) All provisions of this compact apply with like force and effect to the issuance of any bonds of the new authorized issue, and the holders thereof are subrogated to all the rights and powers of the holders of the bonds which are surrendered in exchange therefor, except as such rights and powers are modified by the express terms of the bonds of the new authorized issue or the proceedings authorizing their issuance.

T. (1) Whenever bonds have been issued and are outstanding, the authority may from time to time, or at one time, issue and sell or exchange funding or refunding bonds for the purpose of retiring, paying, funding, or refunding either all or such part of the outstanding bonds, or of one or more issues or series thereof, as it deems advisable. Such funding or refunding bonds shall be issued and delivered only when the issue or series of bonds to be funded or refunded have matured, are about to mature, or are subject to retirement before maturity; or if the outstanding bonds are not subject to retirement, the retirement thereof has been assured or obtained by consent of the holders thereof. Funding or refunding bonds may be delivered in part in exchange for outstanding bonds

to be funded or refunded thereby, if the holders of the outstanding bonds to be exchanged consent thereto.

(2) Funding or refunding bonds shall not constitute a debt or obligation of the State of California, the State of Arizona, the County of San Bernardino, or the County of Mohave, but shall be bonds of the authority of the same character and payable from the same funds as other authorized bonds. Any and all reserve or other funds applicable to the payment of the bonds funded or refunded may, if so directed by the authority, be transferred to any reserve or other funds provided with respect to the funding or refunding bonds. The pledge of the tolls and other revenues to be received from the operation of the toll bridge to the payment of outstanding bonds shall not be lessened, diminished, or affected in any way by the issuance of such funding or refunding bonds.

(3) Except as otherwise provided in this article, and except as modified by the express terms of the funding or refunding bonds or the proceedings authorizing their issuance, all the provisions of this compact apply to such funding or refunding bonds and to the issuance and sale or exchange thereof, and the holders thereof shall be subrogated to all the rights and powers of the holders of the bonds funded or refunded thereby or surrendered in exchange therefor.

(4) Any funding or refunding bonds may be issued in a principal amount sufficient to provide funds for:

(a) The payment of the bonds to be funded or refunded thereby.

(b) All expenses incidental to the calling, retiring, or payment of the outstanding bonds and the issuance of the funding or refunding bonds, including the difference in amount between the par value of the funding or refunding bonds and any amount less than par value for which they may be sold.

(c) Any amount necessary to be made available for the payment of interest upon the funding or refunding bonds from the date of their sale to the date of maturity, payment of the bonds to be funded or refunded out of the proceeds of the sale, and payment on the date which the bonds to be funded or refunded will be paid pursuant to call thereof or agreement with the holders thereof.

(d) The premium, if any, necessary to be paid in order to call or retire the outstanding bonds.

U. All bonds issued are negotiable instruments.

V. All bonds issued and the income therefrom are exempt from state and local taxation, except for transfer, inheritance, and estate taxes.

W. The bond redemption and interest payments constitute a first direct and exclusive charge and lien on all tolls and other revenues, and interest thereon, and sinking funds created therefrom received from the use and operation of the toll bridge. Such tolls and revenues, together with the interest earned thereon, constitute a trust fund for the security and payment of the bonds and shall not be used or pledged for any

other purpose as long as any such bonds are outstanding and unpaid.

X. While any bonds issued by the authority remain outstanding, the powers, duties, or existence of the authority shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of the bonds.

Y. The holder of any bond may, by mandamus or other appropriate proceeding, compel the performance of any of the duties imposed upon the authority or its officers, agents, and employees in connection with the construction, maintenance, operation, and insurance of the toll bridge, in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation of the toll bridge, and in connection with the deposit, investment, and disbursement of the proceeds received from the sale of bonds. The enumeration of rights and remedies in this compact does not exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds.

Z. (1) The California Superintendent of Banks and the Arizona Superintendent of Banks may investigate and ascertain the status or sufficiency of bonds issued by the authority as investments for savings banks in the respective states. If upon investigation it is determined in his opinion that such bonds constitute a proper investment for savings banks, he shall so certify. In his discretion he may revoke any such certificate issued by him.

(2) All bonds issued by the authority which have been first certified by the California Superintendent of Banks or the Arizona Superintendent of Banks are legal investments for all trust funds, for the funds of all insurance companies, commercial and savings banks, and trust companies, and for state school funds in the respective state.

(3) Any money or funds which may be by California or Arizona law invested in bonds of the cities, counties, or school districts in the state may, in the respective state, be invested in the bonds issued by the authority.

(4) Whenever any bonds of the State of California or the State of Arizona, or of any city, county, or school district thereof, may be used as security for the performance of any act or the deposit of any public money, the bonds issued by the authority may, in the respective state, be used for such purpose.

Article V. Custody and Use of Money

A. The proceeds from the sale of all authorized bonds shall be paid to the treasurer for the credit of the authority and shall be deposited immediately as demand deposits in such depository or depositories as are authorized by law to receive deposits of state funds in the state in which deposited, to the credit of a fund to be designated as the Construction Fund. The fund shall at all times be kept segregated and set apart from all other funds.

B. The proceeds from the sale of the bonds shall be paid out or disbursed solely for the construction of the toll bridge, the acquisition of the necessary lands and easements therefor, and the payment of interest on the bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor arises. The authority may agree with the purchaser of the bonds upon any conditions or limitations restricting the disbursement of such funds which are deemed advisable for the purpose of assuring the proper application of the funds.

C. All money in the Construction Fund not required to meet current construction costs of the toll bridge, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they are required to be applied or to which they are pledged, shall be invested in bonds and obligations eligible for investment of surplus state money in the state in which invested. The authority may provide in the proceedings authorizing the issuance of the bonds that the investment of such money shall be made only in particular bonds and obligations within the classifications eligible for such investment, and such provisions shall be binding upon the authority and all officials having anything to do with the investment.

D. Any surplus which exists in the Construction Fund shall be applied to the retirement, by purchase or call, of bonds issued for the construction of the toll bridge. If such bonds cannot be purchased at a price satisfactory to the authority and are not by their terms callable prior to maturity, the surplus shall be paid into the fund applicable to the payment of principal and interest of such bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying the surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called, and such limitations and conditions shall be followed and observed in the application and use of the surplus. All bonds retired by purchase or call shall be canceled immediately.

E. All tolls or other revenues received from the operation of the toll bridge shall be deposited immediately by the treasurer in such depository authorized by law to receive deposits of state funds, to the credit of a special fund to be designated as the Toll Revenue Fund, which fund shall at all times be kept segregated and set apart from all other funds.

F. From the money deposited in the Construction Fund, the treasurer shall transfer to the place or places of payment named in the bonds such sums as are required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of the toll bridge during the period of actual construction and during the period of six months immediately thereafter. The treasurer shall thereafter transfer from the Toll Revenue Fund to the place or places of payment named in

the bonds such sums as are required to pay the interest on the bonds and to redeem the principal thereof as such interest payments and bond redemptions fall due for all bonds issued and sold for the construction of the toll bridge. All funds transferred for the payment of principal or interest on bonds issued for the toll bridge shall be segregated and applied solely for the payment of such principal and interest.

G. The money remaining in the Toll Revenue Fund, after providing the amount required for interest and redemption of bonds, shall be held and applied as provided in the proceedings authorizing the issuance of the bonds. If the proceedings authorizing the issuance of the bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the construction, operation, and maintenance of the toll bridge as the authority determines, including reimbursement to the County of San Bernardino and the County of Mohave for any services performed.

H. Money required to meet the costs of construction of the toll bridge, and all expenses and costs incidental thereto, or to meet the costs of operating, maintaining, and repairing the toll bridge, shall be paid from the proper fund upon demand of the authority.

I. All interest received or earned on money deposited in each and every fund provided for in this compact, shall be credited to and become a part of the particular fund upon which the interest accrues.

J. Notwithstanding any other provision in this compact, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of the toll bridge may be used to defray any expenses incurred by the authority in connection with and incidental to the issuance and sale of bonds for the construction of the toll bridge, including expenses for the preparation of surveys and estimates and the making of inspections and examinations as may be required by the purchasers of the bonds, except that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of the bond proceeds and toll or other revenues for the purposes specified in this section.

K. Notwithstanding any other provision in this compact, the first issue of bonds shall include an amount sufficient to repay, with interest as required, any and all amounts appropriated by the Legislatures of the State of California and the State of Arizona for the support of the authority.

Article VI. Acquisition and Disposition of Property

A. As used in this article, "property" means any real or personal property, franchises, rights, privileges, or easements.

B. When the construction of the toll bridge is authorized by the authority, it may acquire by gift, purchase, or eminent domain proceedings any property necessary therefor. This

article shall not apply to any portion of the state highway systems of California and Arizona.

C. In any eminent domain proceeding to acquire property for the purpose of this compact, any property appropriated or dedicated to a public use or purpose by any person or public entity may be condemned and taken; and the acquisition and use thereof as provided in this compact for the same public use or purpose to which such property has been appropriated or dedicated, or for any other public use or purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which such property has already been appropriated or dedicated.

It shall not be necessary in any eminent domain proceeding pursuant to this paragraph, to plead or prove any acts or proceedings preliminary or prior to the adoption of the resolution provided for in this article describing the property sought to be taken and directing such proceedings.

C. Pursuant to the Constitution and the laws relating to eminent proceedings of the state that is the situs of the property, the authority may condemn and take, in fee or otherwise, any property, whether publicly or privately owned and whether or not already devoted to a public use or purpose, deemed necessary for the toll bridge.

D. The authority shall commence any such proceedings in eminent domain whenever it first passes a resolution declaring that public interest and necessity require the construction of the toll bridge and that the acquisition of any particular property is necessary therefor. Such resolution shall be conclusive evidence:

- (1) Of the public necessity of such construction.
- (2) That the acquisition of the fee, or other interest, of the property is necessary.
- (3) That such proposed construction is planned or located in a manner which will be most compatible with the greatest public good and the least private injury.

E. The authority may condemn and take, in fee or otherwise, any real property considered necessary for the purpose of exchanging it for other real property to be used for any of the purposes of this compact.

Real property may be acquired for such purpose only when the owner of the property needed for a purpose provided in this compact has agreed in writing to such exchange, and when, in the opinion of the authority, an economy in the acquisition of the necessary property can be effected thereby. The determination of the authority is conclusive evidence of all matters set forth in this section.

F. The right-of-way is given, dedicated, and set apart upon which to locate, construct, and maintain the toll bridge through, over, under, on, or across any property of the states that are parties to this compact now or hereafter owned, opened, or dedicated to or for public use and howsoever ac-

quired, and through, over, under, on, or across the streets, alleys, lanes, and roads now or hereafter opened or dedicated to or for public use and howsoever acquired which are now or may be within any public entity.

G. If any property belonging to any public entity is taken for the construction of the toll bridge, or if any such property is injured or damaged by such construction, and the payment of compensation therefor is necessary, proper and necessary compensation therefor as is agreed upon may be paid by the authority to the particular public entity owning or in charge of such property, or the authority may direct that eminent domain proceedings be brought pursuant to this article for the determination of such compensation, including the determination of the interest of any such public entity in such property and the necessity for the payment of such compensation.

Whenever the authority requires a public utility to remove and relocate any utility facility, the authority shall reimburse the owner of the public utility facility for the expense of the removal and relocation.

H. In all cases where, by statute or otherwise, any right is reserved or granted to either the State of California or the State of Arizona or any state agency of either state, to construct or maintain highways, bridges, or approaches thereto, or other highway crossings, over, through, under, on, or across any public or private property, the authority is entitled to the benefit of such reservation or grant.

I. Whenever any property acquired for any of the purposes of this compact, whether by agreement, grant, or eminent domain, either in fee or in any lesser estate or interest, is no longer necessary for use in connection with any improvement authorized to be constructed pursuant to this compact, or whenever a lesser interest than is owned therein is sufficient for the construction, maintenance, and operation of any improvement, or whenever it is for any other reason in the public interest so to do, the property, any part thereof, or any interest therein may be leased, sold, exchanged, or otherwise disposed of or dealt with by the authority in the manner, upon such terms, and subject to such reservations as it deems necessary or desirable.

J. Any money received for the disposal of property shall be deposited into the fund from which payment for the property was made.

K. Whenever, either before or after the construction or reconstruction of streets, sidewalks, or other like facilities upon any property or interest in property acquired pursuant to this compact, it appears desirable to dedicate the property to public use for such purpose, the authority may dedicate or transfer the property to the state, or any public entity thereof, within which it is located, subject, however, to any rights or interests necessary for the proper construction, maintenance, and operation of the toll bridge which extends through, over, under, on, or across the property.

Article VII. Insurance of Property

A. When the toll bridge is being built by the authority, it may carry or cause to be carried such an amount of insurance or indemnity bond as protection against loss or damage as it deems proper.

B. The authority may carry insurance in such amount as it deems proper to cover any accident or destruction, in part or in whole, to the toll bridge until all bonds sold, and interest accrued thereon, for the construction of the toll bridge have been fully redeemed.

C. All money collected on any indemnity bond or insurance policy as the result of any damage or injury to the toll bridge shall be used for the purpose of repairing or rebuilding the toll bridge, as long as there are revenue bonds against such structure outstanding and unredeemed.

D. The authority may also carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from the toll bridge by reason of any interruption in the use of the toll bridge from any cause whatever. The proceeds of the insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the toll bridge so insured are required to be paid and shall be applied to the same purposes and in the same manner as other money in the fund. The insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of the toll bridge during any period of time determined by the authority and fixed in its discretion, and may be paid for out of the toll revenue fund as specified in the proceedings.

Article VIII. Local Cooperation

A. Any public entity, upon the request of the authority, may advance or contribute money, rights-of-way, labor, materials, and other property for the construction and maintenance of the toll bridge, and for the preliminary surveys and the preparation of plans and estimates of cost thereof and other preliminary expenses. Appropriations for such purposes may be made from any funds available, including highway funds received from the state.

B. Any public entity may issue general obligation bonds for purposes of paragraph A of this article. All proceedings for the authorization, issue, and sale of such bonds shall be pursuant to the law governing the issue and sale of bonds for public improvements by the particular public entity.

C. Money or property advanced or contributed pursuant to this article may be immediately transferred or delivered to the authority to be used for the purpose for which such advance or contribution was made.

D. The authority may enter into a binding agreement with any public entity to repay any money or the value of any rights-of-way, labor, materials, or other property advanced or

contributed toward the expense of constructing the toll bridge, but no repayment therefor shall be made until all obligations issued by the authority for the construction of such toll bridge have been fully redeemed and paid, and then only out of the tolls and revenues received from the operation of the toll bridge.

E. The collection of tolls shall be continued on the toll bridge until all bonds issued for its construction are fully redeemed and paid.

F. After all bonds issued for the construction of the toll bridge have been fully redeemed and paid, the authority may continue to collect tolls and other revenues for the use of the toll bridge for the purpose of reimbursing the State of California and the State of Arizona for any expenditures which may have been made by them in connection with the toll bridge and for the purpose of repayment to any public entity the amount the authority has agreed to repay for contribution to the construction of the toll bridge.

Article IX. Operation and Maintenance After Retirement of Bonds

A. After all bonds issued pursuant to this compact for the construction of the toll bridge have been fully redeemed and paid, the authority shall transfer the toll bridge to the State of California, to the State of California and the State of Arizona jointly, to public entities (other than this authority) designated by the states, or to the Counties of San Bernardino and Mohave County, jointly, for its operation and maintenance under an agreement, if necessary, executed pursuant to California and Arizona law. Upon such agreement, the toll bridge shall be operated and maintained free of tolls.

B. If ownership of toll bridge is transferred as provided in paragraph A of this article, the existence of the authority shall thereupon automatically terminate, and all property, funds, and records relating to the toll bridge shall be transferred in the same manner. The agency or agencies receiving title to the toll bridge shall be responsible for the maintenance, repair, and operation of the toll bridge, and for the fulfillment of any outstanding contracts executed by the authority and the payment of any outstanding debts or liabilities incurred by the authority.

Article X. Ratification

A. This compact shall become operative when ratified by the Legislatures of the States of California and Arizona and consented to by the Congress of the United States.

B. This compact shall remain in full force and effect until amended in the same manner as is required for it to be ratified to become operative or until terminated.

C. A copy of any proposed amendments to or termination of this compact shall be filed with the Board of Supervisors

of San Bernardino County, California, and Mohave County, Arizona, at least 30 days prior to any legislative consideration by the Legislatures of the States of California and Arizona.

CHAPTER 784

An act to amend an initiative act entitled "An act, to be known as the usury law, relating to the rate of interest which may be charged for the loan or forbearance of money, goods or things in action, or on accounts after demand, or on judgments, providing penalties for the violation of the provisions hereof, and repealing sections one thousand nine hundred seventeen, one thousand nine hundred eighteen, one thousand nine hundred nineteen, and one thousand nine hundred twenty of the Civil Code and all acts and parts of acts in conflict with this act," approved by electors November 5, 1918, by amending Section 3, thereof, relating to loan-sharking, such amendment to take effect upon the approval thereof by the electors, and providing for the submission thereof to the electors pursuant to subdivision (c) of Section 24 of Article IV of the State Constitution, and calling a special election to be consolidated with the general election of 1970, to take effect immediately.

[Approved by Governor August 24, 1970 Filed with
Secretary of State August 24, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 3 of the act cited in the title is amended to read:

Sec. 3. (a) Every person, company, association or corporation, who for any loan or forbearance of money, goods or things in action shall have paid or delivered any greater sum or value than is allowed to be received under the preceding sections, one and two, may either in person or his or its personal representative, recover in an action at law against the person, company, association or corporation who shall have taken or received the same, or his or its personal representative, treble the amount of the money so paid or value delivered in violation of said sections, providing such action shall be brought within one year after such payment or delivery.

(b) Any person who willfully makes or negotiates, for himself or another, a loan of money, credit, goods, or things in action, and who directly or indirectly charges, contracts for, or receives with respect to any such loan any interest or charge of any nature, the value of which is in excess of that allowed by law, is guilty of loan-sharking, a felony, and is punishable by imprisonment in the state prison for not more than five years or in the county jail for not more than one year. This subdivision shall not apply to any person licensed to make or

negotiate, for himself or another, loans of money, credit, goods, or things in action, or expressly exempted from compliance by the laws of this state with respect to such licensure or interest or other charge, or to any agent or employee of such person when acting within the scope of his agency or employment.

CHAPTER 785

An act making an appropriation to the Mountain View School District in Los Angeles County, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 27, 1970. Filed with Secretary of State August 27, 1970.]

The people of the State of California do enact as follows:

SECTION 1. The Mountain View School District in Los Angeles County is an impoverished school district in the state and has suffered significant decline in revenues which will cause great financial hardship and will render it impossible for the district to meet its fixed financial commitments for the year, including those made for the payment of employees' salaries. If the school district is unable to meet its contracted obligations, employees, as well as creditors, many of whom are small businessmen in the community, will suffer great financial injury.

The Legislature finds that the unique circumstances in the Mountain View School District in Los Angeles County require immediate and special legislation and that a general statute cannot be made applicable to these circumstances within the meaning of Section 16 of Article IV of the California Constitution. The appropriation made by Section 2 of this act is made in view of the unique circumstances in the Mountain View School District in Los Angeles County, and is made for that purpose only. It is not the intention of the Legislature to establish a precedent with respect to the appropriation made by this act, but rather to assist in a situation involving unique circumstances when appropriate justification for such assistance has been found.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury the sum of one hundred sixty-four thousand dollars (\$164,000), or so much thereof as may be necessary, to the Mountain View School District in Los Angeles County to enable the district to pay contracted indebtedness, due and owing, in the 1969-1970 fiscal year.

SEC. 3. The Superintendent of Public Instruction shall, during the 1970-1971, 1971-1972, and 1972-1973 fiscal years, withhold from the apportionments to be made to the district from the State School Fund in each of those years an amount equal to one-third of the amount actually disbursed to the district from the appropriation made pursuant to Section 2 of this act, together with amounts representing interest at a rate based on the most current investment rate of the Pooled Money Investment Account as of the date of disbursement of funds to the district pursuant to Section 2 of this act. Such withholdings shall be directed to the end that the entire amount disbursed, plus the interest, shall have been recouped by the state at the end of the 1972-1973 fiscal year.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that money may be made available to the Mountain View School District in Los Angeles County at the earliest possible time to aid the district in averting a financial crisis which directly involves the entire area of the district, it is necessary that this act take immediate effect.

Resources Code, relating to oil and gas conservation.*

[Approved by Governor September 2, 1970. Filed with
Secretary of State September 2, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 3106 of the Public Resources Code is amended to read:

3106. The supervisor shall so supervise the drilling, operation, maintenance, and abandonment of wells as to prevent, as far as possible, damage to life, health, property, and natural resources; damage to underground oil and gas deposits from infiltrating water and other causes; loss of oil, gas, or reservoir energy; and damage to underground and surface waters suitable for irrigation or domestic purposes by the infiltration of, or the addition of, detrimental substances, by reason of the drilling, operation, maintenance, or abandonment of wells.

The supervisor shall also supervise the drilling, operation, maintenance, and abandonment of wells so as to permit the owners or operators of such wells to utilize all methods and practices known to the oil industry for the purpose of in-

creasing the ultimate recovery of underground hydrocarbons and which, in the opinion of the supervisor, are suitable for such purpose in each proposed case. In order to further the elimination of waste by increasing the recovery of underground hydrocarbons it is hereby declared as a policy of this state that the grant in an oil and gas lease or contract to a lessee or operator of the right or power, in substance, to explore for and remove all hydrocarbons from any lands in the State of California, in the absence of an express provision to the contrary contained in such lease or contract, is deemed to allow the lessee or contractor or his successors or assigns, to do what a prudent operator using reasonable diligence would do, having in mind the best interests of the lessor, lessee and the state, in producing and removing hydrocarbons, including but not limited to the injection of air, gas, water or other fluids into the productive strata, the application of pressure heat or other means for the reduction of viscosity of the hydrocarbons, the supplying of additional motive force or creating of enlarged or new channels for the underground movement of hydrocarbons into production wells, when such methods or processes employed have been approved by the supervisor; provided, however, nothing contained in this section imposes a legal duty upon such lessee or contractor, his successors or assigns, to conduct such operations.

SEC. 2. Section 3220 of the Public Resources Code is amended to read:

3220. The owner or operator of any well on lands producing or reasonably presumed to contain oil or gas shall properly case it with water-tight and adequate metal casing, in accordance with methods approved by the supervisor or the district deputy, and shall, under his direction, shut off all water overlying and underlying oil-bearing or gas-bearing strata and prevent any water from penetrating such strata. The owner or operator shall also use every effort and endeavor to prevent damage to life, health, property, and natural resources; to shut out detrimental substances from strata containing water suitable for irrigation or domestic purposes and from surface water suitable for such purposes; and to prevent the infiltration of detrimental substances into such strata and into such surface water.

SEC. 3. Section 3224 of the Public Resources Code is amended to read:

3224. The supervisor shall order such tests or remedial work as in his judgment are necessary to prevent damage to life, health, property, and natural resources; to protect oil and gas deposits from damage by underground water; or to prevent the escape of water into underground formations, or to prevent the infiltration of detrimental substances into underground or surface water suitable for irrigation or domestic purposes, to the best interests of the neighboring property owners and the public. The order shall be in writing, signed by the supervisor. It shall be served upon the owner of the well, or his local agent,

either personally or by mailing a copy of the order to the post office address given at the time the local agent is designated. If no local agent has been designated, the order shall be served by mailing a copy to the last known post office address of the owner, or if the owner is unknown, by posting a copy in a conspicuous place upon the property, and publishing it once a week for two successive weeks in some newspaper of general circulation throughout the county in which the well is located. The order shall specify the conditions sought to be remedied and the work necessary to protect such deposits from damage from underground water.

Unless this act becomes effective immediately, the application of this act to the fall 1970 academic term will be lost.

If the average daily attendance in schools and classes maintained by school districts other than regular day schools and classes for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in such schools and classes reported for the second period report, the separate state support which is provided for attendance in such schools and classes shall be recomputed on the basis of the fiscal year average daily attendance, and increases and decreases in apportionments shall be added or withheld in the next succeeding fiscal year pursuant to Section 17414.

(b) The average daily attendance in grades 13 and 14 of the regular day schools of each junior college shall be determined pursuant to the provisions of Article 5.5 (commencing with Section 11475). For junior colleges, under the provisions of this paragraph, the "first period" shall be the first semester and the "second period" shall be the "academic year" (first and second semester). The average daily attendance in each period shall not exceed 1.2 times the number of different pupils enrolled in the district during the period.

(c) The average daily attendance in summer school and outdoor science and conservation education classes maintained during the period between the last day the regular day schools are in session during the preceding year and the first day the regular day schools are in session during the current year shall be reported on both the first period and second period reports. Such average daily attendance shall be computed by dividing the days of attendance by 175. For junior colleges, the hours of attendance shall be divided by 525, and the average daily attendance shall not exceed 1.2 times the total number of different pupils enrolled in the district in the summer school.

(d) The attendance for schools and classes maintained by the county superintendent of schools and for the county school tuition fund credited after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. The average daily attendance of the school, class, or fund shall be determined for the first period by dividing the days of attendance by 100 and for the second period, the days of attendance shall be divided by 175.

(e) The days of attendance in classes for adults continuation schools and classes, regional occupation centers and opportunity schools and classes maintained after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. For the purpose of this section trust funds or funds otherwise dedicated are defined as

(1) Unexpended balance of any funds that have accrued to a county school service fund under a grant of federal funds, or a grant of private or foundation funds, required to have been expended for a specified purpose, plus the amounts of county school service fund money committed for the specific purposes as required to receive the grant or trust;

SEC. 5.5. It is the intent of the Legislature, if amendments to Section 17601.1 of the Education Code proposed by both this bill and A.B. 955 are enacted, that both amendments be given effect and incorporated in Section 17601.1 in the form set forth in Section 4.5 of this act. Therefore, in the event A.B. 955 is enacted and amends Sections 17601.1, Section 4.5 of this act shall become operative at the same time that Section 17601.1 as amended by A.B. 955 becomes operative, and at that time, Section 17601.1 of the Education Code as amended by Section 4 of this act is repealed.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

As a result of statutory changes made at the 1969 Regular Session of the Legislature, it is necessary that technical modi-

fications be made in the procedure prescribed for computing special class apportionments for school districts. If such modifications are not immediately made, during the current fiscal year, a school district could be inadvertently deprived of a justified classroom allowance. Such action would be inequitable to the school district and could cause undeserved financial hardship. It is also necessary that actions taken by school district governing boards during the period between July 1, 1969, and August 28, 1969, pursuant to Section 15517 of the Education Code, be validated as soon as possible. For these reasons, it is necessary that this act take effect immediately.

The personnel committee may adopt rules and regulations providing for a personnel system for all municipal courts of Orange County which shall provide for equal treatment concerning methods and conditions of employment for employees and attachés of the several courts and the marshal's office and which shall provide equal treatment for such employees as is provided for

Orange County employees generally. In so providing for a personnel system, the judges may adopt all or any part of the personnel and salary resolution of the County of Orange.

(d) With the approval of the board of supervisors, the personnel system adopted by the personnel committee and made applicable to all the municipal courts of Orange County may be administered by the County of Orange through its personnel department. The board of supervisors may withdraw its approval at any time.

(e) If an increase in the business of the court or any other emergency requires a greater number of attachés or employees for the prompt and faithful discharge of the business of the court than the number expressly provided in this article or requires the performance of duties of positions in a class not expressly provided in this article, a majority of the judges of any of the courts, with the approval of the board of supervisors, may establish additional titles, pay rates, and positions as they deem necessary for the performance of the duties and exercise of the powers conferred by law upon the courts. Rates of compensation of all officers, attachés, and employees may be adjusted by joint action and approval of the board of supervisors and a majority of the municipal court judges of Orange County. The establishment of additional titles, positions, and pay rates and changes in compensation made pursuant to this subdivision shall be on an interim basis and shall expire 90 days after adjournment of the next regular session of the Legislature. The provisions of this section are directory only and are not mandatory and are not intended to affect the application of Section 72150.

CHAPTER 840

An act to amend Section 15518 of the Education Code, relating to school buildings.

[Approved by Governor September 3, 1970. Filed with
Secretary of State September 3, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 15518 of the Education Code is amended to read:

15518. The governing board of a school district may undertake corrective measures relating to earthquake safety recommended to the governing board pursuant to Section 15503 in connection with any school building under the jurisdiction of the governing board without compliance with the procedures otherwise prescribed by Section 15505.

The maximum rate of tax of any school district for any school year is hereby increased by such amount as will produce the amount necessary to have any school buildings examined as required by Section 15503 and to effect the corrective structural repairs, reconstruction or replacement relating to earthquake safety recommended pursuant to Section 15503, as shown by the budget of the district for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from revenue from the increase in the rate of tax provided by this section. The funds provided by such increase in the tax rate may be used for the lease of temporary portable buildings for the housing of pupils temporarily displaced by the repair, reconstruction, or replacement of school buildings required in order to meet earthquake safety standards.

The increase provided by this section and Section 15517 shall not exceed a total increase of ten cents (\$0.10) for each one hundred dollars (\$100) of the assessed valuation of property within the district in each fiscal year.

If at the end of any school year, there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance may be accumulated until the date specified in this section for the termination of its effect and shall be used exclusively for expenditures of the school district for purposes of this section.

This section shall remain in effect only until July 1, 1975, and thereafter shall be of no force or effect. This section shall remain in effect until such date regardless of the repeal or expiration of Section 15517.
